Primer (page 1265)
f and Gutter Paint
protecting roof metal

2 Repainting exterior wood

(a) Scrape and wire-brush surfaces to remove loose, peeling and blistering paint, and to remove excess dirt and grime. Nail all loose boards into place. Replace wood in rotted or bad condition.

(b) Countersink nailheads into wood.

(c) Spot-prime all new wood and bare spots with MASTER-MIXED House Paint Undercoat (page 1262).

(d) Fill nail heads and caulk around all doors and windows with our Caulking Materials (page 1263). Take special care where paint has peeled or blistered.

(e) Paint that is chalking or powdering need not be removed, just wire-brush and dust the surface.

(f) Cover knots with Shellac (page 1261) or Aluminum Paint (page 1264).

(g) Apply 2 coats of MASTER-MIXED House Paint 30 GM 101 to number 30 GM 160 (page 1262) or one coat of our New SNOWHITE House Paint that covers in 1 coat (page 1263).

(h) Be sure to repaint gutters and downspouts, trim, screens and also storm windows for the finishing touches to a job well done.

Walls and Ceilings

3 Painting new walls, ceilings

(a) Let new plaster dry 6 months before painting with oil paints or enamels; if using Rubber base flat SERO-TONE or Casein plaster need dry only 1 week.

(b) MASTER-MIXED One Coat Self-Sealing Flat Wall Paint may be applied to plaster wallboard, wood, wallpaper, brick or concrete without a primer coat except when using Deep tones.

(c) For semi-gloss, high gloss and enamels, apply a first coat of Wall Primer and Sealer (page 1256) without thinning. Allow to dry 24 hours.

(d) Select finish paint from pages 1256, 1257, 1258, 1259. Stir finish according to instructions on can. Paint ceiling first. Paint a strip 2 to 3 feet wide across narrow width of room. Start second strip at same side of room as first strip. Follow for entire ceiling always keep a wet edge to avoid laps. Apply with wide brush or paint roller.

(e) Begin painting walls at ceiling in one corner. Paint to floor in strips 2 to 3 feet wide. Apply paint in a sweeping motion. Finish with up and down stroke. For paint rollers (page 1271).

4 Painting over painted walls

(A) If old finish was enamel or high gloss finish, do this:

(1) Wash walls, ceilings; rinse thoroughly; then allow to dry. If old finish is very glossy sandpaper lightly

(2) Patch cracks with MASTER-MIXED Patching or Spackling materials (page 1259). Seal patches with Wall Primer and Sealer (page 1256) before applying finish.

(3) If old finish is darker than finish coat to be used, apply Enamel Undercoat (page 1257) to walls and woodwork. If not, your MASTER-MIXED finish will cover most surfaces in one coat.

(4) Allow Undercoat to dry 24 hours.

(5) Apply selected finish as per instructions on label and according to (d) and (e) in (3) above.

(B) If old finish was flat wall paint or a water-base paint

(1) Proceed as in (1), (2) under (4A)

(2) Apply Wall Primer and Sealer (page 1256) to walls. Use brush or roller coater to apply.

(3) Apply selected finish according to instructions on label. Proceed as per (d) and (e) under (3) above.

page 1268) protect floors,
re when you are paint-
Turpentine and Linseed
3.

6 Varnishing woodwork, furniture

(A) On hard wood (oak, walnut, etc.)

(1) Remove all dirt, handmarks, etc. with sandpaper or cleaner.

(2) For natural color—fill pores with MASTER-MIXED Wood Filler (page 1270). Wipe off surplus Filler. Let dry overnight. *Note:* if you desire color, apply coat of MASTER-MIXED Oil Stain (page 1260) before using Filler. Allow two hours for Oil Stain to penetrate woodwork before continuing.

(3) Sand lightly and apply MASTER-MIXED Varnish (page 1261) thinned with Turpentine (page 1263). Use ¼ pint MASTER-MIXED Turpentine to 1 quart of Varnish.

(4) Let Varnish dry for 24 hours. Steel wool surface, then dust.

(5) Apply second coat of Varnish without thinning. Apply third coat if desired.

(B) On soft wood (pine, fir, etc.)

(1) Proceed as in (1), see (6-A) above.

(2) Apply No. 30G2741 Clear Seal (page 1261). Let dry two hours. Then sand smooth and clean.

(3) Proceed as in (3), (4), and (5) of (6-A). Apply third coat if desired.

Old and New Floors

7 Varnishing new wood floors

(A) Open-grained woods (oak, walnut)

(1) Smooth floors and sandpaper.

(2) Apply Paste Wood Filler (page 1261) according to directions.

(3) If stain color is desired, apply stain before filler. Allow stain to set 2-hrs. before applying Filler. Allow to dry overnight.

(4) Apply one coat of MASTER-MIXED Varnish (page 1261) thinned with ¼ pint turpentine to each quart of varnish. Let dry 24 hours, then steel wool surface. Sweep up particles with Tack Rag (page 1261). Apply 2nd coat without thinning.

(B) Close-grained woods (maple, birch)

(1) Proceed as (1) under (7-A).

(2) Fill imperfections and cracks between boards with water-putty softwood, or Crack and Crevice Filler (page 1261).

(3) Let dry, then sand away excess.

(4) If stain finish is desired, apply coat of stain color you desire (page 1260) as per label directions.

(5) Apply coat of Clear Sealer (p. 1261). Let dry 2 hours. Steel wool surface.

(6) Apply 2 coats of Varnish (page 1261). Allow 24 hrs. between coats and steel wool between coats.

8 Varnishing old floors

(A) Our first recommendation

(1) Apply MASTER-MIXED Easy-to-Use remover page 1265.

(2) Lift off finish with scraper.

(3) Wash with Cleaner and Bleach.

(4) Apply one coat of 30 G 2741 Sealer page 1261.

(5) Apply one coat MASTER-MIXED Floor and trim Varnish page 1261.

(B) Method 2—Not removing varnish

(1) Scrub entire floor—paying particular attention to worn spots—until all dirt is removed from the pores of the wood.

(2) Rinse floor—remove all cleaner.

(3) Allow to dry thoroughly—sand worn spots lightly.

(4) Apply MASTER-MIXED Oil Stain (page 1260) to worn spots. Apply lightly at first. Gradually work worn spots up to color of rest of floor by adding more Oil Stain.

(5) Allow stain to dry 24 hours.

(6) Touch up with MASTER-MIXED Varnish (page 1260, 1261).

(7) Proceed as per (3), (4), (5), of (6-A) in column at left.

New way to seal paints . . Sears patented "RING SEAL"

! A lightweight metal ring seals the can lids on tighter
6 spots of solder . . yet you may unseal lid in seconds!

dered paint can lids on many of our most popular paints. A simple improvement customers like it . . . the tamper-proof overseal, extending over the lip of the ion plug top of the can, is quickly clinched down over the top edge, making to remove the can closure without first taking off the seal. A metal tab or s removal of the seal simple. It leaves cans in good condition for re-use. This quart and gallon sizes only of certain paints—as indicated on following pages.

d in a recent issue of the MODERN PACKAGING: "*Attractive in appearance, the is also superior in performance to intermittent soldered joints. Furthermore, it k and easy removal of the lid without damage.*" It helps keep paint fresh. You he can better to store unused paint.

Why Siliconized Paints are BETT

A black pencil, when drawn across the surface of a siliconized paint, slides right off ing . . . that's how slick it is! To your finger-tips, all 6 of our siliconized paints fee This is because they are made from some of the same silicone chemical products fine plate GLASS. When silicones are added to the rich pigments and resins of they add many of the characteristics of GLASS—hardness, smoothness, stain and Don't expect to find these siliconized features in paints bought anywhere but at paints on these 2 pages that are now "siliconized" are: (1) Semi-Gloss Finish; (2 Finish; (3) Refrigerator Enamel; (4) Snowhite Enamel; (5) 4-Hour Enamel;

Our 6 "Siliconized" pain

Oil-Base SEMI-GLOSS

Not just another Semi-Gloss, but a siliconized paint so superior in slickness, stain and mar-resistance that we don't believe others match it. **$4.49** Gallon

Use on any interior surface of wood, metal, plaster. Use Primer, first on new plaster; Undercoat on new wood. Gallon covers 600 sq. ft. 1 coat.

FLAT WALL PAINT

$1.05 QUART **$3.59** GALLON

- Our most-popular oil-base Flat Wall Finish
- One coat covers most surfaces without a primer
- It's SCRUBBABLE . . . not just washable!
- Our "ring seal" assures good delivery

A A rich oil-alkyd paint that only Sears factories make. Instead of soaking into the surface, oils stay in the film. That's why colors stay so lovely, "alive." We don't believe ANY oil-base flat paint can cover as well, seal as effectively or produce such beautiful colors.

No other oil-base paint we've ever sold is so easy-to-apply or has so many delicate colors. Even on wide areas, where others may develop a gloss, this paint is flat. Also unlike others, it has extra resistance to dirt, grease, finger marks, stains, water, etc. For plaster, wood, metal, stone, wallpaper. Gallon covers up to 450 sq. ft. 1 coat, without use of a primer. Dries fast. 6 to 8 hrs.

"RUBBERIZED" CONCRETE ENAMEL

$5.29 Gallon

Beautifies concrete! Not just another enamel with a little rubber added, but a protective film with so tough a rubber base you'll wonder how it can be so durable and at the very same time, so sparkling bright. Even on concrete around washtubs and machines, where other floor enamels may crack, MASTER-MIXED holds on . . . stays beautiful! Not even strong soaps, hot grease, acids, grinding heels, etc., harm it. Won't water spot or soften. Perfect for basement floors, concrete steps, display rooms, dairies, garages, sidewalks, etc. Use inside or out! Because of its superior rubber base, you can paint concrete below grade level. Easy-to-apply. Very smooth! Brush or roll on. Gallon covers up to 500 square —at. Protected with "Ring Seal" . . (see page 1239). IMPORTANT TIPS: Concrete be washed, etched, rinsed and dried before painting. See Concrete Etcher . . e first, for best results. *Orders for gallons filled with qts.

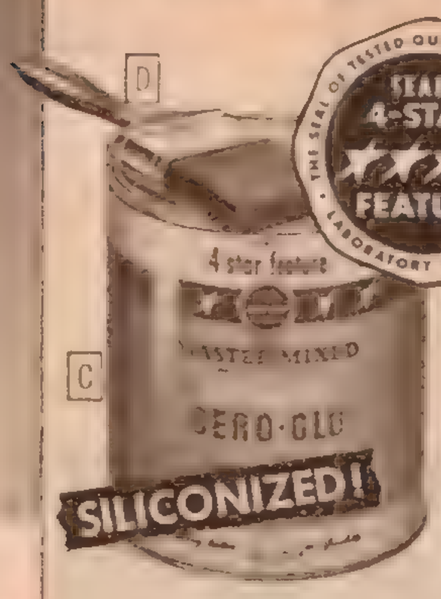
Another 4-STAR Feature!



Master-Mixed SERO-GLO

Our finest oil-base finish

Packaged with "Ring Seal" . . see pg. 1255

So tough you can use outside

Scrub-tough, not just washable!

As tough as fine enamel!

C A 4-Star Feature because no other we know of has all its features at this price. Smooth-as-glass because it's siliconized. Gives all the advantages of enamel without a high gloss. Use on wood, plaster, metal, paper. Fine for baths, kitchens or walls, ceilings, furniture, trim. One coat covers most surfaces without a primer . . . high hiding power. Gal. does 500 sq. ft., 1 coat. Use Enamel Undercoat, first on new wood; Primer first on new plaster.

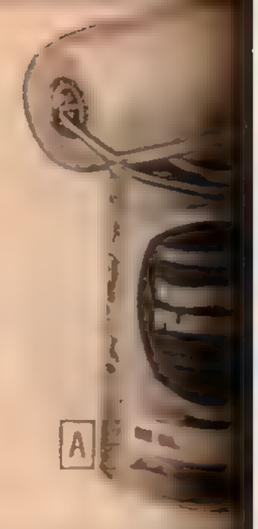
Master-Mixed Rubber-Base FLAT WALL PAINT

$1.08 QUART **$3.77** GALLON

- Easiest-to-apply paint we've seen!
- As scrub-tough as first-quality oil-base paint
- One coat covers! Dries in 1 hour! No odor!
- Water rinses brushes clean . . . no bother!
- Send for FREE Color Card 6406G today!



[A] In a test, we painted one side of a newspaper with this rubberized paint. We let it dry. Then, wadded it into a tight ball. When spread flat again, the paint film was unbroken . . . just as smooth as before. That's how "flexible" this rubberized paint is.

Start and stop anywhere. Even missed spots can be touched up later without showing. We painted an "X" two feet high on a coat of this paint that had been allowed to dry for one hour. The "X" blended right into the old color without showing. As for washability this rubberized paint beats most fine oil-base paints. Dirt sponges off rather than rubs in. Our tests indicate it beats oil paints too, in resistance to stains, grease, water, ink, finger marks, etc. Unlike ordinary flat paint, this rubberized paint does not dry dull or "lifeless." Rather it is distinguished by a soft, velvety smoothness.

Its soft, mellow colors are sure to please in living room, bedrooms, dining room. You don't even need a primer when you use this paint. Ready-mixed . . . simply open can; stir and apply liberally with a wide brush or roller. One gal. covers up to 650 square feet, 1 coat. Use on plaster, wallpaper, wood, stone, primed metal. Dry wall construction.

3 quarts of Sero-Tone does average 10x12-foot room!

[C] Saves dollars! Imagine doing a big room for less than $3.00! You can do it with SERO-TONE. Why put up with dull, dingy, streaked walls when it costs so little to re-decorate with this famous paint? And it's so EASY too! Even an amateur can brush or roll it on with amazing ease. Brushes, rollers easily cleaned with tap water after painting. Produces a soft kind-on-your-eyes finish in your choice of 13 high-fashion colors. (See Deep Tones, too.)

One coat covers almost any surface. Goes right on over wallpaper, plaster, wood, brick, stone, metal. Mix 1 Gal. with 2 Qts. of water, get 1½ Gals. paint. Very popular for living room, bedrooms, dining room. Washable with mild soap and water after 30 days. Gal. covers up to 700 sq. ft. of hard, smooth surface. SERO-TONE is colorful proof that at Sears, washable wall beauty need not be expensive. See colors at right.

Another 4-STAR Feature!

Rubber-Base, Ready-Mixed SERO-TEX TEXTURE PAINT

Easy to apply and texture

Outstanding washability

Use room 2 hours after painting

In durability, good-looks and texture, SERO-TEX, when applied correctly, reminds you of expensive real plaster. We believe these 3 features, and the others below, cannot be matched! We've seen similar-type paints . . . you may have seen them too. Remember to compare price tags . . compare features. Our merchandise shoppers do just that. Because it has so many features and yet is priced so low, SERO-TEX Texture Paint is a 4-Star Feature!

F Do you need to replaster old cracked walls or ceilings or plaster new walls? Save dollars by doing the job yourself. Gives walls and ceilings a distinguished textured appearance; durability and solidity of plaster. On dry wallboard, after joints are treated, or for old cracked walls, 1 coat of SERO-TEX finishes the surface easily. It's ready-mixed, ready-colored. Soft, cream consistency ends drips. Rubber-base means great washability. Brushes rinse clean with water. No odor! To finish cracks before applying SERO-TEX, see "Dry Wall Construction" below. Use inside only! You texture as you apply it with brush, below, or with roller, comb, or sponge. May also be applied to primed wood, metal. Gallon does up to 140 sq. ft. 1 coat, depending on condition of the surface.

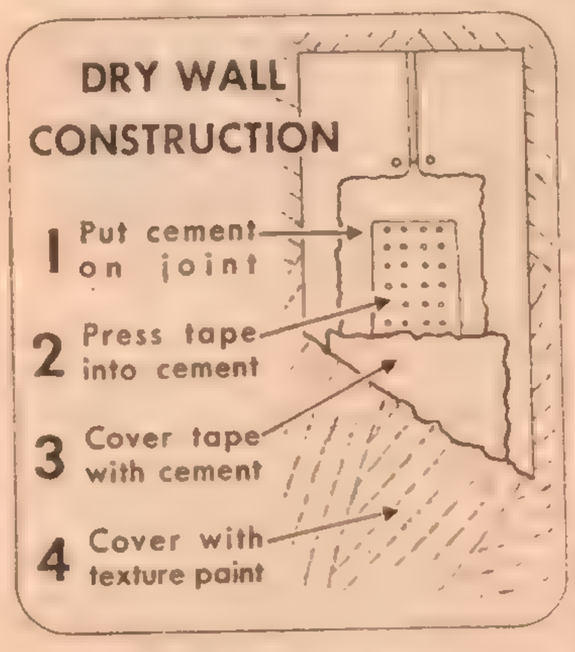
DRY WALL CONSTRUCTION



Off-White TEXTURE PAINT

$3.22 25 lbs.

Save on replastering costs! Flows smoothly onto plaster, wallboard, primed metal, brick. One coat turns old walls and ceilings into expensive-looking plaster effect. May also be used to make a smooth surface base for another paint or wallpaper. For unfinished wallboard see Dry Wall Construction (left).

Easy to work with. First, estimate the area to be painted. Allow 25 pounds of powder texture paint for every 225 square feet to be covered. 1 coat. Or, easier still, order 45 pounds of powder texture paint for the walls and ceilings of an average 10x12-ft. room. If color is desired, order color in size desired (see below). Add tints to proper amount of water and stir well (direction on packet for ratio). Add texture paint powder to colored water and begin. When walls have been covered, create your own designs with comb, brush or any simple tool. We recommend you read about our rubber-base SERO-TEX (above).

"Brush-on" CLEAR PLASTIC

$2.40 QUART **$8.50** GALLON

- Use where superior spar varnish is needed
- Virtually unaffected by outside exposure
- Will not yellow or whiten with age or wear
- Flexible! Acid-resistant! Jewel-bright!

This is a "heavy-duty" plastic designed to be brushed or sprayed on, and used wherever a superior spar varnish is required . . . inside or out. Use it on any wood, metal, masonry or leather surface. This thick, flexible, clear coating is even more resistant to severe weather and water conditions than the finest spar varnish. It outwears ordinary varnish 3–4 times, tests prove.

Unlike others, it will not yellow with age even in dark, damp places. We think its resistance to scuffing, scratching, alkali, soaps, greases, stains, etc. is the very finest you can have. Because it is virtually unaffected by hard wear and weather, it is the perfect clear finish for outside house or garage doors, porch and lawn furniture, trim, boats, station wagons, truck bodies, sports equipment. Its resistance to alkali, soaps, acids, etc. make it a top finish for table tops, bathroom doors trim and furniture, bar-tops, counters, shelves, kitchen doors and trim, woodwork, etc. Enhances natural wood colors with a mirror-slick gloss that you can easily wipe clean again and again without its softening or turning white. When properly applied, this plastic is so tough yet so flexible, that even hard hammer blows will only dent it . . not crack or chip! For toughest protection for floors, see our Wipe-on-Plastic. Gallon covers up to 800 sq. ft., 1 coat.

Another 4-STAR Feature!

Master-Mixed Wipe-on-type Clear P-L-A-S-T-I-C Finish

$6.60 GALLON

Several thin coats of this plastic, if properly applied, are virtually unaffected by wear. We honestly believe that this plastic is the toughest floor finish available in America. Superior to every finish we know of in abrasion resistance, water, alkali, acid resistance. One gal. covers not 700 . . not 800 . . but 1000 sq. ft. . . and you wipe it on as easy as polish. Dries 2–4 hrs. It's crystal-clear, perfect for light wood floors and linoleum. Also for trim, furniture, brass, copper, silver. No need to worry about water, alcohol, hot grease, fruit juices, soaps, oil, etc.

Unlike others, it will not yellow with age . . even in dark closets or after up to 5 years of wear! Apply 2 or 3 coats for high gloss . . extremely long, hard wear. We recommend applying with special velour applicator listed below. May also be brushed or sprayed on. Not for asphalt, rubber tile.

30 G 02709—Clear. State SIZE
PINT—Shpg. wt. 1 lb. 12 oz. $1.20
QUART—Shpg. wt. 3 lbs. 2.05
GALLON—Shpg. wt. 10 lbs. 6.60
30 G 8707—**Applicator.** Shpg. wt. 3 oz. 25c

A 4-Star Feature because it combines all features most needed in a floor finish; has up to 20% wider coverage than any we've tested; stands up even after 4½ yrs. wear, if properly applied; has more stain, alkali and acid resistance than any we know of; is still priced low because of the cost-cutting know-how of our own paint factories.

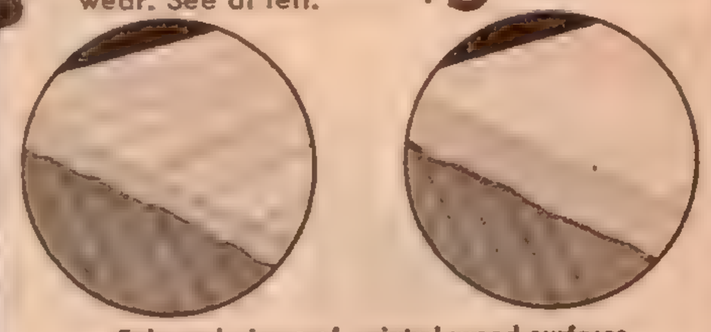
1-Coat Snowhite House Paint
ONE coat wears like TWO!

Your best buy for longer wear. See at left. $5.95 GALLON



Enlarged views of painted wood surfaces

One coat of conventional top-grade house paint over previously painted wood.

One coat of Snowhite One-coat house paint over previously painted wood surface.

A See the double-thick coat SNOWHITE gives in only one coat. Notice the smoothness . . brushmarks level out, leaving a smooth, brilliant white finish. SNOWHITE lets you obtain a 2-coat job in only one application and thus saves one half the time of applying it yourself or one half the cost of professional application.

This is NOT just a "thick" paint that you thin down . . YOU DO NOT THIN THIS PAINT. And it is NOT "stiff" or hard to apply. Specially processed linseed oil combined with smoothly ground pigments make it possible to get the double-thick and solid-drying film.

More titanium in this paint than any we know of. That's why we guarantee one coat to cover. Washes clean with each rain. Mildew resistant. Fume proof. Gallon does 400–450 sq. ft. Use our Undercoat first on new wood, bare-spots or badly weathered wood. Delivered with "ring seal" certainty. See page 1255.

decay. Reflects heat rays. I co
covers any surface—even bl

Fall is the time to paint barns

All-purpose Master-Mixed ALUMINUM PAINT

$4.15 GALLON in 5-gal. can **$4.25** GALLON in 1-gal. can

- A tough "all-purpose" Aluminum paint
- A popular paint for barns, roofs, stock buildings
- Insulates against heat and cold . . reflects sun rays
- One coat hides any color! Easy-to-apply!
- Metal flakes "Lock out" water, corrosion, rot, decay

Contains pure aluminum which, unlike other pigments, is in thin, flat "flakes," rather than grains. When dry, these "flakes" "interlock" in a solid overlapped coat that sheds water and sun rays just as a thin coat of shiny metal.

Weighs 50% less than common paints . . means easy application, good hiding. 1 coat covers—even black! This is the paint especially recommended for outside metal surfaces. Fine too, on tanks, bridges, machinery, barns, stock buildings, sheds, pipes, concrete, brick, slate.

ROOF AND BARN PAINT

$2.55 Gallon in 1-gal. can (Red) **$2.45** Gallon in 5-gal. can (Red)

- So resistant to destructive ultraviolet sun rays, you can use it as a TOUGH, bright roof paint!
- Available in WHITE, GREEN and RED!
- Sealed with our new "Ring Seal"
- Use on barns and all outbuildings

This paint, our lab tests indicate, has outstanding resistance to ultra-violet sun rays that fade and tear ordinary paints down. That's why, even on wide roof areas where the sun is hottest and weather the most severe, MASTER-MIXED Red Roof and Barn Paint stays bright and protects for years.

When the paint for an average-size barn costs less than $20.00, why let your investment in buildings decline by neglecting to protect them with good paint! Good Barn Paint gives many extra years of life, and adds to property value, tests prove.

Contains plenty of pure linseed oil and top-quality pigments. White contains a high percentage of titantium. Gallon covers up to 400 sq. ft., 2 coats.

White and green not recommended for use as roof paint . . . use red only.

RUST-RESISTANT ALUMINUM PAINT

Use where rusting has begun

$1.75 Quart **$6.25** Gallon

- Popular for barns, roofs, stock buildings
- Produces maximum brilliance . . . reflects sun rays
- One coat covers! Easy-to-apply! Dries quickly!
- Retards rust! "Locks out" moisture, corrosion, rot
- Insulates against heat loss during winter

Not to be confused with ordinary aluminum paints. This is a super aluminum which gives perfect "leafing." It is so effective that you can apply it directly over rusting metal after scraping off the loose rust. When dry, aluminum flakes form that thin, silvery coat hat "locks out" moisture, etc. Use on all outside metal, barns, roofs, pipes, garages, industrial surfaces. Gal. does

up to 700 sq. ft., 1 coat. effectively retard rust. lasting rust resistance, mate Primer followed Aluminum Paint 30G0 listed directly above.

CREOSOTE UTILITY PAINT

$3.39 Gallon in 1-gal. can **$3.29** Gallon in 5-gal. can

- Superior protection, beauty for your barn!
- Non-staining! May be painted over later
- An effective termite and insect repellent
- Resists action of even the severest weather
- Adds to your property value

This white Creosote Utility Paint is a money-saving "2-in-1" paint. Gives your buildings the superior protection of creosote PLUS a clean, sanitary white finish that does so much to keep your property in peak condition. Made with refined creosote that is non-staining and may be painted over later with any paint you wish. Fights decay and rot.

Highly recommended for barns, sheds, fences, garages, stock pens, poultry houses. Not harmful to animals. Creosote helps protect wood from termites and other destructive insects. Easy to brush or spray on. Gallon covers up to 325 sq. ft., 2 coats. *Unmailable.* Shipped freight or express. Safe delivery assured by our "ring seal"—no more soldered paint lids.

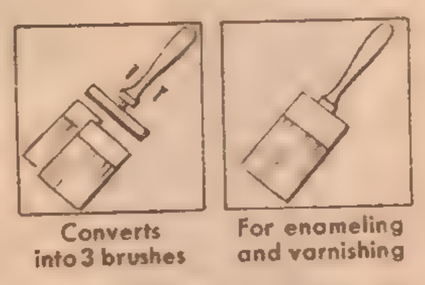
"3-Way" Convertible WORKMASTER BRUSH

Reg. U.S. Pat. Off.

A comparable 3-brush set costs you over $1.00 more. Now ONE Brush you can use for most paint jobs



$2.75 Complete

You do NOT need a priority rating to order this brush!

Many customers have asked to know more about this revolutionary new brush, maybe you were one of them. We are showing a bigger picture of it so you can see it close up. Some suggested ways to make it an even better value.

So we've asked the manufacturer to give it new features making it better than ever. Now it has a special screwdriver built right into the handle . . you do not need any other tool to convert it into 3 different widths. Also, the bristles have been improved for longer-wear. We believe it's an ideal brush for the average household painter . . . thousands have ordered already.

Makes a 1½, 2½ or 4-inch brush—a comparable set of 3 brushes would cost you over $3.75. This brush actually saves you more than $1.00 over Sears low catalog prices. It converts into ALL the correct widths for almost ANY type paint on ANY job. Use with varnish, enamel, oil or water-type paints . . . inside or out. Very durable bristle mixture of pure hog bristles and synthetic. Heavy metal-plated ferrule resists rust and corrosion. Smooth, enameled wood handle comfortable in any painting position. Comes individually packaged with simple step-by-step directions on their use and care. Bristles are 2¾ inches long in each brush width. **No priority required.**

30 G 3527–Complete with directions. Shipping weight 10 oz... **$2.75**

NOTICE TO FARMERS AND BUSINESS OWNERS

Under National Production Authority Regulation 4, any business, (including farms) or public and private institution, may use a "D.O.-MRO" priority rating to obtain brushes with bristles longer than 2⅜ inches when such brushes are to be used for maintenance, repair and operating supplies or minor capital additions as defined in the regulation.

Brushes for Household Use do not qualify for a priority rating but may be ordered in the regular way. Such orders will be filled as long as stocks are ample. **If you qualify for a priority rating, cut out the certification below** (or copy it on a separate sheet of paper). Sign it and attach to your order.

WORKMASTER WOOD LADDERS . . built to hold up to a to...

SQUARUNG EXTENSION LADDER

Sears Finest Wood Extension Ladders available in six different lengths. NOW! 40-ft. size once again available! These are the ladders with the "squared" rungs . . . only wood ladder we know of with this exclusive feature . . . gives you greater standing room, greater comfort, greater safety. These ladders are also the STRONGEST! In tests, these ladders held ONE TON! **$19.60** 20-foot

All rungs are mortised, nailed and then reinforced still further with a strong steel tie-rod. You can't beat that for really rugged construction. Made of only the very first-quality fir and second growth hickory, fine texture, straight grain, lightweight, inspected before construction is begun. Strong steel guide irons and automatic steel hooks are rust- and corrosion-resistant. Sections extend up and down quickly and easily. Shipped freight or express from factory at Dallas, Texas. 36-ft. and 40-ft. sizes by freight only.

30 G M2964F—State LENGTH. Freight or express.

LENGTH		Shipping weight	Price
20 feet	10-ft. sections.	50 lbs.	$19.60

28 feet	14-ft. sections.	70 lbs.	28.19
32 feet	16-ft. sections.	80 lbs.	32.50
36 feet	18-ft. sections.	90 lbs.	36.25
40 feet	20-ft. sections.	100 lbs.	40.75

Round-Rung EXTENSION LADDERS

Our thriftiest Wood Extension Ladder. Yes, these ladders are low priced . . . but just try to beat the features and quality. Take your pick! Low priced, yet rungs are mortised and nailed so tightly they held 1000 lbs. in rigorous lab. tests! Ruggedly constructed from fir and second-growth, knot-free hickory wood; seasoned and inspected, before construction is even begun. **$16.50** 20-foot

Tough, malleable guide irons and locks. They work easily. All hardware is rust- and corrosion-resistant. Lightweight . . . you'll find these ladders plenty sturdy yet lightweight enough to be moved easily from place to place and into storage. Guaranteed WORKMASTER construction. See Roof Hooks below . . . grips roof peak like a claw. A safety device that makes roof repairing easier. Shipped freight or express from factory at Dallas, Texas. 36-ft. and 40-ft. sizes by freight only.

2-Foot MAGNESIUM STEPSTOOL

$6.79
Stepstool

C This 24-inch Stepstool weighs less than a big Sears Catalog yet it holds up to 600 pounds! It's the correct height for odd jobs in kitchen, basement, garage, workshop . . upstairs and down. Use it to speed painting, wallpapering, washing walls, hanging screens, cleaning, dusting, washing cars. Can't rot, rust, split . . . will last indefinitely. Has wide grooved steps for a safe, comfortable foot-surface. Top step is 7-in. depth for added safety. Folds compactly for easy storage. Has rubber feet to protect your floors. Strong cross bracing adds sturdiness. Chromalite dipped to provide a glistening finish. Packed in individual cardboard carton.

30 G 02860—Shipping weight 6 pounds. $6.79

MAGNESIUM EXTENSION LADDERS

Only metal ladder we know with these PLUS features: rollers on ladder top; rubber feet on bottom that convert to ice cleats for slippery surfaces; bolted construction . . . not welded; corrugated rungs . . that hold not 500 . . not 600 . . but 1000 lbs.; made from magnesium alloy lighter even than aluminum; chromalite dipped at the factory.

$45.50
20-foot

D Compare features . . . compare price! We honestly believe you can't buy a better ladder value than these Workmaster Extensions. Weigh 40% less than comparable wood ladders . . can't rot or rust, split or splinter. Slide the two sections apart and use each as a separate ladder for double-duty performance. Strong rope and pulley hoist for easy raising or lowering. Rollers on top of ladder make moving easy. Remove pin on hinged rubber feet and ice cleats are ready for slippery surfaces. Automatic safety locks. Built to give service for many years. If properly cared for, these Magnesium Extension Ladders should outlast even the finest wood ladders by years.

Bolted construction . . . easily repaired if damaged . . no need to return ladder to factory. All ladders shipped freight or express from your nearest Sears Mail Order House. 36-foot and 40-foot size ladders are shipped by freight only.

30 G M2865—State LENGTH. Freight or express.

Three Great Sears Rust-Resisting Screens!

Long-life! Galvanized AFTER Weaving

Less than **6c** sq. ft.

36-in. x 100 ft. **$17.95**

Here's rugged, tough galvanized screening at its very best! And at off-season prices that make it worth your while to select your screen now. Full gauge open hearth steel wire for long-life strength and durability. Heavily galvanized AFTER weaving to insure a tighter mesh bind . . then given an improved baked-on enamel finish to assure longer life. Fine 18x14 mesh keeps out smaller insects, etc. Meets government specifications RRC-451A for galvanized screen. ***Be sure to state length and width wanted.*** Prices in table below apply only to exact lengths listed. Odd footage over roll lengths sold at per foot price. (NOTE: For neat, strong, easy installation be sure to order the Automatic Compression Screen Stapler listed below. It's fun, it's quick, it's the best way we know of to mount screens!)

Hammer-type and Compression Staplers

A **Hammer-type Stapler.** Staples are held in stapler handle and driven automatically when the stapler strikes. An especially fine tool for installing insulation, building paper, sign and display work, etc. (For installing screens we recommend 9 G 6864 compression stapler below.) Strongly made of steel with rust-resisting finish. 11¼ inches long. Holds two full strips of staples, 9 G 6865 below, ¼ or 5/16 in. long. (Staples are not included.)
9 G 6859—Shipping weight 3 pounds. **$11.95**

B **CRAFTSMAN Compression Stapler.** (*The quick and easy way to tack screens.*) An amazing work saver for almost any tacking job. Ideal, too, for carpets, upholstery, insulation, etc. Just compress the handle and . . . z-i-p . . . a staple is driven automatically. No banged fingers—one hand is always free to hold the work. Extra heavy duty type. Drives heavy (.050) staples of ¼, 5/16, or ⅜-inch lengths. Sturdy construction of long life steel with rust-resistant finish. Screen stretching attachment included at no extra charge; an excellent aid for installing screening! 7⅜ inches long overall. Staples not included. See 9 G 6865 below for staples.
9 G 6864—Shipping weight 2 lbs. 4 oz. **$6.95**

C **Staples.** Heavy duty type (.050). Package of 5000 in strips. Shipping weight 2 pounds. *Please be sure to state length wanted when ordering.*

Length	¼-inch	5/16-inch	⅜-inch
9 G 6865	$1.79	$1.98	$1.98

Stop that Slam!

Felt Weather Strip

F Perfect for use on doors and windows. Strong wool-cotton felt weather strip . . . lasts longer and insulates better than hair felt. Seals out drafts, dust, etc.; helps keep floors warm. Prevents heat from escaping. A really worth-while investment . . . actually will pay for itself in just a short time with money saved on fuel bills! Felt strip ¾-inch wide. Easily cut with shears to desired length. And very easy to install! Simply tack it around doors and windows making certain crack is fully covered. Comes complete with necessary tacks for installation. Prepare now for cold weather ahead . . . and enjoy a snug, completely weatherproofed home the year around. Wt. 14 oz.
9 G 7494—100-foot roll. 79c

Spun Glass Weather Strip

G Here's the very latest in new, up-to-date weather stripping. Made of scientifically-perfect, fine, spun glass for tight, heat-saving packing. Now available at the low, low price of only 55c for 120 feet! Very easy to install. You simply tuck it into cracks with a knife! Eliminates nail holes, etc., as with conventional weather stripping. Expands after insertion to insure snugly sealed openings; completely plugs the crack with no chance for drafts to seep through. Can be used to plug cracks from the very smallest up to 3/16 in. Water-resistant so rain or pipe leaks can't harm it. Fire-resistant for use the year around in hot attics, etc., and vermin-resistant . . . rats or mice can't destroy it. Shpg. wt. 6 oz.
9 G 7480—120 feet..... 55c

Weather Strip . . Door Bottoms

Meets U. S. Government Specifications 4 ways!

Sears CHAINS meet U. S. Federal Chain Specifications RR-C-271 for:

(1) Breaking strength

(2) Weight

(3) Material

(4) Workmanship

DUNLAP Log Chains. Extra strong for long, hard use. Every foot of chain tested at maximum strength. Husky butt-welded open hearth steel links. Made of standard proof-coil chain. Recommended working load is one-fourth of breaking strain. With grab and slip hooks. Length 14 feet.

99 G 07742K—*State quantity and size.*

Size	Breaking Strain	Shpg. wt.	Each	2 for
¼-in.	3600 lbs.	11 lbs.	$3.59	$6.75
5/16-in.	5440 lbs.	15 lbs.	4.95	9.35
⅜-in.	7440 lbs.	23 lbs.	6.95	13.15
½-in.	13200 lbs.	40 lbs.	12.95	24.45

Tractor Chain. Super-strong . . . made to take the extra-heavy strains put on it by a tractor's pulling power. Exceeds Government specifications—your best assurance of highest quality. **Super Tuff**—outpulls, outlasts common log chain. Butt-welded high tensile steel links. With grab and slip hooks. Recommended working load is one-third of breaking strain.

99 G 07765L—*Please state size wanted.*

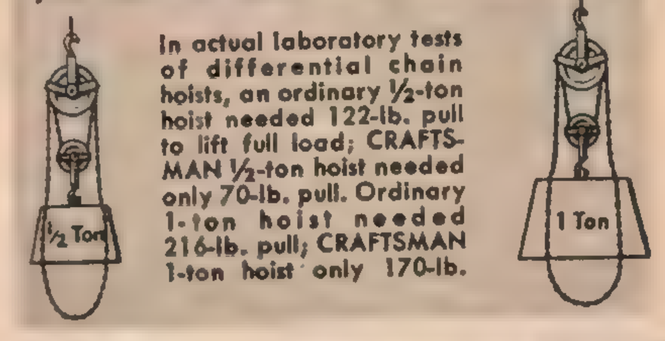
You get more "lift" with a CRAFTSMAN HOIST

CRAFTSMAN DIFFERENTIAL CHAIN HOIST gives you more lifting power because of its superior "anti-friction" construction

Torrington anti-friction needle bearings in lower sheaves

Timken roller bearings in lower load hook; easier turning!

ACTUAL TESTS PROVE ... CRAFTSMAN gives you more lifting power with less effort



In actual laboratory tests of differential chain hoists, an ordinary ½-ton hoist needed 122-lb. pull to lift full load; CRAFTSMAN ½-ton hoist needed only 70-lb. pull. Ordinary 1-ton hoist needed 216-lb. pull; CRAFTSMAN 1-ton hoist only 170-lb.

One man can easily lift a car motor. | Lift machines for locating or repairs. | Fast way to load bulky materials. | Many uses around the farm or shop.

Superior anti friction construction enables ONE MAN to lift capacity loads with a CRAFTSMAN hoist ... and do it much faster, more often, with less fatigue. See above for comparison with ordinary plain-bearing differential chain hoists.

$19.95 ½-ton capacity

IMPROVED ... yoke is now made of high tensile aluminum alloy—much stronger than a regular heat treated yoke. Light in weight; easier to handle. PLUS FEATURES ... Torrington anti-friction needle bearings in lower sheave where they do the most good. Strong, electrically welded load chain ... sure ... non-slipping ... holds load at any point. Continuous slack chain on either side. Heavy drop forged steel swivel hooks. Satisfaction guaranteed or your money back.
99 G 07886K—½-ton capacity, 7-foot lift. Shipping weight 31 pounds.....Only $19.95
99 G 07887L—1-ton capacity, 8-foot lift. Shipping weight 48 pounds.....Only 30.75

JACK SCREWS; TRACTOR JACK, HOOK

E **Bell-bottom Jack Screws.** Extra heavy duty. Swivel cap for easy turning. Drop forged steel screw; clean cut; smooth and easy working. Requires less effort. Semi-steel bottom. Screw diameter is bar size before threading. Capacity, 10 to 20 tons. *Please be sure to order by catalog number of size wanted.*

DUNLAP Hot Galvanized HARDWARE CLOTH

Galvanized in molten zinc AFTER weaving for extra protection!

Here's why we call this TOP QUALITY Hardware Cloth: It is made of full gauge steel wire ... extra heavy ... extra rigid ... uniformly woven ... full width ... bright finish. Galvanized in molten zinc after weaving—an extra heavy coat. This fills all crevices and securely binds all intersections to give extra rigidity (see magnified view at right). Gives years of protection from rust; for use inside or out. Won't flake or peel off. Leaves no place for dirt or bacteria to collect. Check those important features ... look at these low prices. Remember Sears famous guarantee of satisfaction or your money back. *Order by catalog number and be sure to state mesh, gauge, length and width wanted when ordering.*

Hundreds of profitable uses!

Here are just a few of its many uses around home, farm, factory, store and warehouse:

- Poultry flooring
- Ratproofing corn cribs, granaries and bins
- Gutter covering
- Plant guards
- Window guards
- Plaster reinforcement
- Fruit evaporators
- Incubator trays
- Ventilator covers
- Light partitions

AMD PAGE 1293 . . HARDWARE CLOTH

Natural colored, Water-proofed MANILA ROPE

Twisted from NEW, long, Govt. graded fiber. Waterproof treated to resist sun, moisture, mildew, rot, mold, bacteria, acids, etc.

Professional rope buyers look for two main things when buying rope. Do as they do, and look for these two features when you buy your rope: (1) Natural color—because this means that it is made of the highest quality fiber; and (2) Waterproof treated. HY-TEST rope has BOTH of these features . . . expertly twisted from select, long fiber 100% Manila, and waterproof treated to resist harmful action of weather and climate. Other ropes may *look* the same, but in actual use you'll see HY-TEST quality show up four ways: (1) extra strength, (2) lasting flexibility, (3) permanent smoothness and (4) longer life.

All fibers are oil sprayed and lubricated before spinning. Ideal for marine and industrial use, hardest farm use, etc. Play safe! Replace your old, frayed rope now. Order today!

Length of rope in a full coil: ¼, ⅜, ½, and ⅝-inch size, 1200 feet; ¾, ⅞, and 1-inch size, 600 feet. Orders weighing over 70 pounds shipped freight or express only.

99 G 07604L—*State size and length of rope wanted when ordering.*

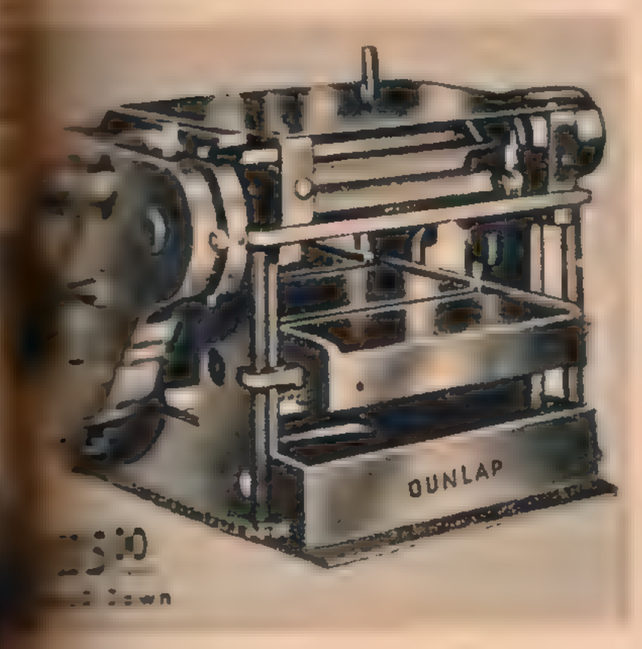
SAWMILL CATALOG
WRITE TODAY for Sears Sawmill Catalog 740G. It describes and illustrates our complete line of Sawmills and Accessories.

Power-feed Production-type Saw Mills. It's ideal for small professional operators. Handles logs up to 10 feet long and 24 inches in diameter. Precision construction gives thickness setting of 1/16 inch. Cuts can be automatically repeated. Equipped with special power feed for fast production . . . moves carriage with log to saw, "gigs back" carriage to starting position. Mandrel is precision built to run true. Bearings are heavily babbitted, *split to take up wear*. Heavy-duty steel carriage welded into one rigid, rugged unit. Steel carriage head-blocks open 26 inches from saw (mill will take up to 50-in. diameter saw blade).

With 6-ft. heavy-duty steel carriage, track and hardware for 18-ft. base, mandrel assembly, 40-in. CRAFTSMAN swage-set rip saw, slipping belt and fraction "gig back" power feed with cable and sheaves, 18-in. diameter or smaller mandrel pulley with 6-in. face. Woodwork for base not included, as base can be built from your own lumber for less than shipping charges from factory. *State kind of motor to be used, giving R.P.M., H.P., and pulley size, year and serial number if available so we can send correct mandrel pulley.* Shipped from factory near Kansas City, Mo., from where you pay transportation charges on delivery. Order from Sears nearest mail order house.
99 G M4791F—Shipping weight 750 pounds..... $340.00
99 G M4771F—**Power-feed Saw Mill.** Same specifications and construction as above saw mill but with 36-in. CRAFTSMAN spring-set rip saw of "Super-Tuff" steel. Shipping weight 720 pounds..... $325.00
99 G M4762F—**Steel Carriage Lengtheners** with tracks and base hardware to increase base length of above mills to 30 ft., and sawing capacity to 14 ft. Pair, each 2 ft. long, bolt to carriage ends. Shipping weight 87 pounds..... Pair $33.75
99 G M4763F—**6-ft. Steel Extension Carriage.** With extra tracks and base hardware to increase base length of above mills to 36 ft. and sawing capacity to 20 ft. Same construction as basic carriage; gives third top dog. Shipping weight 308 pounds..... $99.50



DUNLAP Planing Mill. High speed, heavy duty single surfacer. Takes work 12¼ in. wide up to 6 in. thick. Size: 30x22x16 in. high. All steel welded frame. One-piece cast table, polished top and 2 adjustable idler rolls. Crank elevates bed through continuous roller chain on four corner posts. Balanced cutterhead is tempered steel; self-aligning ball bearings. At 4000 R.P.M. planer feeds 24 linear ft. a minute with 42 cuts per in. Three ⅛x1 5/16x12½-in. tool steel knives. Fluted infeed and smooth outfeed rollers have adjustable spring tensioned thrust bearings for self-aligning pressure on stock. With steel chip-breaker and pressure bar. Requires 2-H.P. in soft woods; 3-H.P. in hard woods. *State whether 4-in. diameter arbor pulley is wanted for flat or V-belt.* Shipped freight or express from factory near Kansas City, Mo. You pay transportation charges on delivery. Order from your Sears nearest mail order house. Shpg. wt. 330 lbs.
99 G M4748F..... $215.00

Note: *For more information on Planing Mills and Accessories, send for Sears Sawmill Catalog 740G. It's free.*

D E **CRAFTSMAN Industrial Crosscut and Rip Saws.** "Super-Tuff" steel. Stay sharp; hold set. Hand hammered. Spring set. 32- and 36-in. saws shipped freight or express from factory in central Ohio. You pay shipping charges from there on delivery. Order from Sears nearest mail order house. *Order by catalog number, and state center hole size and saw diameter wanted.*

FAST-CUTTING, FACTORY-TESTED CHAIN SAWS . . GUARANTEED AGAINST DEFECTS*

Speedy all-purpose hook-type cutting chain. Rugged steel, greatly preferred by professional woodsmen!

Gravity-feed float-type carburetor. Assures easy starting at all times. No complicated adjustments.

Automatic throttle. Easy trigger-type conveniently located on handle bar in natural hand-rest position.

Positive chain-oiling mechani- gine lubrication provided by oil with gasoline in fuel.

Ask a Professional Woodsman . .

Lumberjacks the nation over have hailed the new Power Chain Saw as one of the greatest developments in timber-cutting. Hear their actual experiences! A Power Chain Saw in one instance completed one hour's hand sawing in just FIVE minutes. An estimate shows that a pair of the best fellers with hand saws will knock down a maximum of 25,000 feet of timber in 8 hours. BUT . . the same two men with a Power Chain Saw easily will knock down 100,000 feet and as high as 180,000 feet during the same period. And remember . . there's no special skill required to handle these saws.

A DAVID BRADLEY 18-in. All-Purpose One-Man Power Chain Saw.* In our opinion the finest ALL-NEW lightweight Chain Saw you can choose at this low price! Weighs only 32 lbs. And so simple a 16-year-old boy used it during our tests! Complete with above BIG SAW features. Low in initial cost . . low in operating cost . . low in maintenance cost! Powered by a precision-built nationally-known gasoline engine; easily serviced and repaired. Develops almost 3 H.P. Has single aluminum cylinder lubricated by oil in fuel mixture; 2-cycle air-cooled. Has thin, narrow guide bar (like professional models) to prevent buckling . . minimize friction, etc. With easy-grip handle bars . . spiked bumper plate (for steadying saw in cut) . . and tool kit (sharpening file, wrench, instructions).
32 G M8313—Shpg. wt. 36 lbs.....$249.00

B C DAVID BRADLEY Professional Models Round-Nose or Square-End Chain Saws.* Your choice of 1–2-man or 2-man sizes. To our knowledge there are NO other Power Chain Saws of this quality and capacity selling at anywhere near these low prices. Built to withstand constant use under all conditions with minimum maintenance (ignition, oiling and fueling mechanism can be easily checked, adjusted, etc.). Saws powered by rugged, compact gasoline engine; develops up to 5 H.P. (without cooling system). Single cylinder, 2-cycle air-cooled; cylinder lubricated by oil in fuel mixture. Automatic recoil starter, clutch; automatic throttle returns motor to idling speed . . stops movement of chain for safety. Heat-treated steel gears for longer life. No V-belt.

Both saws feature new bicycle-type handle bar operator to use both hands while resting bars o Convenient thumb-operated throttle on right ha oiling mechanism on left.
At NO Extra Charge. Has handy helpers' handle detachable. Hook-tooth chain gives planing act sharpened. Spiked bumper plate to steady saw. C tool kit (¼-in. sharpening file; extra hook-t socket wrench) and instructions.
Two-man saw has new, narrower guide bar t longer, takes more abuse; new anti-friction id on helpers' end . . . eliminates "burning" of speeds cutting action; automatic chain tensio keeps chain taut at all times.

1 or 2-man size . . choice of 3 blades

B One or two-man open-end (round-nose) chain saws with quick-detachable handle, tool kit, instructions.

Amazing cutting speed

Your CRAFTSMAN BOW SAW will cut many times faster than ordinary buck saws. Actually makes buck saws and one-man saws obsolete!

Special Steel Blade

Because this strong blade is made of a special alloy steel, it STAYS SHARP much longer. Cuts on BOTH forward and back strokes. Has long, razor-sharp teeth—expertly filed and wide set to lessen binding. Deep gullets rake out sawdust faster. Cuts all wood more quickly.

$2.49 30-inch

Made for all-purpose use around the home, farm and camp. Has two PLUS features: (1) Easy blade change . . . made possible by the adjustable wingnut tension. (2) Easy to handle . . . because the strong tubular steel frame is very light in weight. Red enameled to resist rust. You get a firm, steady grip because the handle is designed extra long. Available in 3 sizes: 30-inch size for cutting firewood, fenceposts, pruning larger limbs and clearing brush; 36-inch size for bucking, felling and cordwood; 42-inch size replaces one-man crosscut saws for heavy use and pulpwood cutting. Each saw complete with one blade. $2.49

99 G 04923—30-inch saw. Shpg. wt. 3 lbs. $2.79
99 G 04924—36-inch saw. Shpg. wt. 3 lbs. 3.49
99 G 04909L—42-inch saw. Shpg. wt. 4 lbs. 3.49

Replacement Blades. For above and other bow saws. Alloy steel; 1-inch wide. Shipping wt. each 6 oz. *State size blade wanted.*

A 4-STAR Feature!

SEARS 4-STAR FEATURE — THE SEAL OF TESTED QUALITY AND SAVINGS · LABORATORY APPROVED

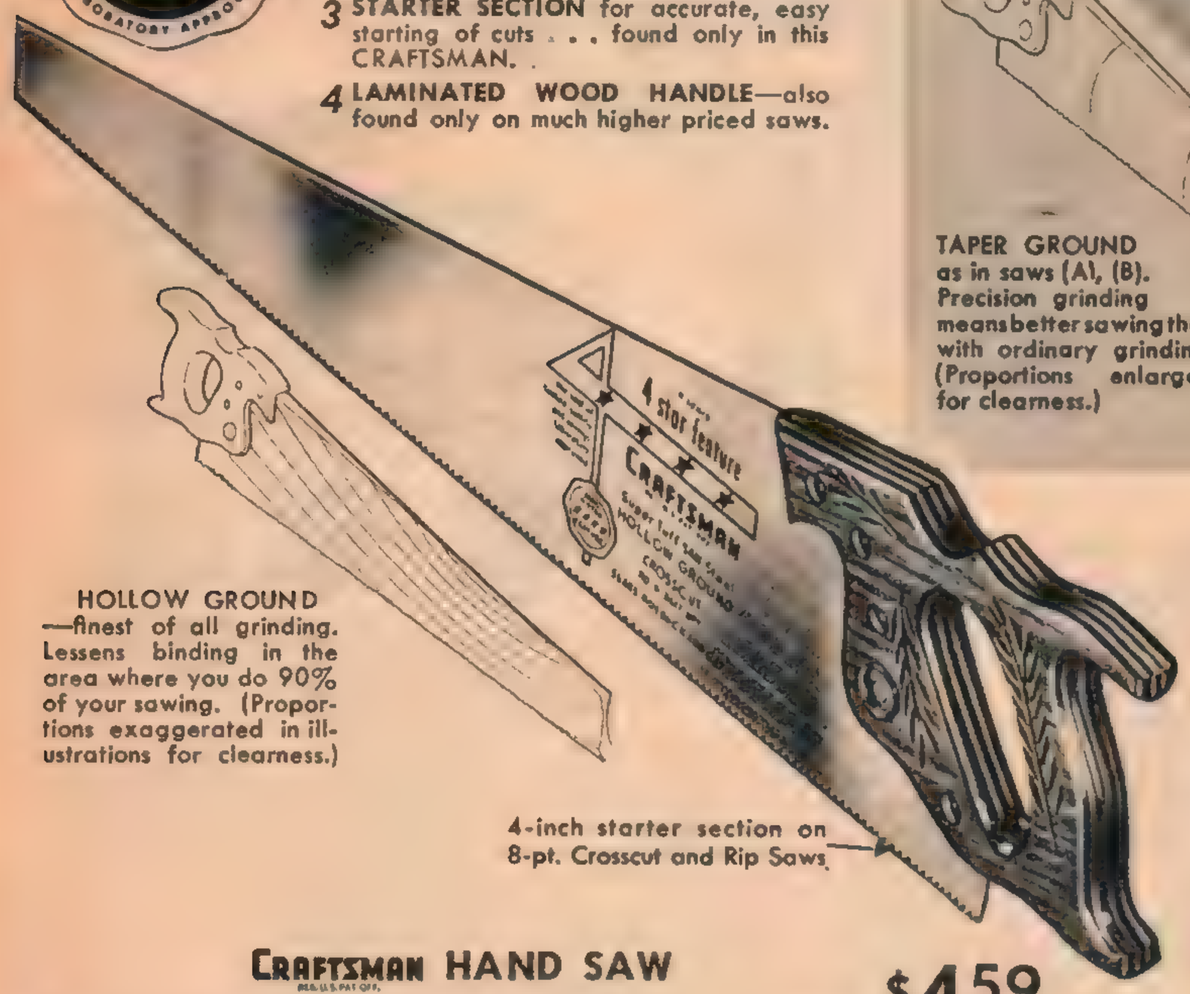
Results of Our Comparison:

1 **PRICED LOW.** We found no comparable saw priced as low as this CRAFTSMAN.

2 **HOLLOW-GROUND** blade for faster, easier sawing . . . found only in this CRAFTSMAN hand saw.

3 **STARTER SECTION** for accurate, easy starting of cuts . . . found only in this CRAFTSMAN.

4 **LAMINATED WOOD HANDLE**—also found only on much higher priced saws.



HOLLOW GROUND —finest of all grinding. Lessens binding in the area where you do 90% of your sawing. (Proportions exaggerated in illustrations for clearness.)

4-inch starter section on 8-pt. Crosscut and Rip Saws

CRAFTSMAN HAND SAW

MFG. U.S. PAT. OFF.

Hollow Ground . . . Laminated Wood Handle $4.59

Exclusive! The ONLY hand saw with both hollow grinding and the sensational laminated handle. TOP quality . . . bottom price. 8-ply pressure-welded laminated hardwood handle is MUCH stronger than regular wood handles. Won't warp, break or split! No more broken horns! Unaffected by the weather.

26-in. hollow-ground blade of finest "Super-Tuff" saw steel; heat treated and tempered; beautifully polished. *Hollow grinding is the most important improvement in hand saws in 50 years!* Less binding, less drag . . . MUCH easier to saw faster and smoother. Uniform thickness of blade from the force point at handle to the nose . . . less wrist strain and less buckling. Correct pitch for "hang" and "feel." Scientifically and uniformly set, filed and jointed. Popular straight-back pattern.

CRAFTSMAN PROFESSIONAL PLANES

with plastic handles . . . practically unbreakable

$4.98
9 G 3742

We compared several planes with a CRAFTSMAN Smooth No. 4 Plane (shown in large illustration above), and we found no other plane to match its low price and professional features! (All of these CRAFTSMAN planes have the same professional features as the Smooth No. 4.)

Accurately cuts shavings tissue-thin to coarse. Patented lever and screw device gives closest sidewise and depth adjustment. One-piece cutter is extra strong because *entire cutter* is made of finest special analysis "Super-Tuff" steel, heat treated and tempered. Honed edge stays sharp longer . . . *comes to you honed sharp and ready to use!* Sides and bottom machined perfectly true. Smooth or corrugated bottom (corrugated gives less friction). These planes are precision built—used by many professional carpenters. We believe this quality is unmatched *anywhere* at these low prices. Order today!

99 G 03648K—Less saw. Use with standard 4-in. stiff back saw. Shpg. wt. 25 lbs.$22.50
99 G 03633K—As above, but with precision fitted 24x4-in. stiff back saw. Shipping weight 31 pounds.....$28.50

W CRAFTSMAN All-metal Miter Box. Superb professional quality in every detail! Precision built! Improved design. With precision-fitted 28-inch back saw. Strong steel frame and base. Guides have self-lubricating oilite bearings. Handles stock up to 5 in. Gauge regulates depth of cut. Offset legs help avoid tilting when pressure is applied to saw. Locking pin now has greater bearing surface for closer accuracy. Capacity at miter 7 in.; at right angle, 10½ in.
99 G 03650K—Shpg. wt. 37 lbs.....$47.50

A 4-STAR Feature

(1) **Easy to read**—Clear markings; jet black on snowy white.

(2) **Supremely strong**—Full blade is tempered high carbon steel.

(3) **Bonderized finish**—Baked enamel; both sides stay sparkling white.

(4) **Durable Tenite plastic case**—Practically unbreakable.

Do many farm and building jobs with CRAFTSMAN FARM LEVEL

Now! Use and care of CRAFTSMAN Farm Level is *really easy!* . . . fully and clearly explained in the 28-page illustrated manual included with the instrument. Shows you, step by step, exactly how to go about doing many different farm and building jobs. Prepared and edited by Charles O. Baird, *Professor of Civil Engineering*, Northeastern University, Boston, Mass.

CRAFTSMAN Farm Level NOW has the same cast bronze and forged brass construction as the finest surveying instruments—reduces breakage, warping, repairs. Has dust-protected bearings. 10-power, 10½-inch dustproof erecting telescope with sharp achromatic lens system; rigidly supported. 20-mm. clear aperture objective lens. Sensitive telescope vial. Crosshairs in fixed focus. Internal (rack and pinion) focusing; self-leveling telescope lock. Positively centered arc, reads directly to a single degree; horizontal index rotates through 360°. 4-screw leveling and shifting arrangement; ball and socket in shifting piece for smooth leveling. Micrometer tangent adjustment.

Complete with non-extension tripod, plumb bob, sturdy carrying case, and the instruction manual. *Only $8.00 down on Sears Easy Terms!* Order today. *Shipped by express only.*

CRAFTSMAN ADJUSTABLE TAP AND DIE SETS

Amazingly easy to carry and store . . . because light-but-rugged, compact plastic case eliminates excess weight and bulk. Complete 40-piece set is 5 lbs. lighter, takes up 50% less room than same tools in wooden case; yet it's many times more durable! EVERY SET WITH ADJUSTABLE DIES.

Superb professional quality! Taps and dies made from **"Super-Tuff"** steel for great strength; have hardened and tempered cutting edges. Taps and 1-in. round adjustable dies cut NC (USS) coarse, NF (SAE) fine, machine screw and pipe thread sizes shown in table below. Die stock, screw pitch gauge, screwdriver, and 10½x5½x1¾-in. green plastic case included with all sets. Tap-and-reamer wrench included with 9 G 5452, 9 G 5465, 9 G 5473, and 9 G 5487 sets; "T" tap wrench included with 9 G 5452, and 9 G 5467 sets.

DUNLAP Tap and Die Sets

A DUNLAP 26-pc. Tap and Die Set. Don't confuse this set with other tap and die sets in this price range . . . this is the quality for which you'd expect to pay *much* more. Taps and dies are made of high grade tool steel. One-inch solid round dies. Threads cleanly and accurately. Cuts the following threads (number after each size refers to threads per inch): NC (USS) coarse threads, ¼–20, 5/16–18, ⅜–16, 7/16–14, ½–13; NF (SAE) fine threads, ¼–28, 5/16–24, ⅜–24, 7/16–20, ½–20. Also cuts ⅛-in. standard pipe threads.

26-piece set includes 11 dies, 11 taps, 9-in. adjustable die stock with highly polished, rust-resisting finish, 9-in. tap wrench, and screwdriver. Packed in convenient, sturdy, hardwood box. Shipping weight, set, 5 pounds.
9 G 5451—26-piece set. $9.50

B DUNLAP 13-pc. Tap and Die Set. Here's a well made, practical tap and die set at a surprisingly low price. Cuts U.S. Standard or SAE threads. Complete 13-piece set has five 1-in. solid round dies for threading sizes ¼, 5/16, ⅜, 7/16 and ½-in.; five taps with hardened, tempered cutting edges; 9-in. die stock with rust-resisting finish; 8¾-in. tap wrench. Packed in convenient, sturdy hardwood box.
9 G 5485—13-piece set. For NC (USS) coarse threads. Shipping wt. 3 pounds 8 ounces.....Set $4.50
9 G 5486—13-piece set. For NF (SAE) fine threads. Shipping weight 3 pounds 8 ounces.....Set $4.50

C CRAFTSMAN Adjustable Guide Die Stock. Professional quality. For 1-inch diameter round dies. Quick-action guide; range ⅛ to ⅝ in. Hardened guide pins lock positively to cam plate. Highly polished finish.

CRAFTSMAN Lever-jaw Wrench, with "easy-open" feature that saves your knuckles (see above). Hundreds of uses for home owners, farmers, mechanics, plumbers, etc. Does many jobs faster, easier, better than you've EVER done them before. Use it as a pliers, or lock jaws into any desired position. Double leverage gives tremendous gripping power for removing broken or rusted studs, stubborn nuts, etc. Streamlined, thin forged steel jaws get into tight places. Milled teeth; heat treated, hardened. Rust-resisting finish. *State size wanted.* Shipping weight each, 2 pounds.

REGULAR SOCKET

FORGED SOCKET

Forged Sockets are 25% STRONGER! 25% LIGHTER! Have THINNER WALLS For CLOSE PLACES!

Here's why CRAFTSMAN Sockets are HOT FORGED . . .

CRAFTSMAN sockets in ½-in. drive sizes are HOT FORGED for super-strength to withstand heavy loads; then precision heat treated and tempered to combine strength with hardness. Will actually stand about THREE TIMES load required by U.S. Gov't. Specifications GGG-W-641-A. In cut-away view of regular screw-machined socket, notice straight metal grain. In FORGED socket, metal grain follows socket contour; adds tremendous strength at point of greatest strain where base meets side-walls; permits stronger, thinner walls, to fit into close places.

Check these 7 other superior CRAFTSMAN features!

1. All parts are "Super-Tuff" steel . . . scientifically heat-treated, tempered, and finished.
2. New, improved, streamlined, forged, flex "T" handles.
3. Improved-type ratchet wrenches with the handles and the heads in ONE-PIECE forgings for far greater strength.
4. Improved-type, extra-large tension balls on extensions, etc., assure solid locking of sockets.
5. Used by some of the country's largest air lines for maintenance.
6. So rugged, they meet U.S. Navy Specifications 41W10 (Int.).
7. Guaranteed against breakage due to defects.

G CRAFTSMAN . . . *Our finest!* Professional quality. Extra-strong frame. Cutter wheel made from special alloy tool steel for long, hard usage. Razor thin edge cuts pipe with ease; two rollers. No. 2 size; cuts pipe from ⅛ to 2 in.

9 G 5507—Shipping weight 6 lbs. 6 oz.....$10.50

Quality PIPE VISES

H Chain-type Pipe Vise. From ⅛ to 2½-in. capacity. Special feature prevents bending small pipe; aids in holding short nipples, ells, odd shapes. Jaws hardened, tempered. Alloy steel chain.

9 G 5554—Shipping weight 5 pounds..... $6.45

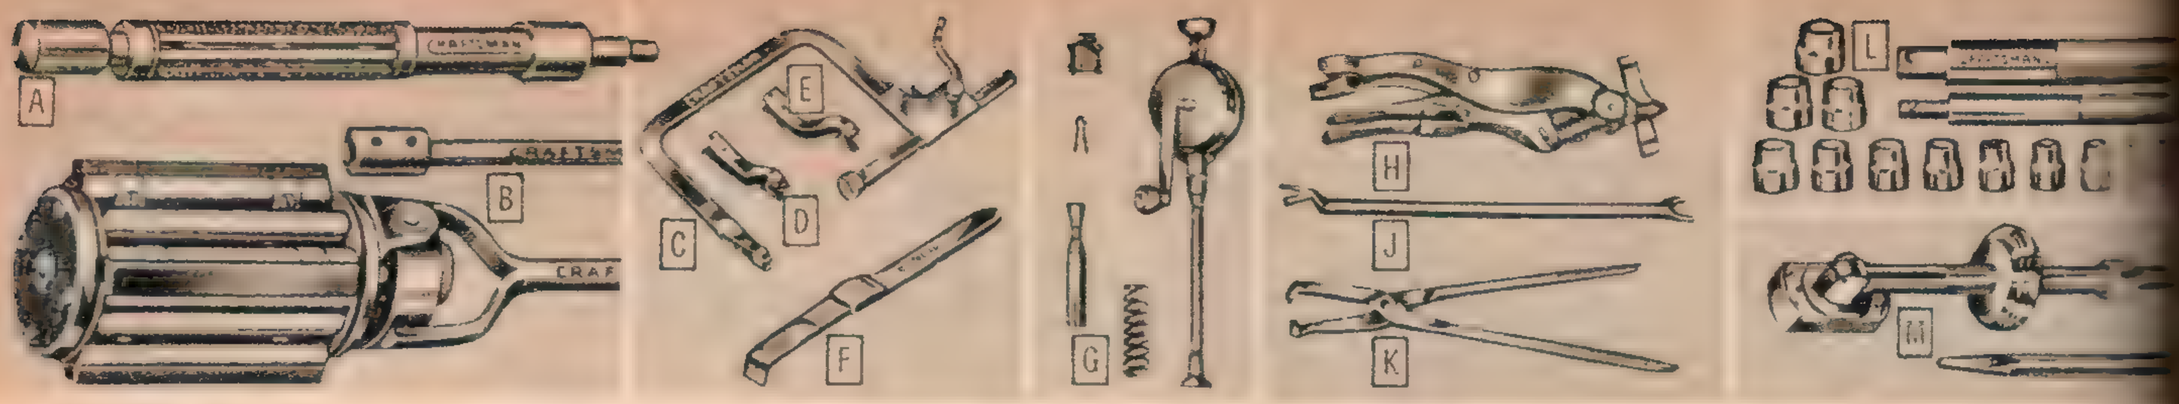
J DUNLAP Pipe Vise. Malleable iron frame; tool steel jaws. Hinged-type for quick and easy sideways removal of pipe. Automatic lock.

9 G 5551—Capacity ⅛ to 1¼-in. Shpg. wt. 4 lbs... $3.95

99 G 05552—Capacity ⅛ to 2½-in. Shpg. wt. 11 lbs.. 8.50

K CRAFTSMAN Pipe Vise. Professional quality. Hinged type for easy sideways removal of pipe. Malleable iron frame. Extra long, reversible, hardened tool steel jaws. Automatic lock. Capacity ⅛ to 2 inches.

99 G 05550—Shipping weight 10 pounds..... $9.25



CRAFTSMAN AUTOMOTIVE TOOLS . . Precision-made for faster, better work!

A CRAFTSMAN Expansion Hone. Hones steel, cast iron, brass, bronze, alloys, etc. For precision piston pin fitting; honing brake cylinders or any internal cylinder bore 47/64 to 1⅛ in.; honing spindle bolt, water pump or steering sector bushings. Hone held in vise or used with ¼ or ½-inch electric drill or drill press. Won't jam in split bushings. Fast cutting abrasives. With 2 sets each of fine and coarse abrasive pads and carriers.
9 G 4688—Shpg. wt. 1 lb. 5 oz. **$11.50**
9 G 4689—12 Replacement Abrasive Pads for above. 6 coarse, 6 fine. Shipping weight 4 ounces **$1.98**

B CRAFTSMAN Cylinder Grinder. Reconditions 2 1/16 to 4⅛-in. diameter cylinders accurately. Provides mirror finish to cylinder walls. Grinder may be removed at any time to check work. Self-lubricating. Outfit includes a set of coarse stones and a set of fine stones (two stones and two lubricating pads per set), two sets of stone carriers, drive collar, shank and extension, and directions. For use with any ½-in. electric drill or drill press.
9 G 4681—Shpg. wt. 7 lbs. **$44.50**
9 G 4684—Replacement Set of 2 Coarse Stones, 2 Lubricating Pads. Wt. 14 oz. **$4.25**
9 G 4685—Replacement Set of 2 Fine Stones, 2 Lubricating Pads. Wt. 14 oz. **$4.25**

C CRAFTSMAN Valve Spring Compressor. Positive vertical lift type. Services more makes and models than any other type valve spring compressor we know of. Strong steel frame; capacity 9x11 inches. Opens to 10½-inch maximum; clears exhaust manifold and other obstructions without removing them. No. 1 straight standard jaws of resilient spring steel fit 90% of all size springs and washers; won't slip off springs. Automatic lock holds spring in any position, leaving both hands free. Has pull-out ratchet crank for clearing obstructions and working in close places. Shpg. wt. 5 lbs. 8 oz.
9 G 4695 ..... **$5.60**
Replacement Jaws for use on above valve spring compressor.

D 9 G 4697—No. 2 Special Offset Jaws. For General Motors cars and Continental motors. Shipping weight 4 oz. **98c**

E 9 G 4699—No. 5 Special Offset Jaws. For Plymouth, Dodge Chrysler and Waukesha motors. Shpg. wt. 4 oz. **$1.25**

F DUNLAP Flexible Carbon Scraper. Invaluable for cleaning cylinder heads, valve parts, etc. Ten oil-tempered blades of fine spring steel. Flexibility of blades is controlled by a sliding steel band. Strong steel handle. Does an easy and thorough job. Length 9 inches. Shipping weight 8 ounces.
9 G 4703 ..... **29c**

G Valve Grinder. Delivers quick, unbalanced back and forth movement that constantly advances to new positions, assuring smooth, even surface. Ball thrust bearing on spindle. Heavy gauge steel. Rust-resisting finish. With long and short self-locking stems, bit, vacuum cup and grinding spring. Length 7 in. Shpg. wt. 1 lb. 8 oz.
9 G 4704 ..... **$2.29**

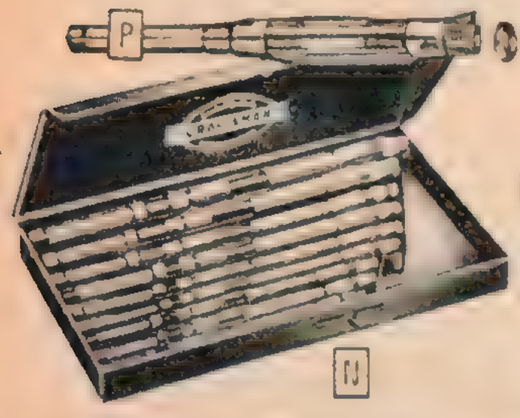
H "Little Shorty" Screw-type Valve Lifter. Hi-offset type for under-fender use on late model L-head cars and trucks (with manifold on). Jaws spring steel; cast malleable iron handle. Parallel lift 2¾ in. Upper jaws adjustable. 8½ inches long. Shpg. wt. 1 lb. 8 oz.
9 G 4559 ..... **$2.50**

J Low-priced Bar-type Valve Lifter. For use on Ford V8 motors. Drop forged steel; jaw on each end. One jaw fits new type Ford V8 valves; other jaw fits old type valves. 20⅛ in. long. Shipping weight 1 lb. 4 oz.
9 G 4656 ..... **95c**

K CRAFTSMAN BRAKE Spring Pliers. For all cars. Upper point on gooseneck jaw anchors on brake lining. Corkscrew hook on lower jaw. Handle ends have different forged notches. Forged alloy steel; rust-resisting finish. Hardened rivet. Length 13½ in. Shipping weight 1 pound.
9 G 4739 ..... **$1.98**

L CRAFTSMAN Bushing Drive thirteen bushing c 1⅛ inches inside, inches outside d has two driving Used to instal bronze bushing pumps, magnet rods, steering g sions, spindles trucks, tractors 4 lbs. 4 oz.
9 G 4707 .....

M Sleeve Jack for tors. Used to der sleeves in a and Mercury ca Ferguson tractors *moving motor!* A from top. Top p sleeve and turns ball thrust bearin spring pins on sw shoe in center o heat treated ste remove old sleeve tions. Length 1 weight 9 pounds
99 G 04746 ....



CRAFTSMAN REAMER and PILOTS

N CRAFTSMAN 9-piece Reamer Set with Pilots. Professional quality. Complete range of sizes from 1 3/32 to 1 3/16 in. Strong steel construction. Set comes in 15¾ x 9x1¾ in. metal box. Shipping weight 14 lbs.
9G4676–Complete. . **$41.50**

P 9 G 4642—CRAFTSMAN Adjustable Expansion Reamers only. High quality steel. *Please order from table below and state size wanted.*

R 9 G 4643—CRAFTSMAN Adjustable Reamer Pilots only. High quality steel. Precision ground. *Please order from table below, and be sure to state size wanted.*

S Cylinder Wall Ridge Reamers. Professional type, for service shops and garages. Easily and quickly removes ridges in cylinders caused by ring wear. Does the job speedily, efficiently, accurately! Because it works wholly within cylinder, tool may be placed to remove ridge at any depth. Automatically locks in position. Cannot cut walls too deep because cutter automatically follows ridge, regardless of bore shape. Strong die casting; cold drawn steel side plates. Adjustable diameter screw. For 2¾ to 4-in. chamfered or straight cylinders. Made of best materials to do a real professional job. Shpg. wt. 1 lb. 12 oz.
9 G 4712 ..... **$9.95**

T Economy Ridge Reamers. Built for real service. Every auto mechanic should own one. Saves valuable time and labor, and does accurate work. Removes ridge on upper cylinder caused by piston ring wear. Stops ring clicking . . . eliminates danger of ring breakage. Bolts firmly to motor block. Handles cylinders from 2¾ to 4¼ inches in diameter.
Carefully machined and designed so no particular skill is required to produce a good job. Strong gray iron casting. Complete with centering jig and instructions. Shpg. wt. 3 lbs. 5 oz.
9 G 4711 ..... **$4.25**

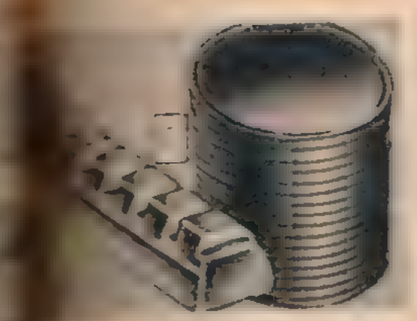
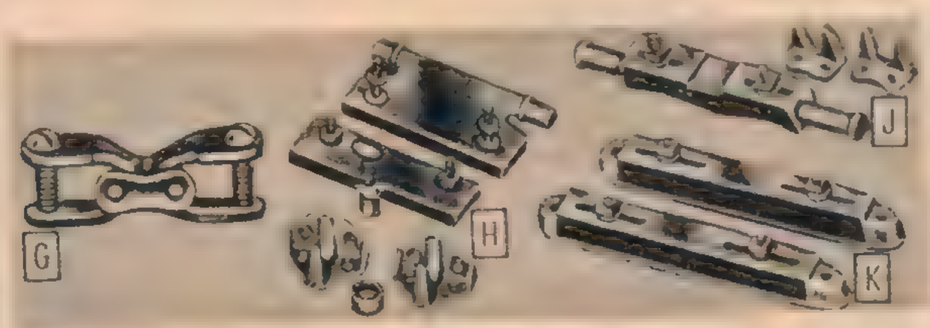
9 G 793	5 in.	5, 4, 3, 2 in.	1 lb. 14 oz.	1.60





G Flexible V-Belt Coupler. Exceptionally fine quality. Flexible in *both* directions; assures smoother, quieter, more efficient operation. Makes a strong, dependable joint. Easily and quickly installed. For all types of V-belting; ⅜, ½ or ⅝-in. sizes.
9 G 2842—Shpg. wt. 1 oz. ..... Each 23c

H DeLuxe Floating Motor Rail. For smooth vibrationless operation. Has all advantages of regular type . . *plus* support for rear end of motor, rubber cushioning, and right angle clips. Clips allow motor to be mounted behind or under tool. Rear rail pivot support is used to carry rear end of motor; pivot adjustable. Fits most fractional horsepower motors. Can be used with standard type clips if desired. Set comes complete with screws for installing.
9 G 2326—Complete set; floating motor rail and one pair of clips. Shipping weight 2 pounds $2.25
Rail Clips only. Can handle idler drives on drill press at odd angles, etc. Shipping weight 10 ounces.
9 G 2328 ..... Per pair 79c

J Floating Motor Rails. Permit using one motor for several tools. Fasten clips near each tool, and shift motor from tool to tool. Keeps belt at proper tension. With screws for installing.
9 G 2275—Floating motor rail and one pair of clips. Shpg. wt. 1 lb. 13 oz. $1.00
9 G 2277—**Rail Clips** only. Shipping weight pair 7 ounces ..... Per pair 35c

K Adjustable Motor Rails. For jobs where motor is not moved from tool to tool. Easy to adjust belts; loosen bolts holding motor to rail, slide motor for belt tension wanted, tighten bolts. Do not run V-belts too tightly.
9 G 2279—Shpg. wt. 3 lbs. . Per pair $1.35

L CRAFTSMAN Pulley Remover. Fine pitch thread screw exerts great pull with little effort. Use for removing small V-pulleys when frozen fast on electric motors or other power tool shafts, and for removing single or multiple drive sheaves from shafts. Fits single or multiple groove pulleys, gears, pinions, cams, etc. Steel. 1¼ to 4½-in. capacity jaws.
9 G 4696—Shpg. wt. 4 lbs. $2.95

Line Shaft Accessories. Used to drive a group of power tools from one permanently mounted motor. We recommend a ½-H.P. motor or larger. *Line shafts* come in 3 sizes: ½-in. for light tools; ⅝-in. and ¾-in. for heavier machines and larger motors. *Oil cups* (¼-in.) easily installed in place of plugs. *Rigid couplings* are used for connecting sections of line shafting. *Line shaft collars* prevent endwise "drift" of shaft. *Flexible couplings* connect a motor shaft to a line shaft; self adjusting for slight misalignment. *Bronze bearing hangers* adjustable to permit shaft alignment. ½-in. hangers should be spaced every 18 in.; ¾-in. hangers every 24 in.

CRAFTSMAN ⅓-H.P. Diaphragm-type SPRAYER

A **Ball-bearing compressor—lubricated for life, NEVER needs oiling . . Always delivers oil-free air.** *35 pounds working pressure; 5.8 cubic feet per minute free air displacement.* We believe its quality is unmatched ANYWHERE in this price range!

Notice these five important facts: (1) It's lubricated for life. (2) Always delivers oil-free air. (3) Has *triple action* air intake filter. (4) Ball bearings and perfect counter-balancing assure amazingly smooth operation. (5) You get NOT a light-weight spray gun—but a high quality full-size gun with micromatic paint control (see description under 9 G 1820 on opposite page; notice that it can be converted into an external-mix spray gun with conversion kit 9 G 1822—also described on opposite page).

An ideal sprayer for general use around the home, farm, or shop. 5-inch diaphragm. Lasts at least 600 hours; easily replaced. Efficient safety valve. 13/32-inch stroke. 1.7 cubic feet per minute at working pressure. 19⅜x8½-in. heavy steel base. With spray gun; three nozzles (round, fan, and 45-degree); 15 feet of ¼-in. inside diameter air hose; pulleys; belt; air chuck for inflating tires. Complete instructions.

99 G 01818L—With ⅓-H.P. 1750 R.P.M. split-phase **motor mounted on compressor base; fully assembled, ready for use.** For 110–120 volt 60-cycle A.C. Shpg. wt. 47 lbs. $55.95

99 G 01819K—Without motor. Use at least 1750 R.P.M. ⅓-H.P. motor. Shipping weight 20 pounds 41.50

9 G 1887—**Replacement Diaphragm** for above. Shpg. wt. 3 oz. . . $1.10

DUNLAP SPRAYERS . . Dependable quality, priced low

B **DUNLAP ¼-H.P. Diaphragm-type Sprayer. Bronze-bearing compressor.** *30 pounds working pressure; 2.5 C.F.M. free air displacement.* You'd expect to pay much more for this well-made sprayer! Ideal for small to average jobs.

Direct drive. Has 4½-in. diaphragm; easily replaced. ⅜-in. stroke. 1.3 cubic feet per minute at working pressure. Safety valve. 13¾x8⅛-in. base with rubber bumper. With bleeder-type pressure feed spray gun (9 G 1841 described on opposite page); 3 nozzles (fan, round, 45°); 15-ft.x¼-in. air hose; tire chuck.

99 G 01856L—With ¼-H.P. 1750 R.P.M. split-phase bronze-bearing **motor mounted; fully assembled, ready for use.** For 110–120 volt 60-cycle A.C. Shpg. wt. 41 lbs. $42.95

99 G 01857—Without motor. Use 1750 R.P.M. ¼-H.P. motor or larger. Shpg. wt. 19 lbs. $29.95

9 G 1880—**Replacement Diaphragm** for above. Shpg. wt. 3 oz. 89c

CRAFTSMAN ¾-H.P. Twin-Piston Industrial SPRAYER

Heavy duty . . . Ball bearings. *45 lbs. working pressure with gun supplied (handles up to 60 lbs. pressure); 5.9 cubic feet free air displacement.* Will give superb performance even on those tough commercial jobs. Extra power! Extra capacity! Has TWO cylinders and TWO pistons to give the necessary extra capacity, and to assure smooth flow of air. Ball bearings and a dynamically-balanced Mehanite crankshaft make it a marvel of smooth, quiet operation.

Precision-honed cylinders assure longer life. Finest aluminum alloy pistons, each with three precision piston rings. Forged aluminum connecting rods. 2-in. bore; 2-in. stroke. Positive oil ring lubrication. Enclosed crankcase prevents dirt and foreign matter from entering crankcase; all openings are sealed, thus eliminating oil and vapor leaks.

Has line pressure gauge, safety valve, and air filters. Separate pulsation chamber assures smooth flow of air. Delivers 4.1 cubic feet per minute at 45 pounds; 3.9 cubic feet per minute at 60 pounds. Over-all height 22 inches. 26½x9-in. steel base. With CRAFTSMAN all-purpose, universal-type, combination bleeder or non-bleeder spray gun (9 G 1825 described on opposite page); one-quart capacity paint cup; 25 ft. x 5/16-in. inside diameter air hose with Neoprene cover (9 G 1876 described on opposite page); air chuck for inflating tires; pulleys; belt. Base is designed to take cart kit (not included—99 G 01813L below).

CRAFTSMAN PAINT SPRAY GUNS

R **CRAFTSMAN Pressure-type Spray Gun.** Use with ¼-H.P. compressors. Pressures from 25 pounds to 50 pounds at 1 to 3 cubic feet per minute. Internal mix; bleeder type permits direct connection to air compressor; not for air line. 1-quart capacity aluminum paint cup. Three nozzles: (one round, one fan, and one 45-degree). Shpg. wt. 1 lb. 12 oz.
9 G 1841..... $7.25

S **CRAFTSMAN Utility Spray Gun.** For ¼ and ⅓-H.P. compressors. Pressure from 25 to 50 pounds at 1½ to 3½ cubic feet per minute. Combination pressure feed (and syphon feed for use with 9G1821 and 9G1822 conversion kits below). Internal mix; bleeder type permits direct connection to compressor. With conversion kits, may be used on air line or pressure-regulated tanks. Micrometer control for paint has stainless steel, free-floating needle valve. Built-in oil and moisture filter in handle; easily drained. 1-qt. wide-mouth aluminum paint cup. 3 nozzles; fan, round, 45°. Shpg. wt. 3 lbs. 10 oz.
9 G 1820..... $13.50

9 G 1823—As above, but has external mix nozzle; for bleeder or non-bleeder use. Shpg. wt. 3 lbs. 10 oz.. $15.25

T **Conversion Kit.** For gun 9G1820 above. Includes external mix nozzle (best for spraying fast drying materials), pattern control needle and non-bleeder air valve for air lines and pressure-regulated tanks. With instructions.

9 G 1821—For ¼-H.P. compressors. Shipping weight 4 ounces... $3.35

9 G 1822—For ⅓-H.P. compressors. Shipping weight 4 ounces..... $3.35

U **CRAFTSMAN all-purpose Spray Gun.** Universal type combination bleeder or non-bleeder type; internal and external mix nozzles. Pressure and syphon feed. For ½ or ¾-H.P. compressors with air pressures from 30 to 50 lbs. at 2½ to 5½ cu. ft. per minute. Can be used for both slow-drying and fast-drying materials; also can be connected directly to a compressor, or with air lines, or pressure-regulated tanks. Replaceable spray head. Micrometer controls for air and paint. Filter. 1-qt. paint cup has wide mouth. 4 nozzles (fan, round, 45° and external mix.)
9 G 1825—Wt. 4 lbs... $21.00

9 G 1894—**Extra 1-qt. Aluminum Paint Cups.** For spray guns 9G1820 or 9G1825. Shpg. wt. 1 lb. 6 oz. Each.. $1.85

V **CRAFTSMAN light production Spray Gun.** Syphon-feed for light production industrial service on air line pressures from 30 to 90 lbs. at 4 to 9 C.F.M. Replaceable spray head. Combination bleeder or non-bleeder type. External mix nozzle; micrometer paint and air controls. 1-qt. clamp type paint cup. Filter. For air line or direct compressor connection. Shipping weight, 3 lbs. 8 oz.
9 G 1828..... $18.50

W **CRAFTSMAN high-speed production Gun.** Extra heavy duty. Syphon, non-bleeder type. For air line pressures from 35 to 90 lbs. at 5½ to 12½ cu. ft. per minute. Large replaceable bronze spray head. 1-piece body. *Newly designed drop-forged bronze, external mix air nozzle.* Paint, air controls; **instantaneous spray pattern changer.** Filter. 1-quart clamp type aluminum paint cup. For air lines or pressure regulated tanks; not direct compressor connection.
9 G 1865—Wt. 4 lbs... $22.50

IMPORTANT!

Buy the Right Motor! Too small a motor is poor economy. A larger motor of more powerful type will last years longer than one which is too small.

Split Phase Motors—For easy-starting loads or where maximum load is applied at full motor speed, such as washing machines, ventilating fans, light power tools, etc.

Capacitor Motors—For medium-starting loads, such as heavier power tools and paint sprayers, refrigerators, stokers, shallow-well pumps (about 22 ft. or less), etc.

Mill-Type Capacitor Motors—For medium to hard-starting loads. Ideal for production equipment, compressors, etc.

Repulsion-Induction Motors—For hard-starting jobs, such as deep-well pumps, large compressors, heavy industrial tools, heavy farm equipment, freezers, etc.

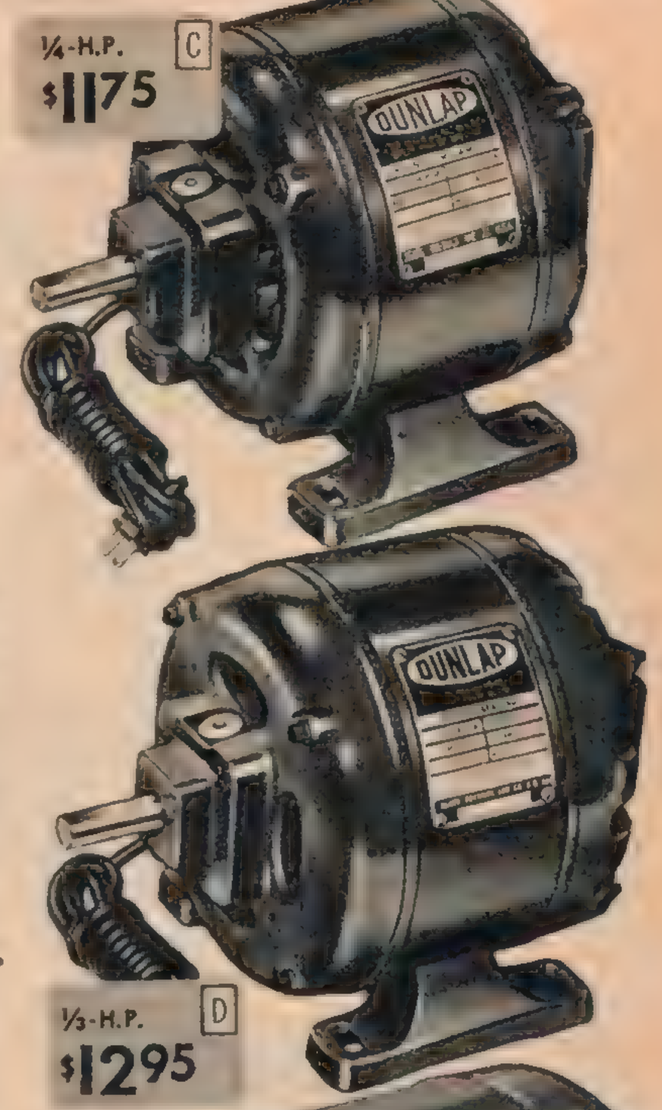
Split Phase DUNLAP MOTORS

C D Super values! Full size, full power. Motors designed for general use on easy-starting loads such as light power tools, small paint sprayers, etc. Exceed N.E.M.A. breakdown torques. Diamond-bored precision bronze bearings. Oil chambers; with spring oil caps; don't need lubrication for at least 1000 hours of operation. *Guaranteed 1 year!** Motor should be used in horizontal position only. ½-inch shaft extends 1½-in. on one end. 1750 R.P.M. For 110-120-volt, 60-cycle AC. Easily reversed. 8-foot cord, plug. Mounting dimensions 3¾x5 in. Cast iron base gives motor solid mounting.

C 99 G 01974K — ¼-H.P. Shpg. wt. 23 lbs..$11.75
D 99 G 01966K — ⅓-H.P. Shpg. wt. 25 lbs..$12.95



CRAFTSMAN 3-Phase MOTORS

[illegible]ard-starting loads, heavy [illegible]l use. We believe there [illegible]tors of this type made. [illegible] times rated H.P. while [illegible] be used only on 3-phase [illegible]y not available to homes [illegible]eck with power company [illegible]ng. **Meets all A.I.E.E., [illegible] central station requirements.** [illegible] *1 year.** **Grease-sealed ball** [illegible]asily reversed; keyway [illegible]ed not to exceed 40° [illegible]se under normal opera- [illegible]440-volt, 60-cycle A.C.

CRAFTSMAN Electric Hand GRINDER

[illegible]zed, high quality precision tool for use [illegible]p or tool room. *Approved by Underwriters' [illegible], Inc.* **Extra capacity** . . . handles 3/32, ⅛ [illegible] shank tools. **Extra power** . . . ¼-H.P.; [illegible]xceeds range of average workshop hand [illegible]00 R.P.M. motor (110-120-volt, 25 to 60- [illegible]C or DC); 8-foot cord, and plug. **Extra ver-** [illegible] . . . sand, sharpen, grind, saw, etc., faster [illegible] . . . work in wood, metal, glass, plastics, [illegible]es big jobs without stalling. **Extra utility** [illegible]rts in seconds to a flexible shaft tool (see [illegible] below). Aluminum slip sleeve covers the [illegible] safety. Complete with 25 accessories, stur- [illegible] box. *Guaranteed 1 year**. Designed for years [illegible]ree satisfaction. Accessories include files, [illegible]heels, brushes, arbors, etc.

[illegible]5—Shipping weight 6 lbs. 14 oz..$28.50

[illegible]AFTSMAN Flexible Shaft and Hanger [illegible]onverts 9G2516, above, into a high-speed [illegible]aft tool in seconds. Can also be used for [illegible]il, drill press or router (such as 9G2519 [illegible]6-inch shaft; cover resists moisture, oil, [illegible]4-inch hand-piece. Slip sleeve covers [illegible] added safety. Made for 3/32 and ⅛-inch [illegible]ls. Hanger bracket holds 9G2516 (above) [illegible]19 (listed at right), as illustrated.

[illegible]—Shipping weight 3 pounds....$10.50

MOTOR MOUNTS

H For mounting motors on washing machines, stokers, ventilating fans, etc. Cradle-base type; rubber mounted to reduce vibration. Made of stamped steel. Fasten to end bells of motor after removing the regular motor base. Fits motor 99 G 01974K listed above at right. Shipping weight 2 lbs.

9 G 1968.....Each $1.19

9 G 1969—Motor Mount. Fits motor 99 G 01966K listed above; also fits 99G01974K motor made before 1950. Shipping weight 2 lbs. Each.....$1.19

J **Speed Control Foot Switch.** Five controlled speeds, plus "on" and "off." Use with any electric tools with 1/100 to 1/14-H.P. universal motors. With 4-foot and 6-foot cords and plugs. Overall size 7x4x4 inches. Shpg. wt. 2 lbs. 4 oz.

9 G 2518.....$4.59

Flexible Shaft Outfit

K **CRAFTSMAN.** Real professional quality. *Approved by Underwriters' Laboratories, Inc.* Pen-type handpiece permits sensitive finger control; assures more accurate work. Motor doesn't obstruct view of work . . . easy to get into those "hard-to-reach" places. Powerful, versatile . . . you can grind, polish, sharpen, engrave, clean, mill, carve, etc. . . . do dozens of other jobs on metal, wood, glass, and plastics. 15,000 R.P.M. motor (110-120-volt, 25 to 60-cycle A.C. or D.C.). Complete with 8-foot rubber covered cord, with plug; 30-inch flexible shaft; 5¼-inch handpiece with aluminum sliding sleeve over chuck (holds 3/32 and ⅛-inch shank tools); 10 accessories. Comes in sturdy metal carrying case. *Guaranteed for one year against defects in materials and workmanship.* Shipping weight 5 pounds 6 ounces.

9 G 2515.....$23.95

CRAFTSMAN ROUTER

L We believe this tool is unmatched in this price range. Actually many tools-in-one! Ideal for routing and inlay work of many kinds. Perfect tool for mortising doors for locks, hinges, etc. Can also be used for dovetailing, with proper attachments. Motor can easily be removed from fence and used with flexible shaft set 9G2517 (listed at the left); or motor can also be mounted horizontally as a handy bench tool (see illustrations above). Takes ¼-inch shank cutters in collet chuck; also ⅛ and 3/32-inch shank tools, with kit 9G2511 (listed below). Motor raises or lowers 1 inch. Fence slides horizontally on two 7½-inch bars; is designed for guiding on straight or irregular edges. *Approved by Underwriters' Laboratories, Inc.* (*Industrial Standards*). Powerful 1/15-H.P. 19,000 R.P.M. ball bearing universal motor for 110-120-volt, 25 to 60-cycle AC or DC; Formex insulated. Base is 3½x7 inches; maximum over-all height is 8 inches. Comes complete with one ⅜-inch router bit and 3-wire rubber covered cord and plug.

9G2519—Router. Shipping weight 4 lbs. 6 oz....$28.95

9G2511—Kit. Contains ⅛ and 3/32-inch capacity insert collets for router above. Shipping weight 8 oz....85c

9G2512—Extra Router Bits. Available in the following sizes; ⅛, 3/16 and ¼-inch. *Please be sure to state size wanted.* Shipping weight 4 ounces.....Each 89c

For additional information on Sears Power Tools, write to Sears Personal Service Department.

Illustrated Manual included

CRAFTSMAN A. C. ELECTRIC ARC WELDER . . 200-amp. Industrial type
Coils are spun glass insulated . . Protected against burnout

WELDING MANUAL

CRAFTSMAN "Arc-Weld-it Yourself" Manual. 36 pages. 165 illustrations. Up-to-date, simple, step-by-step instructions on all arc welding operations, equipment and clothing. Tells how to repair equipment, build new devices.
9 G 2025—Shpg. wt. 3 oz. 45c

Striking an arc is like striking a match!

Above sketches are from the 165 step-by-step illustrations in the new CRAFTSMAN "Arc-Weld-it-Yourself" Instruction Manual . . . now included with all CRAFTSMAN Arc Welders. Manual also sold separately (see 9 G 2025 above).

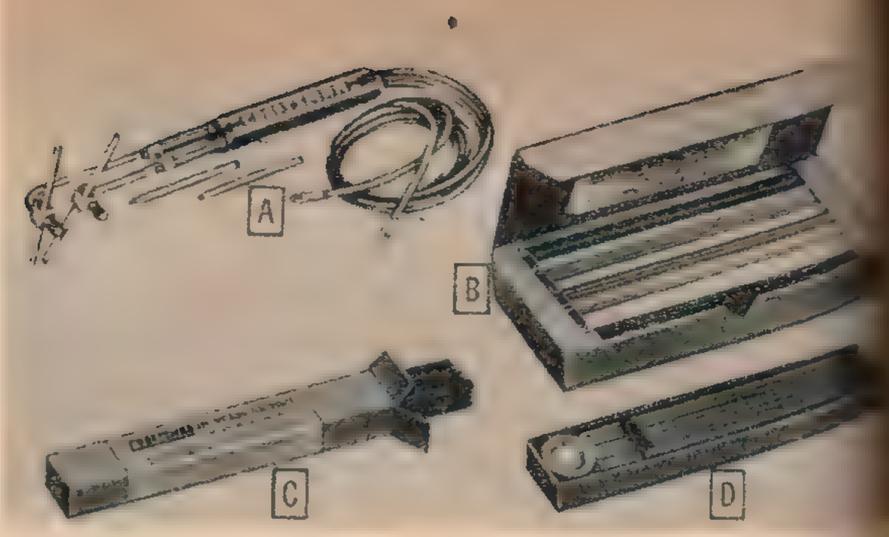
- Professional quality . . . heavy duty . . . built for steady, continuous service.
- Tested and approved by Underwriters Laboratories, Inc. for safety, freedom from fire hazard, temperature rise, etc.
- Coils thoroughly insulated with spun glass; dipped in varnish; then baked. Practically impossible to burn out welder if used on correct current supply (220-230 volts).
- Fire-resistant all-metal cabinets, size 33x20x21 inches, with control panels fully protected against dust and dirt.

Unmatched, we believe, in this price range! Handles continuous service in garages, factories, mills, body and welding shops, farms, etc. Complete range of currents for cutting, brazing, soldering, heating and welding metals of all thicknesses. Even more useful with Twin Carbon Torch 9 G 2007 (not included; see above at right). **Built-in reactance helps maintain steady arc; automatically increases voltage on low heats.**

Transformer has high power factor and greater efficiency; reduced current consumption. Natural draft cooling; no fans. *18 heats; 20 to 200 amps. actual welding current.* Uses electrodes up to 5/16 in. Steel front feet; large rear wheels. Approved code-type on-off switches. Stub wire leads for A.C. connection. Max. line draw 48.5 amps.; max. K.V.A. 10.7; max. K.W. 6.2; max. open circuit secondary voltage 94.

Complete with 5 lbs. welding electrodes, wire brush, carbon electrode, electrode holder, two 15-ft. cables, helmet, manual. For single-phase, 220-230 volt, 60-cycle A.C. only. **Check voltage, cycle, phase and capacity of your power line with local power company.**
99 G M2012—Shpg. wt. 270 lbs. Cash $190.00

ARC WELDERS AVAILABLE ONLY ON PRIORITY. CMP Reg. 5 permits farmers and businesses to give priority ratings for arc welders if they are to be used as a maintenance, repair or operating supply. If you qualify under that Regulation, copy the following statement on a separate piece of paper, sign your name and attach to your order: "99GM2012 DO-MRO Certified under CMP Reg. 5. Name_____ Address_____"
Any defense industry or government agency entitled to apply DO priorities with other allotment letters and numbers, certify purchase orders with proper signature, N.P.A. authorization, and rating.



A CRAFTSMAN Twin Carbon Torch. Industrial type. Increases usefulness of your arc welder. For brazing, soldering, heating, etc., on A.C. arc welders. Large, insulated fiber grip. Feather touch sliding control. Off switch. Ideal for work on thin metals, small tubing, etc. Light in weight, perfectly balanced. 15¾ in. long. With 5-ft. cables, carbons, instructions. Holds ¼ to ⅜-in. carbons. Shipping weight 4 lbs. 6 oz.

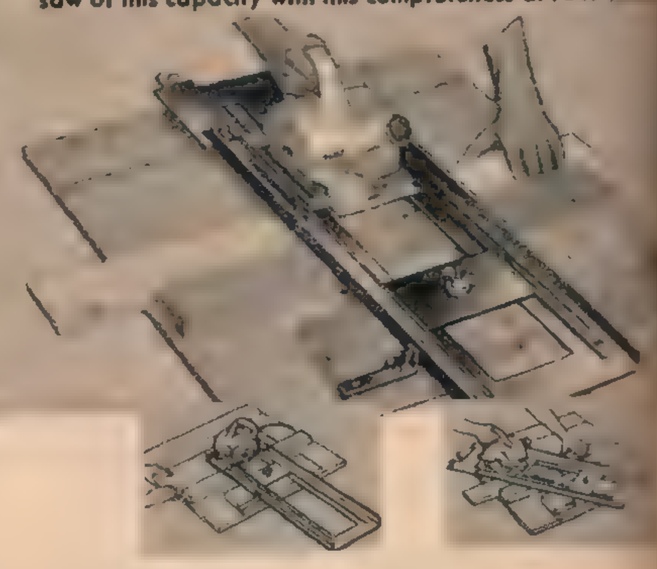
Here's why this sensational CRAFTSMAN 6½-inch Electric Hand Saw has been chosen as a Sears 4-STAR Feature item

- Laboratory tests prove its mechanical design assures long life with ample overload capacity and superb temperature rise characteristics (long motor life).
- Continuous field tests on heavy-duty work by thousands of customers have proved its top rating as a contractor type saw.
- Feature for feature, we do not believe there's a quality saw of this capacity with this completeness at ANY price.



Stationary saw for cross-cutting or ripping

Saw guide pivots for miter, compound

CRAFTSMAN 6½-inch ELECTRIC HAND SAW

10 times faster than ordinary hand sawing!

Contractor type! Extra heavy duty. Built for continuous heavy duty use. **The finest saw of its capacity, in our opinion, bar none.** Adapts perfectly to a radial or bench saw when used with saw guide at right. Cuts all types of materials with abrasive cut-off wheels and carbide-tipped blades listed below. **Saw has sealed precision ball bearings throughout.** Direct drive gear-train permits compact design . . . perfect balance.

Graduated base plate. Blade on right, opposite operator, for extra safety. Depth of cut at 90°, 0 to 2 3/16-in.; at 45°, 1 11/16-in. Tilts 90 to 45°.

Built-in ripping guide. Magnesium alloy frame. Helical cut bronze gears; telescoping saw guard. Sawdust blower; enclosed trigger switch. Auxiliary knob grip for two-hand use. **Approved by Underwriters' Labs., Inc.** (industrial standards). Heavy duty G.E. universal motor (110-120-volt, 25 to 60-cycle, AC or DC); rated ¾ H.P.; **develops 1½-H.P. maximum.** No-load speed, 4300 R.P.M. 12 in. long; weighs only 12½ lbs. With 6½-in. combination blade (½-in. round arbor hole); 10-ft. 3 wire cord with plug; lubricant and wrenches.

99 G 02553—Saw without case. Shipping weight 16 pounds.. ..... **$51.95**

99 G 02554K—Saw with steel carrying case. Base of case acts as bench rest. Tool, cord and blade compartment in bottom. Shpg. wt. 27 lbs..... $56.95

9 G 6472—Cut-off Wheel. For above saw. 6-inch diameter; ½-inch round arbor hole. Cuts cement, tile, metal, etc. Shpg. wt. 8 oz.... Each **$1.39**

ELECTRIC DRILL ACCESSORIES

[F] **Spin-A-Brush Attachment.** Cleans paint brushes in 90 seconds! It's fast and easy. Fits any ¼-in. electric drill or larger, up to 2000 R.P.M. Easy to use. Just fasten Spin-A-Brush in drill chuck, center brush, and soak in turpentine or thinner about 30 seconds. Centrifugal force cleans brush quickly. Durable clamp; die cast cup and ring; spring steel arms. Rust-resisting finish. ¼-inch diameter steel shank.

9 G 2605—Shipping weight 1 pound..... $1.95

[G] **CRAFTSMAN Sander-Polisher Attachment.** Converts ¼-in. electric drills (like 9G2578, 9G2577, 9G2570 and 9G2571 above) into a sander or a polisher. Ideal for use around home. Cast aluminum housing and base plate. Sealed ball bearing on eccentric drive. 3½ x 7-in. oscillating pad. 6½ in. high.

9 G 2603—Shipping weight 2 lbs. 8 oz..... $9.50

[H] **CRAFTSMAN Roto-Vert Attachment.** Converts a ¼-in. electric drill into a portable power saw and filing machine. Uses standard hack saw blades and files. Cuts straight or irregular shapes in wood, metal, wallboard, etc. Ideal for close-quarters work; for cutting bolts, angle iron, etc.; and for filing or burring. For use on electric drills with spindle speeds 1600 to 2500 R.P.M. Only two moving parts; no gears or springs. Solid brass case; gray wrinkle finish. Length 3⅝ in. Complete with instructions.

9 G 2590—Shipping weight 2 pounds..... $9.50

DUNLAP DRILL PRESS

B **Drills to center of 12-in. circle; maximum spindle travel 3 in.** Heavier than any other drill press we know of in this price range! 3 porous bronze bearings; ball thrust bearing. "Perma-Coil" quill return spring. Rubber shock cushion. Adjustable stop collars. Depth gauge. 7¾x7¾-in. table. No. 33 Jacobs taper spindle with "Safe-Lock" key chuck (5/64 to ½-in. capacity). Height 26⅞ in. 9 speeds, 750 to 4000 R.P.M., using 2 matched 4-in. 4-step pulleys and V-belt (included).

99 G M2362—Without motor. Shpg. wt. 78 lbs.. $46.50

99 G M2363—With ⅓-H.P. 1750 R.P.M. ball-bearing split phase motor for 110-120 volt 60 cycle AC. Shpg.wt.105 lbs. $64.95

DUNLAP DRILL PRESS

C **Drills to center of 9-in. circle; maximum spindle travel 1¹¹⁄₁₆ in.** You'd expect to pay much more! 2 porous bronze bearings; ball thrust bearing. ⅓-in. x 20-thread spindle; ⅜-in. capacity screw-on chuck. Height 24²⁵⁄₃₂ in. 7 speeds, 1150 to 3450 R.P.M. ⅜x56-in. V-belt included. Without motor pulley. (See index for pulley.)

99 G 02172K—Without motor. Shpg. wt. 27 lbs... $17.75

99 G T2188L—With ⅓-H.P. 1750 R.P.M. bronze-bearing split phase motor for 110-120 volt 60 cycle AC; V-belt; 3-step cone-type motor pulley. Shipping weight 54 lbs..... $31.50

D **Drill Press Handbook.** 32 pages; covers over 100 drill press operations. 175 illustrations. **9 G 2921**—Shpg. wt. 2 oz..... 22c

Equipped with Jacobs "Safe-Lock" chuck!

Swiveling threaded lock collar screws onto drill press spindle . . . chuck CAN'T fly off! Included with drill presses A, B, E and F.

More for Your Money!

The ONLY Drill Press in this price range with ALL these features . . .

- "Perma-Coil"—a spiral-coil quill return spring; lasts much longer than usual flat springs.
- Pulley and bearing sleeve are ONE piece . . . More accurate . . . Reduces spindle torque . . . Safer, because splines at top of spindle are enclosed.
- Rubber cushion pre-loads bearings in quill; automatically takes up end play; reduces drill breaks.
- Easy-to-read scale shows angle of table tilt.

CRAFTSMAN Industrial quality Ball-bearing DRILL PRESSES
By far our finest drill presses . . Bench and floor models

E F **Drill to center of 15-in. circle; maximum spindle travel 4 in.** Heavier than any other drill presses we know of in this price range! "Floating-Drive" spindle assembly . . . spindle "floats" within pulley. Four sets of heavy duty, shielded, precision ball bearings; lubricated for life! Three-lever feed handle.

New-type Jacobs "Safe-Lock" key chuck . . . 0 to ½-in. capacity (see top of page; also sold separately under 9 G 2962 at right). No. 33 Jacobs taper at chuck. *Exclusive* "Perma-Coil" spiral-coil quill return spring . . . lasts much longer, permits greater range of tension adjustment than usual flat springs. Rubber cushion absorbs quill return shock. Positive-acting quill lock. Depth gauge graduated in 16ths of an inch. Accurate stop nuts may be set for repetitive drilling.

10x10-in. ground cast semi-steel table tilts 0 to 90° right or left. Taper pin maintains table in perfect alignment at horizontal (90°) position. 9 speeds, 610 to 5000 R.P.M., using two matched 5-in. 4-step cone pulleys with ½-in. V-belt (included).

E **99 G M2313—Bench model** without motor. Height 36⅝ in. Base to chuck 17⅜ in. Max. table travel 13³¹⁄₃₂ in. Wt. 137 lbs... $79.50

99 G M2330—As above, with CRAFTSMAN ½-H.P. 1750 R.P.M. ball-bearing capacitor motor for 110-120 volt 60-cycle AC. Wt.171 lbs. $105.50

F **99 G M2314—Floor model** without motor. Height 68¾ in. Base to chuck 48 in. Max. table travel 43¹³⁄₃₂ in. Wt. 179 lbs. $89.50

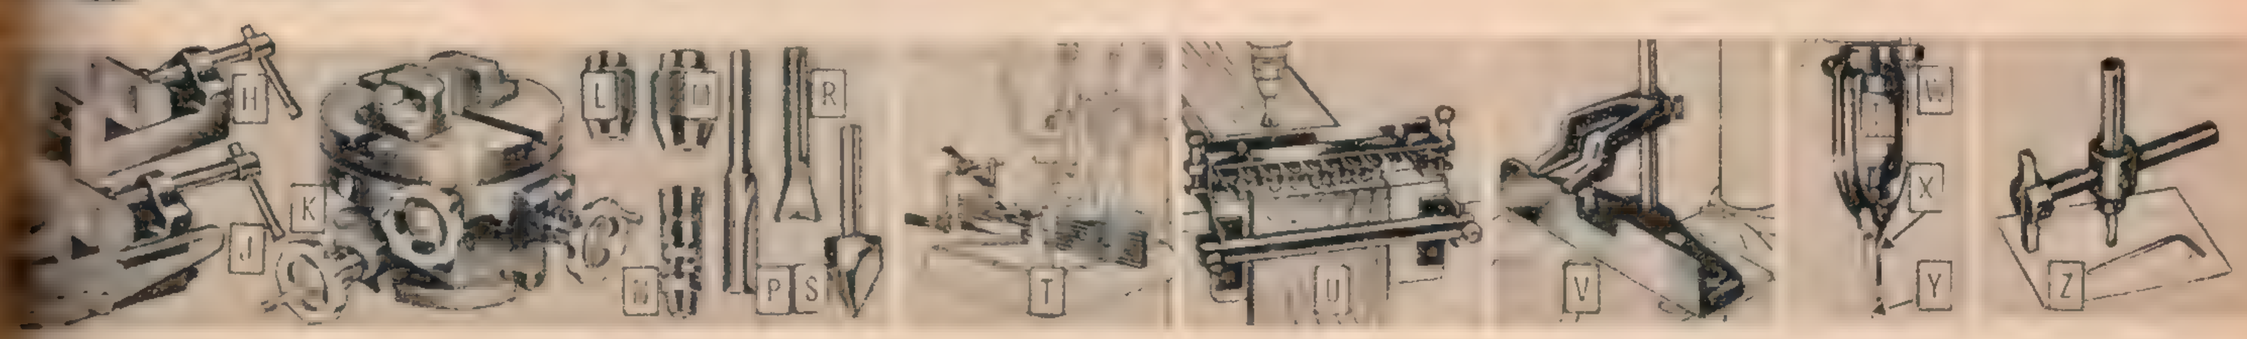
99 G M2331—As above, with CRAFTSMAN ½-H.P. 1750 R.P.M. ball-bearing capacitor motor for 110-120 volt 60-cycle AC. Wt. 213 lbs. $115.50

Jacobs "Safe-Lock" Chuck (shown at top of page). A great improvement. Has swiveling threaded lock collar. Permits you to use routers and cutters without need for a special collet chuck.

9 G 2962—Capacity 0 to ½ in. For drill press with both 1⅛-in.x20-thread collar and Jacobs No. 33 taper. With key. Wt. 1 lb. 8 oz.... $9.00

9 G 2963—Capacity 5/64 to ½ in. For drill press with both 1⅛-in.x20-thread collar and Jacobs No. 33 taper. With key. Wt. 1 lb. 2 oz.... $8.50

G **99 G M2306F—Production Table** for above drill presses. Use with oil or coolants. 19x18⅜x4 in. Cast semi-steel; 10½x6½-in. ground surface. ⅜-in.x18-thread outlet. Pay freight or express from factory in southern Michigan on delivery. Shpg. wt. 47 lbs..... $20.95



CRAFTSMAN Drill Press Vises. Ma- cast iron with hardened steel jaws. Can be used with magnetic ⅛-in. jaws; open 2½ in.

2755—Precision squared sides. in. long. Shipping weight 2 oz..... $4.75

2756—Can be adjusted any angle 0 to 90°. Accurately graduated. ing. Shipping weight $7.50

ling Vise. Use your drill press as a ing machine! It's an indexing table, table and a milling table! Use on sses, milling machines, surface , or shapers. Precision built. Table 360 degrees. *Dual cross feed* 2⅛ ach side or 4¼ inches over all; cali- n thousandths. *Rotary feed:* cali- degrees.

3K—Shpg. wt. 38 lbs.. $47.95

3K—As above, but without the eed. Shipping weight $37.95

Collet Chucks. Screw-on type. Replace 3-jaw chucks on ½-in.x20-thread spindles on work developing side thrust. Shipping weight each 3 oz.

L 9 G 2271—¼-inch capacity.... 95c
M 9 G 2269—½-inch capacity.... $1.20

N **Collet Chuck.** No. 33 Jacobs taper. Bushed for ¼ and ½-in. shanks. **9 G 2455**—Shipping wt. 8 oz..... $1.30

High-speed Tool Steel Cutters. Fit Jacobs "Safe-Lock" chuck and collet chucks 9G2271 and 9G2455. Never use these cutters in regular Jacobs or other 3-jaw drill chucks. Shpg.wt.each 6 oz. $1.15

P 9 G 2400—⅛-in. router..... $1.15
9 G 2401—¼-in. router..... 1.25
9 G 2402—⅜-in. router..... 1.25
9 G 2403—½-in. router..... 1.45
9 G 2404—⅝-in. router..... 1.75

R 9 G 2410—⅜-in. dovetail router. 1.25
9 G 2411—½-in. dovetail router. 1.45

S 9 G 2415—½-in. carving router. 1.45
9 G 2416—¾-in. carving router. 1.70

T **CRAFTSMAN Shaper Fence Attachment.** Fits table of all drill presses above except 99G02172K. 1-pc. cast aluminum; opening in back for chip outlet. Hardwood fence faces; open 1 to 3 in.; adjust and lock separately. Adjustable steel hold-downs. (For cutters and attachments see page 1336.) **9 G 2487**—Shpg. wt. 5 lbs..... $10.95

U **Dovetailing Attachment.** Clamps hold pieces to be dovetailed at right angles; slotted metal comb controls spacing, depth of cut. Both pieces cut at one setting. With end plates, comb, screw fittings, clamps, wood parts. Dovetail bit not included. **9 G 2462**—Shpg. wt. 5 lbs. 8 oz..... $9.25

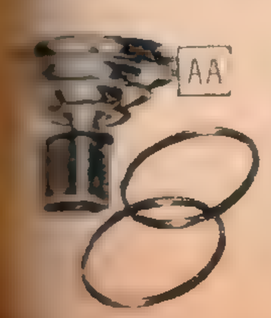
V **CRAFTSMAN Hold-down and Guide.** Fit almost any drill press table for mortising or repetitive drilling. Hold-down fingers adjustable for thick or thin materials. Attachments bolt to drill press table; easily adjusted forward or backward. Fence section can also be used without hold-down to serve as guide. Heavy cast iron. **9 G 2457**—Shpg. wt. 5 lbs. 8 oz..... $4.45

W **CRAFTSMAN Mortising Chisel Housing.** Lets you cut square holes with drill press when used with hollow chisel and mortising bit (not included; see below). Mounts on quill of all drill presses above except 99G02172K. Made of cast semi-steel. Easily attached or removed. **9 G 2464**—Shpg. wt. 3 lbs. 8 oz..... $3.95

X **9 G 2420—Hollow Chisel.** Use with mortising chisel housing 9G2464 above to trim corners. ¼, ⅜, or ½ in. *Please state size.* Shpg. wt. 4 oz..... $2.59

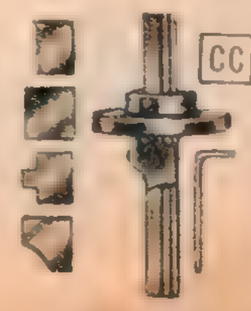
Y **9 G 2422—Mortising Bit.** Use with mortising chisel housing 9G2464 above to drill round hole. ¼, ⅜, or ½ inch. *State size.* Shpg. wt. 4 oz..... $1.59

Z **Heavy duty Circle Cutter.** ½-in. shank for use in drill presses or electric drills. Cuts holes 2 to 8-in. diameter, to 1 in. deep; in sheet steel, brass, wood, plastic, fiber, etc. Removable high speed steel bit. Set screw wrench included. **9 G 3641**—Shpg. wt. 10 oz..... $4.45



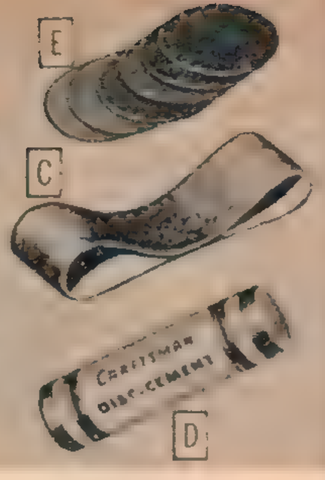
AA **CRAFTSMAN Slow-speed Attachment.** For use with 99GM2364, 99GM2313 and 99GM 2314 above, and many other drill presses with 2 or 2⅜-in. (plus .005 in.) inside diameter columns. Provides wide range of speed for shaping, routing, etc. Gives 20 speeds from 200 to 15000 R.P.M. Use at least ½-H.P. 1750 R.P.M. motor. Two V-belts included. **9 G 2338**—Wt. 4 lbs. 2 oz.. $11.50

BB **CRAFTSMAN Rotary Planer.** Does routing, planing, rabbeting and paneling. Dresses, trues-up and finishes all types of wood. Won't burn, gouge or scratch. Excellent for removing paint, varnish, etc., from old boards. Fits drill presses having No. 33 Jacobs taper and 1⅛-in.x20-threaded side thrust nut or locking collar. Diameter 3⅜ in. With Allen wrench and instructions. **9 G 2745**—Shpg. wt. 8 oz.. $3.85



CC **CRAFTSMAN Drill Press Shaper Set.** Shapes almost any contour, including tongue and groove. Operates at 5000 R.P.M. With 5 assorted tool-steel cutter blades ¾ in. wide, and Allen wrench. Use with ½-in. collet chuck or "Safe-Lock" chuck. Has blade guard for safety. **9 G 2486**—Shpg. wt. 10 oz $2.85

BELT and DISC SANDERS



A CRAFTSMAN 6-in. Belt and Disc Sander. Heavy duty! Operates at any angle from 0 to 90°. Belt table, 6½x17⅞ in. Sanding disc table, 6⅛x12 in.; tilts 0 to 45°. Cast semi-steel tables and frame. 3-in. diameter; drums; one rubber covered. Quick-change belt release. Self-lubricating bronze bearings; oil well around each. Length 28⅜ in. With miter gauge, stop guard, 9-in. abrasive disc, 6x48⅛ in. sanding belt, 3-in. machine pulley. Shipped freight or express.

99 G M2235—Without motor, motor pulley, belt, bench. Shpg. wt. 67 lbs. **$44.50**

99 G M2233—With ½-H.P. 1750 R.P.M. ball-bearing capacitor motor for 110-120-volt 60-cycle A.C., belt, 2½-in. motor pulley. Shipping weight 102 lbs. **$71.95**

B DUNLAP 4-inch Belt Sander. Lowest price we know of for a sander of this size and quality! Strong, rigid, compact . . . ideal for the home workshop. Does curved and irregular work with end drums; flat work with 4-in. wide belt. Can be used on wood or metal. Self-lubricating porous bronze bearings. Strong, cast semi-steel body and table. 3-point mounting. Belt adjustable from BOTH sides; easier to align belt. Fence adjustable; easily removed. 2½-in. diameter sanding drums. Length 16⅝ in. With adjustable stop guard; 4x36-in. medium grit aluminum oxide belt; machine pulley.

99 G 02236—Without motor, motor pulley or V-belt. Shipping weight 19 pounds. **$16.50**

99 G T2222K—With ¼-H.P. 1750 R.P.M. bronze-bearing split phase motor (110-120 volt 60-cycle A.C.); V-belt; 2-in. motor pulley. Shipping weight 43 pounds. **$28.75**

C Sanding Belts. One-piece aluminum oxide on cloth. Coarse, medium or fine grit. *State grit.* Shipping weight 4 oz. and 8 oz.

9 G 2215—4x36 in. . . . Each **66c** **9 G 2167**—6x48⅛ in. Each **$1.00**

D Disc Cement. Non-drying. Shipping wts. 6 oz. and 1 lb. 2 oz.

9 G 2219—4¾-oz. stick **35c** **9 G 2229**—16-oz. stick. **69c**

E Sanding Discs. Aluminum oxide on paper. For wood or metal. See below for grits available and number of discs per package. (F means fine; M medium; C coarse; OC open coat.) *State grit.*

9 G 2532—6-in. 6 F or 6 M or 4 C or 3 OC or 6 assorted (2 F, 2 M, 2 C). Shipping weight 6 oz. **25c**

9 G 2525—8-in. 6 F or 6 M or 5 C. Shipping weight 8 oz. **65c**

9 G 2526—9-in. 6 F or 6 M or 5 C. Shipping weight 8 oz. **65c**

9 G 2534—10-in. 6 F or 6 M or 5 C. Shipping weight 10 oz. **75c**

CRAFTSMAN high-speed WOOD SHAPER

F Designed for high speed light duty production work. . . features exclusive in this price range: (1) Both . . . fence adjustable without loosening any part of the f . . . sembly. (2) Three-point mounting. (3) Collars, nuts a . . . ers hardened to prevent burring. (4) Floating upper . . . for greater accuracy . . . two sets of sealed radial ball b . . . lubricated for life. Spindle and bearing assembly mo . . . quill. 21x15-in. ground semi-steel table. Spring hold . . . Miter gauge slot. 3¼-in. straight spindle; ½-in. x . . . thread. Built-in guard completely encloses belt and mo . . . ley; adjustable for different belt lengths. 3 spindl . . . 2½-in. cutter height adjustable ⅞ in. Height 11½ . . . machine and motor pulleys and belt. Shipped frei . . . press.

99 G M2392—Without motor. Shpg. wt. 76 lbs. . . . $5

99 G M2406—With ½-H.P. 3450 R.P.M. 110-120-volt . . . A.C. ball bearing motor. Shpg. wt. 114 lbs. . . . . .

This CRAFTSMAN WOOD LATHE is unmatched in this price range!

Without motor **$44.95** Cash $4.50 Down

Check these features . . .

they mean more for your money:

- ✓ Two sealed radial thrust ball bearings in headstock, lubricated for life.
- ✓ Removable cover on outboard end of headstock spindle; permits outboard turning.
- ✓ Spring-loaded indexing pin.
- ✓ Convenient location of tailstock lock and tailstock ram lock.
- ✓ Bed is full 5½-in. wide; widest that we know of in this price range.

G 9-inch swing . . . 30 inches between centers . . . 46¾-inch bed. Our finest. Massive, heavy duty, production-type tool—lowest price we know of for this quality. Even under heavy cuts on high speeds it will operate with exceptional smoothness, and accuracy. Extra heavy cast semi-steel construction. Massive base is rigid and well braced. Three-point mounting helps eliminate twist and strain. ¾x16-thread headstock spindle; threaded inboard and outboard ends. No. 1 Morse taper in both headstock and tailstock. Indexing pin for use in fluting. Gray enamel finish. Length 50⅛ in. With tool rest, spur and cup centers, wrench, 4-in. 4 step machine pulley giving 4 speeds, 875 to 3450 R.P.M., V-belt.

99 G M2307—Without motor or motor pulley. Shpg. wt. 76 lbs. **$44.95**

99 G M2195—With DUNLAP ½-H.P. split phase 1750 R.P.M. 110-120-volt 60-cycle A.C. motor, 4-in. 4-step motor pulley. Shpg. wt. 104 lbs. . . . **58.95**

H 99 G 02488—Lathe Bed Extension—for above lathe, or our earlier model 2318. 18 inches long. Shipping weight 19 pounds. **9.50**

DUNLAP bronze bearing WOOD LATHE ideal for home workshops

Without motor **$22.95** Cash $2.50 Down

J 8-in. swing; 24 in. between centers; 36¾-in. bed. Heavy cast semi-steel. ⅝-in. straight unthreaded spindle in headstock and tailstock. 2 self-lubricating porous bronze bearings in headstock. Ball thrust bearing. Removable cover on outboard end for turning large diameter work. 3-point mounting. Gray finish. 40 in. long. With wrench, tool rest, spur and cup centers, 3-in. 3-step machine pulley (3 speeds: 1025, 1750, 2985 R.P.M.).

CRAFTSMAN Metal Turning Lathe

OUR FINEST . . INDUSTRIAL QUALITY

Back-geared, screw-cutting; guaranteed accurate within 1/1000 in.
Two Timken roller bearings in headstock for smoother operation

A **Full 12¼-in. swing over bed, 8⅝-in. over carriage.** One-piece cast semi-steel bed; precision ground ways. Reversible power cross feed makes facing work easier. Husky back gears have approximately 6 to 1 ratio. Headstock and pulley guards. Hand wheel for manual carriage operation; lever for automatic power feed. Five feeds: .0024; .0035; .005; .0071; .0087 in. Headstock has indexing device so work can be evenly divided or fluted. Tailstock has center ejector; coordinate ram lock. Countershaft is part of lathe; with motor mounting. Tailstock has No. 2 Morse taper; ¾-in. set-over for taper turning. 16 speeds from 28 to 2072 R.P.M. Spindle nose 25/32-in. bore; 1½-in. 8-thread with No. 3 female Morse taper reduced to No. 2. Quick-change counter shaft; V-belt drive. With 4-step machine pulley; 2-step motor pulley; V-belt; two 60° centers; tool post wrench; Allen wrench; 234-page Lathe Manual. Use at least ⅓-H.P. 1750 R.P.M. motor. 99GM2743 and 99GM2744 equipped with Quick-Change Gear Attachment (shown on lathe in illustration and separately at right). See description below.

99 G M2743—24 in. between centers; 45 in. long. Shpg. wt. 295 lbs. $297.00
99 G M2744—36 in. between centers; 57 in. long. Shpg. wt. 315 lbs. 328.00

The two lathes below are without Quick-Change Attachment, but with 10 threading gears; cut 4 to 98 threads per inch, right or left (standard); metric .5 to 7.0 mm.

99 G M2075—24 in. between centers; 45 in. long. Shpg. wt. 288 lbs. $238.00
99 G M2079—36 in. between centers; 57 in. long. Shpg. wt. 305 lbs. 260.00

B **Quick-Change Gear Attachment.** Fits 99GM2075 and 99GM2079 lathes and CRAFTSMAN lathes with model numbers 101.07361; 101.07362; 101.07363; 101.07381; 101.07382; 101.07383; 101.07401; 101.07402; 101.07403. Provides instant selection of 54 different threads or feeds; between .0042 and .250 inch per revolution of spindle and all threads right or left hand from 4 to 240 in the following standards: National Coarse (USS), National Fine (SAE), Acme, Square and Whitworth. Mounts easily; no drilling or tapping necessary. Replaces change gear assembly; gear box bolts to lathe bed, support bracket to countershaft bracket bolt. $71.95
99 G 02014 K—Shipping weight 36 pounds

Back-geared, screw-cutting LATHE . . amazingly low priced!

C **CRAFTSMAN Metal Turning Lathe.** Excellent for model making, turning armatures, experimental work, and small metal-turning jobs. Compound swivel operates on dove-tail V-way bed. Compound rest and cross feed gibbed for wear take-up. Hardened ground spindle; ½-in. 20-thread. Double bearing headstock has porous bronze bearings; adjustable front bearing. Removable No. 0 Morse taper centers in headstock and tailstock. Tailstock may be set over for turning tapers. Threading gears included cut threads from 8 to 96 per in., right or left. Feeds: .0024; .0039; .0048; .0078 in. Six speeds, 120 to 1325 R.P.M. 6-in. swing . . . 12⅛ in. between centers . . . 23 1/16-in. bed. With two 60° centers, ¼-in. tool bit, Allen wrench, ½-in. lathe dog, 4-in. face plate, 8 threading gears, 4-step motor pulley, 3-step machine pulley, ⅜x36-in. V-belt. Length 26¾ in. Use at least ¼-H.P. 1750 R.P.M. motor. Shipped freight or express.

99 G M2127—Without motor. Shipping weight 61 pounds $44.25
99 G M2128—With DUNLAP ¼-H.P. 1750 R.P.M. bronze bearing split-phase motor for 110-120-volt 60-cycle A.C. Shipping weight 84 pounds $55.50

Another 4-STAR Feature!

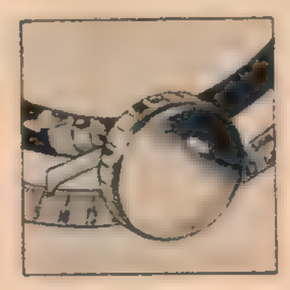
SEARS 4-STAR FEATURE — THE SEAL OF TESTED QUALITY AND SAVINGS · LABORATORY APPROVED

CRAFTSMAN "80" 8-inch Tilting-Arbor BENCH SAW

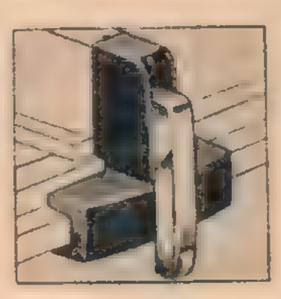
With *Floating Drive* . . smothers vibration

Easy tilting . . Minimizes arbor strain

Floating Drive—Special floating motor mount; eliminates need for special motor; automatically controls belt tension; protects motor from sawdust.



Mono-Control—Single hand wheel controls tilting, raising and lowering of blade. Just move wheel in or out to change from one control to other.



Fence squares directly against table instead of guide bar, for perfect alignment. Single lever locks fence against BOTH ends of table. Use on either side.

Tilting arbor always stays the work regardless of being cut. guard and any angle degrees.

Has double-row sealed precision ball bearings . . Lubricated for

Front or Rear Table Extension. Roller-type extension increases table capacity without disturbing rip fence set-up. Makes it easier to rip long boards. Bolts for mounting included. See listing at right for price and shipping weight.

$57.95 Cash
Without guard, motor, extensions, bench.
$6.00 Down

"Floating Drive." Motor is mounted on a special support on the bench behind the saw . . . stops transmission of motor vibration to the saw by eliminating any mechanical connection. Minimizes strain on frame and arbor of saw . . . practically all motor weight rests on the motor mount itself.

20x17-inch table of cast semi-steel. Precision ground; sides are machined. Grooved on both sides of the blade for miter gauge. 9¼ inches in front of blade at full depth of cut. Use fence on either side of the blade. "Super-lubricated" sealed ball bearings. 8-inch combination blade (⅝-inch bore) gives up to 2½-inch depth of cut; tilts any angle to 45 degrees. Complete with blade; miter gauge; rip fence; machine and motor pulleys; V-belt. Order it today on Sears Easy Terms.

CRAFTSMAN "100" Tilting-Arbor 10-inch BENCH SAW . . OUR FINEST!

Extra heavy duty . . Has features found in NO other bench saw

[A] For outstanding quality, mechanically superior features and exceptional performance all in one saw . . . we're positive this superb CRAFTSMAN tilting-arbor saw cannot be matched elsewhere today . . at anywhere near this price! Its many operating advantages make it the first choice of professional craftsmen who rely on it for faster, easier, more accurate use in countless shop operations. Improved model, more rigid saw base, stronger motor support with new pivot arm for smoother operation. New tension device between motor mounting plate and support reduces vibration and jumping of motor when current is shut off.

Sealed precision ball bearings, NEVER need lubrication. Extra-large 27x20-in. heavy cast semi-steel table; precision ground; grooved on both sides of blade. Working area in front of blade now 13⅜ in. Rip fence usable on either side of blade clear to table edge. Single control lever locks fence at BOTH ends. 10-in. combination rip and crosscut blade (⅝-in. bore) gives full 3⅜-in. depth of cut. Blade, miter gauge, stop rods, rip fence, machine and motor pulleys and V-belt included. Replaceable insert available for dadoing.

Table is always level, for easier and more accurate sawing. Motor, blade and arbor tilt together as a unit, any angle up to 45°; belt never twists. Blade raises and lowers to vary depth of cut 0 to 3⅜ in.

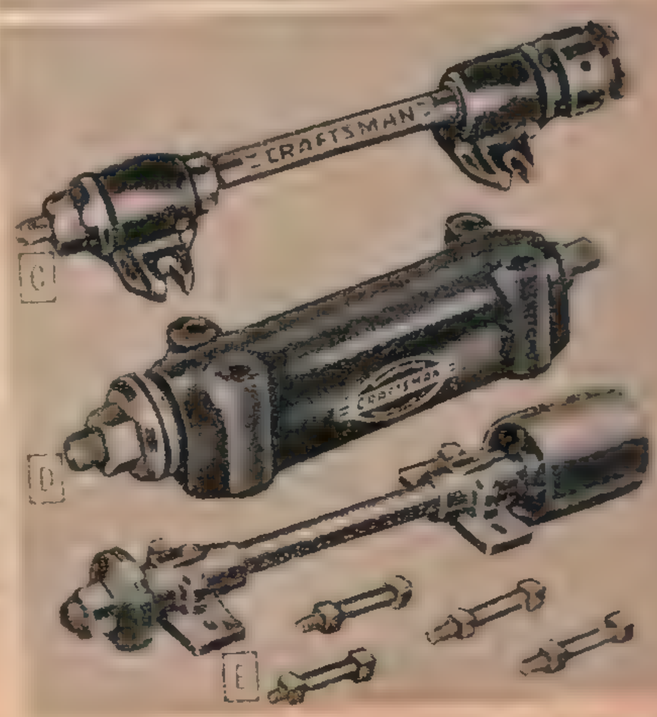
Blade is pulled through lumber much faster than pushing lumber through the blade!



Absolute Accuracy! CRAFTSMAN Saw teeth are cut by machine

Now! Spring General Catalog prices reduced on these top quality Circular Saws

CRAFTSMAN circular saws are produced by improved machine methods that *eliminate* many costly hand processes! Automatic machines do the job faster, better, more cheaply, more accurately. You pay *less* for a *more* accurate saw. We believe there are none finer at ANY price.

Electrically-controlled furnaces hold saws flat, temper them under pressure—give blades toughness, longer-lasting edges. Evenly tensioned to run true in cut. Accurately ground for better balance and surface finish; pitch and gum are less likely to stick. Deep, sawdust-freeing gullets. Cut smooth and easy—won't choke or bind. CRAFTSMAN circular saws will stand up under hardest production use.

Four types: (1) Crosscut; (2) Rip; (3) Flat-Ground Combination; (4) Hollow-Ground Combination. Hollow-Ground saws have 3-gauge taper grinding for extra easy cutting; smooth enough to glue without planing or sanding; cut slightly slower than Flat-Ground saws. *State catalog number, center hole size, and diameter of saw wanted when ordering.*

CRAFTSMAN 8-tooth CARBIDE-TIPPED SAW

Laboratory tests PROVE this CRAFTSMAN out-performs saws selling for much more! Rips, crosscuts, miters—handles jobs smoother, faster, and with less sharpening. One of these —a 10-inch blade in actual service—sawed *more than 27* ⅝-inch laminated masonite *without sharpening*, until damaged a steel object. Outlasts all-steel blades 20 times!

New, safer 8-tooth design. Each tungsten-carbide tipped projects only .020 inch above the non-cutting surface. Saw grab—protects you from kickback injury.

Cuts all types of wood, plastics, plywood, formica, masonite board, abrasive building materials, transite, asbestos, alu and asphalt roofing and siding. (Not for masonry, steel other ferrous metals.) Width of tooth (cut) is .108/.118 in but 10-in. saw which is .118/.128 in. The 10-in. saw also ha down bushings of 1 to ¾ in. and 1 to ⅝ in.

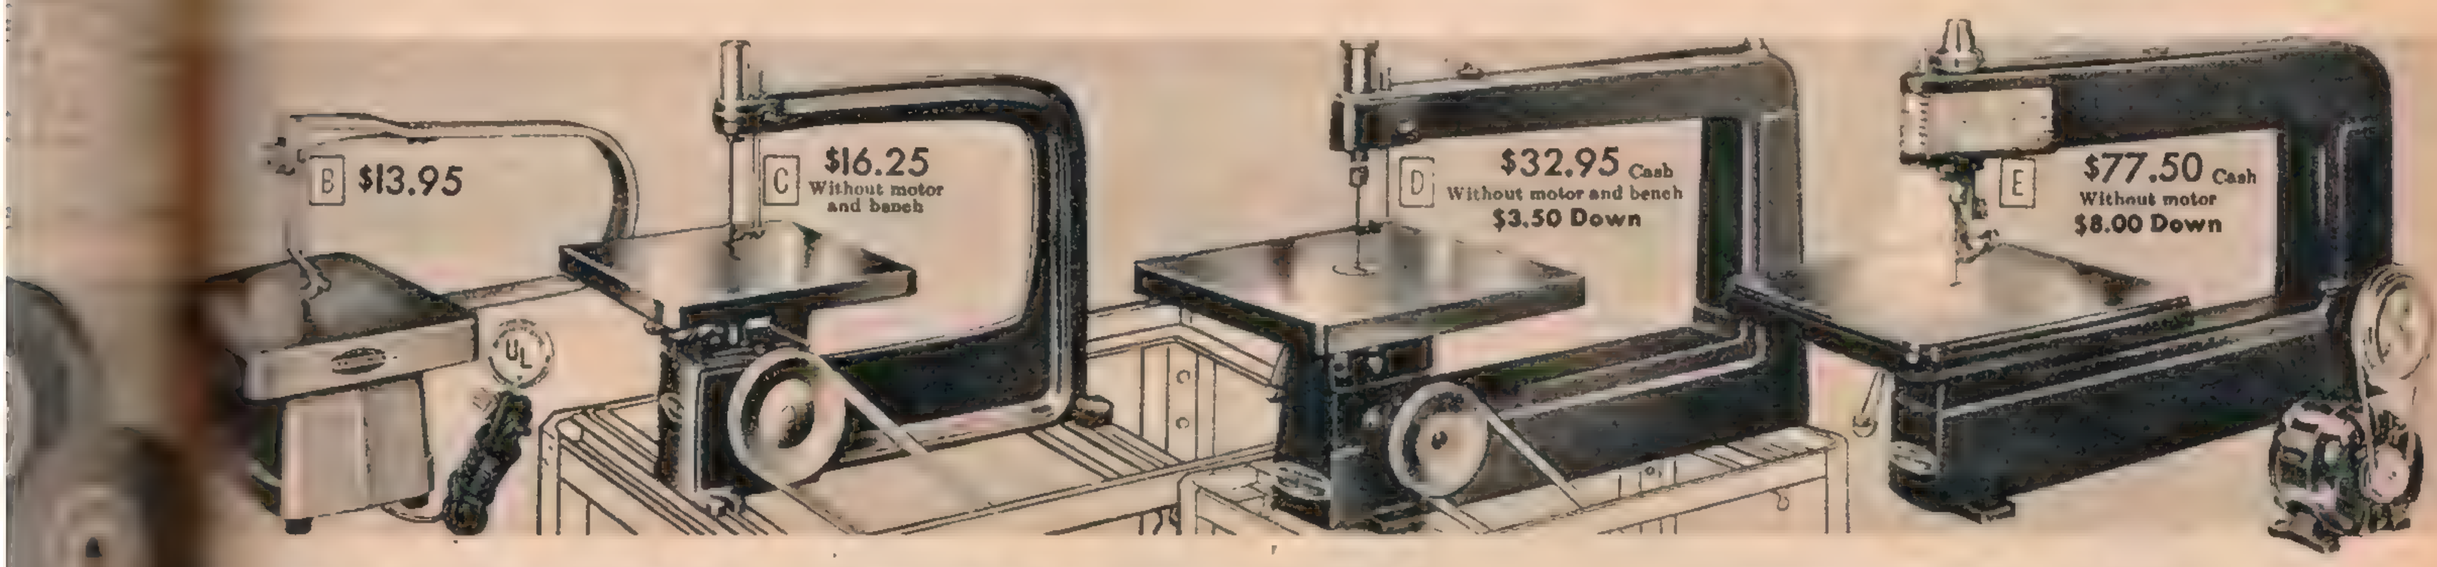
9 G 2293—Three extra Jointer-Planer knives for above. Wt. 10 oz. 3.95



Fret and Jig Saw Blades

A **CRAFTSMAN** ... you'd expect to pay much more for professional quality blades like these! Accurately made of special alloy **"Super-Tuff"** steel, scientifically heat-treated and hardened for long life and fast, easy cutting action. This alloy is famous for its combination of toughness and fine edge-holding qualities. The 6-inch plain end blades can be snapped off to fit machines taking shorter plain end blades. The saber-tooth blades can be used for heavy work as well as for saber work. We suggest that you order a complete assortment of blades so that you'll be prepared to do many different kinds of work. See the table below for sizes and specifications of blades. Six blades per package except saber blades which are three to a package. Shipping weight per package 1 oz.

CRAFTSMAN 11-in. Magnetic JIG SAW

B 11-inch throat, 1-inch capacity. Now! 33⅓% more power! Cuts twice as fast as our previous model .. yet so quiet you can hardly hear it! *Approved by Underwriters' Laboratories.*

Needs no motor .. no belt .. no gears .. no oiling. Just plug it in and snap the on-off switch. Magnetic power unit in base gives 7200 short cutting strokes per minute—produces super-smooth edges that need no sanding. Safe, easy to operate ... every member of the family can use it, including children. Cuts soft wood up to 1 inch thick; also cuts plastics and metals. Rubber feet. 8½x8-inch table. Height 10½ inches. With six 5-inch pin-end blades, 5½-foot cord, plug and instructions. For 110–120-volt 60-cycle AC only.
99 G 02750—Shpg. wt. 15 lbs..... $13.95
9 G 2690—Extra blades for above jig saw. 5-inch; pin-end. Shipping weight 1 oz..6 for 23c

DUNLAP 12-inch JIG SAW

C **DUNLAP** ... 12-inch throat, 1-inch capacity. Priced low for this quality. One of the smoothest-operating small jig saws we've ever seen. Scotch Yoke action for smooth, quiet operation; runs in bath of oil. Enclosed coil-type spring. Cuts wood up to 1 inch thick; also cuts plastics and metals. 9x9-inch table tilts 0 to 45°; has tilt indicator. One-piece cast semi-steel frame with gray finish. Over-all height 14 3/32 inches. With 5-inch pin-end type blade. One-inch stroke; 875 strokes per minute. Built-in sawdust blower. 4-inch machine pulley. We recommend at least ¼-H.P. 1750 R.P.M. motor with 2-inch motor pulley.
99 G 02179K—Without motor, motor pulley, V-belt, bench. Shpg. wt. 33 lbs.. $16.25
99 G T2184L—With ¼-H.P. 1750 R.P.M. split phase motor (110–120 volt 60 cycle AC), motor pulley, belt. Shpg. wt. 57 lbs.... $28.95

CRAFTSMAN 18-inch JIG SAW

D More weight, larger throat, and greater table area than ANY other jig saw we know of in this price range! *Only $3.50 down puts it in your shop.* Designed to stand up under hard professional use ... does a superb job in the home shop. Scotch Yoke action assures smooth operation; runs in bath of oil. Porous bronze main bearing. Cuts wood up to 2 in. thick; also cuts plastics and metals. 1-in. stroke; 875 strokes per minute. Cast semi-steel. Upper arm can be removed for filing and saber sawing. 12x12-inch semi-steel table tilts 0 to 45° on double pivots. Enclosed coil-type spring. Blade chucks rotate 90° for ripping long pieces. Blade guides above and below table. Air for sawdust blower pumped through guide rod; no separate air hose. Uses 5-in. or 6-in. plain end blade (one supplied). 4-in. machine pulley supplied. We recommend at least ¼-H.P. 1750 R.P.M. motor with 2-inch motor pulley. Over-all height 17 23/32-in. Shipped freight or express.
99 G M2315—Without motor, motor pulley, V-belt or bench. Shipping weight 68 pounds..... $32.95
99 G M2449—As above, with DUNLAP ¼-H.P. 1750 R.P.M. bronze-bearing split phase motor for 110–120-volt 60-cycle AC, 2-in. motor pulley, V-belt. Shipping weight 92 lbs..... $45.75

CRAFTSMAN 24-inch JIG SAW

E We believe it's the finest 24-inch jig saw in this price range. Quiet ... accurate ... works with sure, easy smoothness. You'll get an entirely new idea of jig saw performance when you use this CRAFTSMAN. "Walking Beam" action reduces vibration and blade breakage. Equal power on up AND down strokes ... no jerky return spring. Drive action operates through permanently-lubricated double bearing guides above and below work. Heavy duty; cuts wood up to 2 in. thick; also metal and plastic. 7½-watt work lamp built into head. Large 16x16-in. table of cast semi-steel; tilts 45° right or left; swivels 90° right or left. Hold down functions even with table tilted. Shoe in chuck prevents twisting of blade when tightening. Drive shaft at rear; motor out of way. Built-in sawdust blower. 1 5/32-in. stroke; 525 or 1015 strokes per minute. 6-in. plain end blade. 5 and 6-in. machine pulley. Cast semi-steel base; gray enameled. Length 39¾ in. Use at least ¼-H.P. 1750 R. P. M. motor with 2 and 3-in. motor pulleys.
99 G M2344—Without motor, motor pulley, belt. Shpg. wt. 125 lbs. $77.50
99 G M2393—With DUNLAP ¼-H.P. 1750 R.P.M. split phase motor (110–120 volt 60-cycle AC), 2 and 3-inch motor pulleys, V-belt. Shipping weight 149 pounds..... $90.50

Cutting several pieces at one time
Cutting metal tubes, bar stock

NOW! You Can Cut and Polish Gems Yourself!

CRAFTSMAN GEM MAKER . . a hobby, a business

Here's a professional quality outfit with everything you need for gem-making . . . a fascinating new hobby . . . or a profitable sideline business! Outfit includes complete gem-making instructions and even some semi-precious stones—all at a remarkable low price. You can buy rough stones and jewelry settings at reasonable prices, or use stones you have found yourself. Gem Maker made of light, strong aluminum alloy castings. All wheels run horizontal. Lubrication cup can be moved around rim. Splash rim keeps liquids from splashing out. Rifle-drilled shaft provides forced lubrication to bearing when grease cup is tightened. 11¼ in. high with cup.

Equipment included: Complete Gem Maker; 6-in. super-charged diamond blade; 6-in. cast iron lap wheel; 6-in. silicon carbide scratch wheel; 6-in. special felt polishing wheel; 4-oz. No. 100 grinding compound; 4-oz. No. 220 grinding compound; 3-oz. polishing compound; 3 brushes for applying compounds; 6 assorted dop sticks; stick of dop cement; assorted gems for cutting; ½-pt. soluble oil; instructions.

99 G 01400—Set, without motor, motor pulley or V-belt. Shpg. wt. 18 lbs. **$31.50**

22-piece Set
$31.50 Cash
Without motor, motor pulley or belt
Only $3.50 Down

IT'S EASY! Just 7 simple steps from the rough stone to a beautiful gem!

Saw the stone flat on one side with the diamond blade.

Smooth flat surface with cast iron lap wheel. This step is not always necessary.

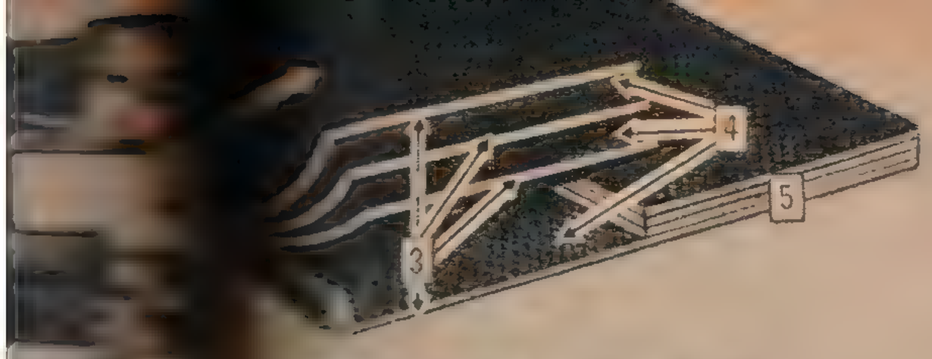
Cement the stone to the round wood dop stick to permit easier handling.

Shape the top and sides of the stone on the silicon carbide grinding wheel.

Take out the deeper scratches in the shaped stone with the wood lap wheel.

Take out the remaining smaller scratches with the silicon carbide scratch wheel.

Give [illegible] tiful, [illegible] with [illegible] wheel.



...essons why it's built to last

- ...ng on both sides—for slip-proof grip!

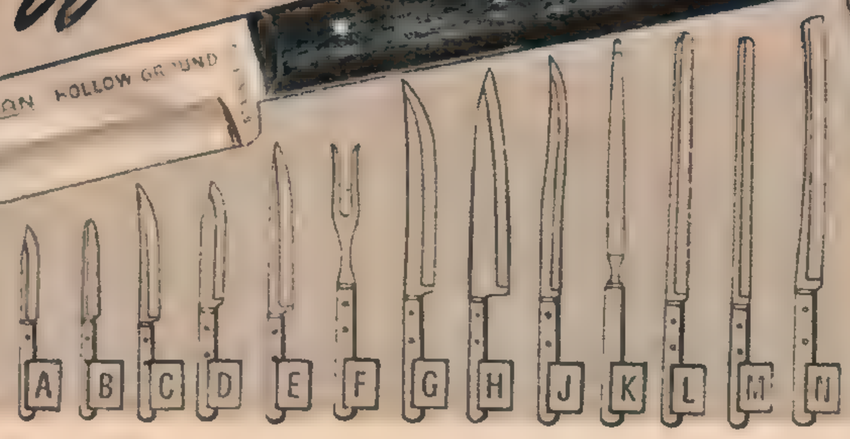
$1.89 Butcher Slicer 99 G 9388

Hollow ground like a straight razor to obtain razor-sharp edges for cutting perfection



STAINLESS STEEL BLADES won't rust, stain, tarnish; stay bright, easy to keep clean

Here's why housewives prefer CRAFTSMAN Cutlery . . .

1 **SUPERIOR BLADE**—Sensational **"Flame-freeze"** steel treatment makes it stay sharp much longer.

2 **SUPERIOR HANDLE**—CRAFTSWOOD . . . plastic-impregnated wood handle . . . resists water, stains, acids and flame. It won't crack, warp or fade!

We believe this is the finest cutlery you can buy AT ANY PRICE! That's why we make this 10-day trial offer . . . so you can *see for yourself* how much better it is.

—The *"Flame-freeze"* steel treatment. A sensational improvement. The high carbon stainless steel blades are heat-treated . . . then quenched in oil . . . then placed in a freezing compartment. This refines the grain structure of the steel—and makes it hold its super-sharp edge so much longer than ordinary steel that you'll hardly believe it's possible. Forget dull blades! Forget frequent sharpening and grinding! The keen hollow-ground edge lasts and lasts and lasts!

—The CRAFTSWOOD-plastic-impregnated wood handles. Far superior to the wood handles usually used—and much more attractive, too. The impregnated plastic gives the wood a beautiful permanent high luster and an exceptionally smooth and sanitary finish. It seals the wood against water, acids and stains. These handles will not crack, warp or fade. Handles are securely double-riveted to blades. They are precision-fitted for tight, sanitary construction to eliminate cracks and crevices where bacteria might collect. Scientifically shaped to give an exceptionally comfortable grip. Every piece is correctly balanced for easier handling. These beautiful, graceful, superb cutting tools will give you an entirely new idea of cutting perfection.

—They're Hollow-ground . . . like a straight razor. Far superior to ordinary grinding. Gives the blade a super-keen edge for faster and easier meal preparation. And remember—the blade will KEEP its beautiful bright finish because it's solid high carbon stainless steel. Take advantage of Sears 10-day trial offer today!

True Curve Hollow Grinding means . . CRAFTSMAN SHEARS have smoother action, longer lasting edges

Deep grinding assures fine cuts all the way to the points

Lock nut won't work loose—keeps blades in adjustment

Our finest shears! We believe there are no finer shears AT ANY PRICE with smoother action longer-lasting cutting edges. The quality used by professional tailors and dressmakers. So smooth and easy in their action that it's a thrill to use them on any fabric . . . from the most delicate silks to the heaviest woolens.

"True-Curve" hollow grinding is exceptionally deep to assure super-fine cutting right down to the matched points. To our knowledge, NO other shears have grinding like this. Precision fitted for perfect alignment of blades. Finest hot forged high carbon steel, tempered to hold a keen edge. Attractive, highly polished blades.

9 G 9837—Like 9G9838 but with nickel plated handles. Shpg. wt. 6 oz..... 3.35

STAINLESS STEEL . . modern tableware

First choice for beauty and economy because it gives you all these advantages . .

1. NEVER NEEDS POLISHING . . . . . always mirror-bright . . and easy to keep that way. Just wash, dry, and put it away!

2. NO PLATING TO WEAR OFF . . . . made of solid stainless steel. There is no plating to chip, peel, or wear off!

3. IT CAN'T EVER RUST OR STAIN . . just because it is stainless steel. The gleaming finish stays bright and beautiful!

4. TAKES LOTS OF HARD WEAR . . . . much better resistance to scratching and hard wear than other metals!

IMPORTED STAINLESS STEEL

24-piece Set

$4.95

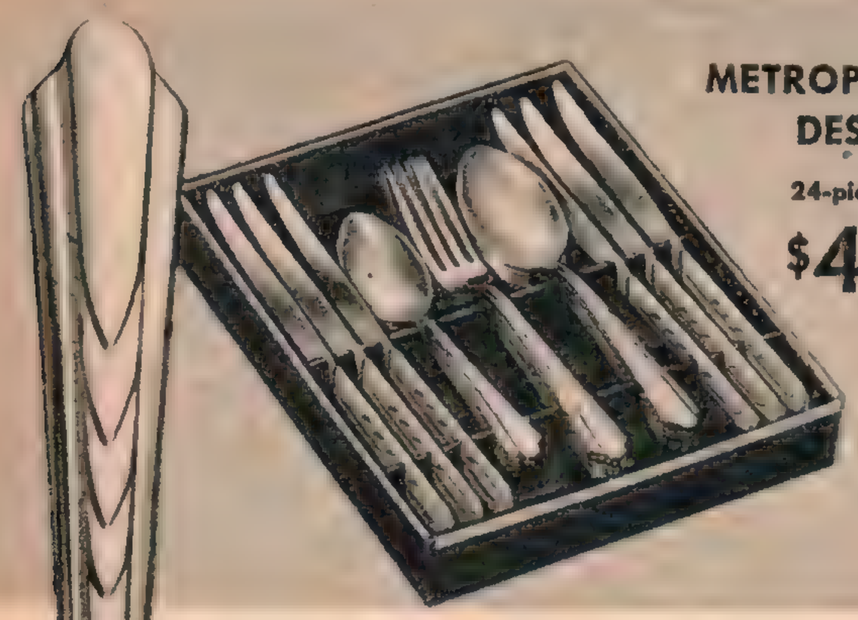
Graceful Design . . . Outstanding Value

Here is an attractive modern design, imported from Japan. Spoons and forks are semi-graded (spoons taper slightly from thick, sturdy bowl center to thinner lip edge; and forks taper gradually from thicker handles to thinner tip of tines). Both spoon edges and fork tines are ground smooth. This quality stainless steel tableware has all the modern advantages described at the top of the page.

Always gleaming bright . . . and easy to keep that way. Never needs polishing. Has no plating to chip, peel, or wear off . . . because it is made of solid stainless steel. Can't ever rust or stain. Much greater resistance to scratching and hard wear than other metals.

Complete 24-piece set includes the following pieces: 6 table knives, 6 dinner forks, 6 teaspoons, 6 dessert (oval soup) spoons. Comes packed in cardboard case.

9 G 1099—Shipping weight 3 lbs. 4 oz. . . . 24-piece Set **$4.95**



METROPOLITAN DESIGN

24-piece Set

$4.95

Exceptionally bright finish gives it extra beauty

Popular "Metropolitan" design! We believe it's far superior to other stainless steel tableware at this price because of brighter electro-polish finish on all surfaces (even edges and tines), and heavier weight. Has all the advantages listed at top of page. Sets come in cardboard boxes (except 9G9132).

9 G 9130—24-piece Set. 6 knives, 6 forks, 6 teaspoons, 6 dessert (oval soup) spoons. Shpg. wt. 3 lbs. 4 oz. **$4.95**

9 G 9131—32-piece Set. 8 knives, 8 forks, 8 teaspoons, 8 dessert (oval soup) spoons. Shpg. wt. 4 lbs. 8 oz. **$6.55**

9 G 9129—44-piece Set. 6 knives, 6 forks, 6 salad forks, 6 teaspoons, 6 dessert (oval soup) spoons, 6 iced teaspoons, 6 cream soup spoons, 2 tablespoons. Shpg. wt. 6 lbs. **$9.10**

9 G 9132—52-pc. Set. 16 teaspoons, 8 knives, 8 forks, 8 salad forks, 8 dessert (oval soup) spoons, 2 tablespoons, 1 butter knife, 1 sugar shell. Not boxed. Shpg. wt. 7 lbs. 3 oz. **$9.95**

INDIVIDUAL PIECES . . . Metropolitan design.

9 G 9133—6 Teaspoons. Shipping weight 8 ounces. **80c**

9 G 9134—6 Dessert (Oval Soup) Spoons. Shpg. wt. 8 oz. . **$1.39**

CRAFTSMAN Shovels and Spades for fast digging

No finer made! Rigid factory tests prove these shovels and spades will stand the heaviest use without breaking. Lock-socket design; handles are riveted between two steel straps . . . rigid, much stronger. Tough steel blades and straps are forged high carbon steel; heat-treated and tempered; assures longest service. Blade and front strap formed as one unit; back strap electrically welded to blade. Both straps pre-formed for superior balance and "hang." Thick center frog. All "D" handles are "full size" and steel reinforced. Select quality ash handles; sanded, waxed, polished; shaped for comfortable grip. Handles driven into blade to point of frog. Long handle shovels 99G08313L and 99G08312L designed for irrigation work; make good spading or transplanting shovels. Note extra savings when you buy in lots of six.

	Catalog Number	Blade	Size, inches	Handle	Shpg. wt. each	Each	6 for

99 G 08584L $2.10

DUNLAP SHOVELS . . SPADES

These well made DUNLAP shovels are exceptionally fine values. They combine strength, light weight and good balance with an economy price. Socket-shank construction. Handle is driven into tapered steel socket which is an integral part of the blade. This type of construction is usually found only in shovels and spades selling for much more. Blades are good quality high carbon steel; properly heat treated to give them extra strength, toughness. Extra-long reinforcing frog, or center ridge, gives great strength with minimum weight. Turned-over top edge of blade gives additional strength and rigidity, as well as providing a shoe-saving foot rest. Strong, well seasoned ash handles smoothly finished for a comfortable grip. Handles have full-sized steel reinforced "D" grip. Blades painted red to resist rust.

	Catalog Number	Blade	Size about (inches)	Handle (in.)	Shpg wt.	Each

5 advantages of Rotary Mowers

1. Rotary blade does clean, even mowing. No dandelion or other stems standing!
2. Mows tall grass and weeds of all kinds. Forget those tiresome hand-sickle jobs!
3. Perfect on steep inclines and rough ground. Light in weight for easy maneuvering.
4. Trims closer to trees, shrubbery, walls. Eliminates much hand clipping.
5. Mows equally well forward or backward.

ROTARY MOWERS cut lawns and high weeds

DUNLAP Rotary Power Mowers . . Economy-priced

A **Electric model .. 16-in. cut.** *New!* Quiet; easy to operate. Just flip switch to start motor. Steel housing. Tubular steel handle. Blade has shock-absorbent mounting; is shielded by guards. CRAFTSMAN GREEN HOSE

A *Guaranteed 10 years.** Finest garden hose we have ever sold! Stands up under 700 pounds of pressure—14 times average city water pressure! It *looks* like ordinary hose, but two important differences make it FAR superior: Its super-tough outside cover (1) will stand much more scuffing and exposure to sun and weather than will an ordinary cover, and the hard-twisted rayon cord reinforcement (2) has TWICE the strength of ordinary hose yarn (the same type rayon cord is used in heavy-duty truck tires). These two layers and a tough, seamless rubber inner-tube (3) are all vulcanized into one flexible, leakproof unit. With standard size nickel-plated brass couplings of a new type, designed to let water flow freely. Rubber washers included. *State catalog number and length wanted when ordering.*

99 G 06917—Lightweight. ½-inch inside diameter.
25 feet. Shipping weight 6 pounds..... $3.25
50 feet. Shipping weight 11 pounds..... $5.95

99 G 06918—Custom-weight ⅝-inch inside diameter.
25 feet. Shipping weight 8 pounds..... $4.10
50 feet. Shipping weight 16 pounds..... 7.35

DUNLAP . . RAYON CORD Reinforced

B *Guaranteed 5 years.** Three layers vulcanized into one leakproof unit; will stand up under 450 pounds pressure—5 times average city water pressure! (1) Thick, flexible rubber inner-tube. (2) Tightly braided rayon reinforcing cord. (3) Tough black rubber cover that resists scuffing and weather. Standard size brass couplings and rubber washers with 25 and 50-ft. lengths only. 99 G 06916 available in one piece up to 250 feet without couplings. *State length.*

99 G 06915—Lightweight. ½-inch inside diameter.
25 feet. Shipping weight 6 pounds..... $2.45

50 feet. Shipping weight 15 pounds..... 5.29

ECONOMY HOSE

C Strong and flexible; gives dependable service under normal use and care. Withstands several times average city water pressure. 3 tough layers: (1) Black, ribbed rubber cover; (2) braided hose yarn reinforcement; (3) rubber inner tube. Standard size brass couplings, washers. ½-in. inside diam.
99 G 06913—*State length wanted.*
25 feet. Shipping weight 6 pounds..... $2.35
50 feet. Shipping weight 11 pounds..... $4.25

CRAFTSMAN HEAVY DUTY HOSE

D Ideal for contractors, temporary pipe lines, fire prevention, industrial use; for irrigation, golf courses, etc. Not recommended as a garden hose, as it is much too heavy. Average bursting strain 1000 lbs.; 20 times average city water pressure! 5 tough layers: (1) Smooth red tough cover; (2) double-braid rayon cord; (3) thick live rubber layer; (4) second rayon cord layer; (5) seamless rubber inner tube. 50-ft. lengths only. With couplings.

99 G 06934—¾-in. inside diam. Couplings fit standard sillcocks. Shpg. wt. 20 lbs..... $12.95
99 G 06935K—1-in. inside diam. Couplings fit 1-in. pipe connections. Shpg. wt. 29 lbs.... 17.50

Never Needs Painting . . WILL NOT RUST

Farm-Master Aluminum Roofing and Siding Sheets

Save! Now you can deduct 5% on orders totaling $100 or more

Uses for Aluminum Sheets

For economical roofing and siding
For fences that give privacy
For hothouses and greenhouses
For easy-to-build carports
For the children's playhouse
For fishing and hunting shacks
For corn cribs and grain bins
For cattle and stock sheds
For modern shop and store fronts
For home and store awnings

Lower Cost per Year of Service . . Extra Savings for You

You save many ways with these sheets. They actually cost less per year of service than any other type of roofing or siding. You also save money because of the ease and simplicity of building with this heavy duty, yet lightweight, Aluminum . . . low construction and labor costs are figure-proven facts. You save additional money because large Aluminum Sheets mean fast construction with a minimum of man-hours. Better still, because Aluminum NEVER NEEDS PAINTING, WILL NOT RUST OR ROT, IS FIREPROOF AND UNDER NORMAL CONDITIONS REQUIRES NO MAINTENANCE your initial cost is also your final cost. Yes, Aluminum Sheets are a long term investment that pay you big dividends in upkeep and maintenance savings.

CAUTION: Do not use on roofs with less than 6 inch pitch per foot. All Aluminum should be kept away from alkalies, caustic soda or acids such as those contained in fertilizer. The use of Aluminum Nails is strongly recommended. Order 1 nail (see below) for each square foot of roofing. Apply according to instructions.

Advantages of Alumi

Cannot rot; will never rust
Never needs painting or maint
Lightweight means easy erect
less expensive understructu
Large sheets for fast construct
Waterproof and weathertig
Reflects the heat of summer-su
Non-inflammable . . . will no
Helps protect against lightnin
properly grounded

1¼-inch Corrugated—.019-inch Thick Sheets

Approximately 26-gauge; weighs about ⅓ as much as galvanized sheets of same thickness and size. Recommended for use over solidly boarded surfaces. Should be lapped 1½ corrugations on sides and 6 inches on ends. Sheets are 26 inches wide, with a net coverage of 24 inches after lapping. Use 1 nail per square foot of roof area.

5-V Crimp.—.019-inch Thick Aluminum Sheets

Two deep V-Crimps down each outer edge and one down the center of these sheets add stiffness for easy, fast handling, with tight overlaps where the sheets join for protection against the hardest storms. About 26-gauge thickness.

Should be lapped 2 V-Crimps on sides and 6 inches on ends. Sheets are 26 in. wide, coverage of 23½ inches. Use 1 nail per square foot of roof area.

Heavyweight 1¼-inch Corrugated .024-inch Thick She

About 24-gauge; over 26% heavier than sheets at left . . . stronger, stiff handle and require only about ½ as much roofboarding or sheathing as . Will actually add strength to your building. The most economical sheets the long run. Smooth, bright finish dulls slightly with age.

Should be lapped 1½ corrugations on sides and 6 inches on ends. She inches wide, with a net coverage of 24 inches. Use 1 nail per square foot

Complete Application Instructions Furnished

We send complete, easy-to-follow instructions with each order for Alumin Follow them carefully for tight roof construction and long service.

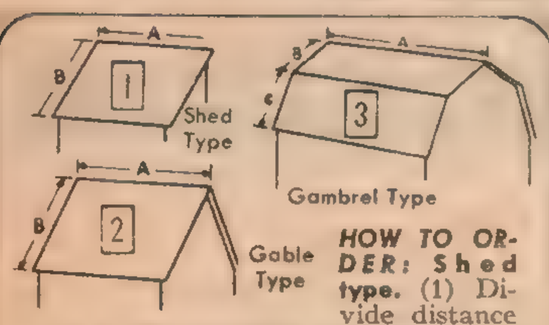
Aluminum Roofing and Siding Accessories

For weather and watertight construction . . for long-lasting beauty



***HOW TO ORDER:* Shed type.** (1) Divide distance (A) by 2 for number of sheets needed across. Select sheets whose single or combined lengths equal distance (B), (allowing 6-in. end laps for each sheet). To find total sheets required multiply number of sheets across by number of rows in depth needed. If different length sheets are needed, list separately. **Gable type** (2). Figure same as for shed type (1) and multiply by 2 to find number of sheets for both sides of roof. **Gambrel type** (3). Determine number and length of sheets for each flat surface (B & C) as in (1) above. Add sheets needed for B and C together and multiply by 2 to find number of sheets for both sides of roof. If you are unable to determine amount of roofing needed, send for Roofing Estimate Blank 6089G—indicate measurements in spaces provided and we will estimate needs. This service is free.

D PAGE 1358 . . ALUMINU

TENNESEAL and CORRUGATED Galvanized Sheets for Roofing and Siding

Low as $1.38 Each
6-foot sheet

Tenneseal V-Drain

Gives you tighter roofs . . weatherproof

Triple cross crimp keeps rain from blowing under sheets

Special V-Drain stops leaks at side laps for tight roof

Tension curve makes sheets lie flat against roof decking

Tenneseal V-Drain roofing is a favorite throughout the South because in addition to offering all the protection of standard 5-V Crimp roofing, the V-drain and special forming makes a tighter roof for you. The special shape of the double V outer edges drains off any water which may be forced under the edge. Triple cross crimps make tight end laps so water is effectively stopped at this point. Easily nailed . . can be applied with only a hammer and a pair of tin shears. Buy from Sears and save.

High Quality Corrugated Sheets

Lengths from 6 to 12 feet . . for all size building roofs and sides
Full 29-gauge steel sheets . . evenly galvanized with pure zinc

we are able to offer our mail order customers high-quality gal- sheets for use on houses and all farm buildings at Sears money prices. Now, once again you can buy famous Tenneseal V-Drain outstanding quality galvanized Corrugated in lengths that fit your ths that mean less cutting, better fitting and greater savings.

d Steel Sheets, always popular in the South, offer resistance against when grounded, against lightning. They protect against termites will not rot. Easy and fast to apply, these sheets cost less per d, than even cheap No. 2 grade wood materials. Upkeep cost . Galvanized sheets do not shrink, bulge, split or crack, causing its. They are easier to paint than wood, and are resistant to rust nt. Savings in application, in upkeep, by long years of service and especially when you buy from Sears, mean dollars in your pocket.

How to Apply Steel Roofing Sheets. Complete instructions are furnished you with each order for Steel Sheets. Follow them carefully to get a weather-tight, long-lasting roof. All sheets are 26 inches wide and lap about 2 inches; this gives a net coverage of 2 feet. V-Drain sheets are lapped 2 V-Crimps along the side; corrugated sheets should be lapped 1½ corrugations. All sheets should be lapped 6 inches on ends, where 2 or more sheets are required to reach from the eave to the peak. Nails should be driven through the top of the V or Corrugation where sheets overlap on sides. Nailing is also recommended down the center of the sheet, through the center V or corrugation. Nails should be spaced about 8 inches apart. Bottoms of sheets should also be nailed along eave. Use 1¾-in. galvanized steel nails with lead heads on new roofs, 2-in. nails if sheets are being applied over old roofing.

Easy Terms: All Sears Steel Roofing and roofing accessories can be bought on Sears Easy Terms for as little as 10% down . . see inside back cover for complete details.

Steel Sheets are shipped from Sears mail order house stock by freight or express.

Galvanized Steel Ridge Roll, Valley Roll, Nails

r galvanized steel roof with accurately shaped rmed ridge roll to form a ridge as tight and as the roof itself. Use long lasting galvanized to seal your valleys, dormer sides and other Your entire roof will only be as water tight essories you use with your galvanized steel ude your accessory needs in with your order

ed Ridge Roll. Made from the same 29-gauge sheets as Corrugated roofing above. Smooth nizing for protection against rust. Accurately rrugations on both sides of roll fit tight into ns of sheets. 10-inch girth gives plenty of sheets. 5-foot 6-inch lengths should be lapped ends of roll, giving net coverage of 5 feet Shpg. wt., per length, 3 lbs. 5 oz.
3L—With 1¼-inch corrugations. Per length. 62c
4L—With 2½-inch corrugations. Per length. 62c

Ridge Roll. Similar to above except not corru- Can be formed on the job to fit corrugated 5-V sheets. Also used with wood shingles, As- es or roll roofing 5-foot 6-inch lengths.
L—Shpg. weight 3 pounds 5 ounces. 57c

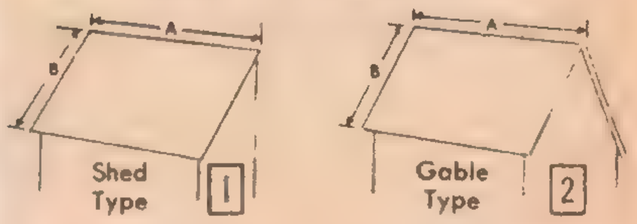
C Ridge Roll for Tenneseal V-Drain Roofing. Can also be used on standard 5-V Crimp roofing. Like Tenneseal Roofing, this ridge roll has been specially designed to give a tighter roof. Made in two pieces which overlap at the ridge for easier application, more positive seal against water and double thickness of metal for extra protection on the top.

Made from same 29-gauge galvanized steel as Tenneseal sheets above; formed to fit V-crimps and with 3 cross crimps for tight fit against sheets. 26 inches long for 24-inch coverage with 2 inches of overlap. Each length is made of two pieces, one for each side of ridge. Order by number of lengths.
13 G 03055—Shpg. wt. 3 lbs. 2 oz. Each length 67c

D Galvanized Steel Valley Roll. 29-gauge. 50-foot length per roll. Two widths.
13 G 03059L—14 in. wide. Shpg. wt. 43 lbs. Roll..$6.75
13 G 03061L—20 in. wide. Shpg. wt. 66 lbs. Roll.. $9.35

E Galvanized Steel Nails. For use with galvanized roofing above. Self-sealing lead heads fit tight into nail hole. Barbed shanks hold fast. 1¾-inch for new roofs, run about 88 nails per pound; 2-inch for over old roofing, run about 77 per pound. Use 1 nail per sq. ft. *State length.*
13 G 1340—Shpg. wt. 6 lbs. for 5-pound pkg.
1¾ inch.....$1.42 2 inch.....$1.48

HOW TO MEASURE



It's easy to measure your roof to find the number of steel sheets you need.

First. Measure the length of the ridge or eave (A) in feet. Each sheet covers 2 feet in width, so divide this length by 2 to find the number of sheets needed to go once across roof.

Second. Measure the rafter length (B) and allow 2 inches of overhang at eave. Select the sheet lengths from table above which best fit the rafter length, allowing 6 inches of overlap at end of sheets if 2 or more sheets are needed to fit rafter length.

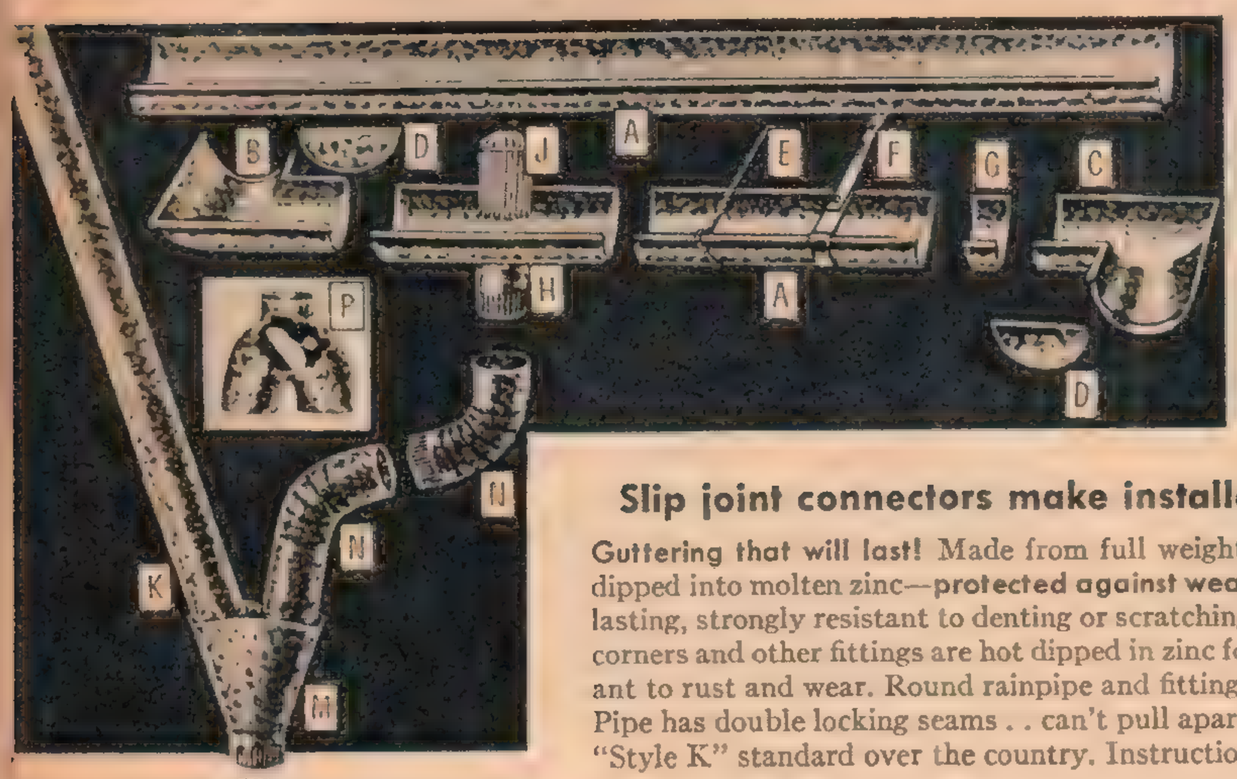
Now multiply the number of sheets for (A) by the number for (B) to get the total needed for a shed type roof like (1). For a gable type roof (2), this total is for one side multiply by two for total sheets for building.

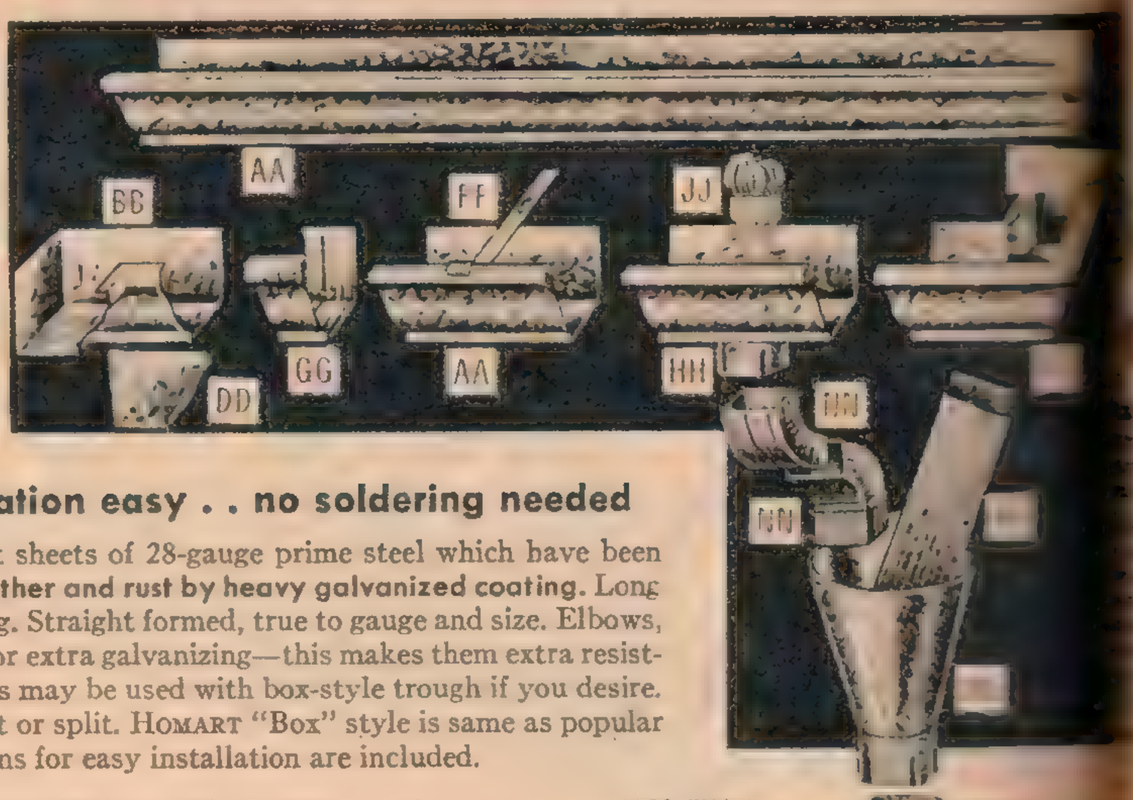
Follow this same formula to find sheets needed for other shape buildings.

If you cannot estimate your needs, write for Roofing Estimate Blank 6089G, fill it out and return to us; we will make the estimate for you at no charge.

HOMART LOW-PRICED STEEL GUTTERING

Galvanized (fittings re-galvanized after formation) for greater rust resistance, longer service





Slip joint connectors make installation easy . . no soldering needed

Guttering that will last! Made from full weight sheets of 28-gauge prime steel which have been dipped into molten zinc—**protected against weather and rust by heavy galvanized coating.** Long lasting, strongly resistant to denting or scratching. Straight formed, true to gauge and size. Elbows, corners and other fittings are hot dipped in zinc for extra galvanizing—this makes them extra resistant to rust and wear. Round rainpipe and fittings may be used with box-style trough if you desire. Pipe has double locking seams . . can't pull apart or split. HOMART "Box" style is same as popular "Style K" standard over the country. Instructions for easy installation are included.

LESS THAN **13½c** Per foot Eavestrough

For estimating assistance, write for Guttering Estimate Blank 6089G. Order 1 connector for each length of trough, corner, outlet. Order 3 hangers per trough length and 3 straps (not illustrated) or hooks per length of pipe. Pipe and trough shipped by freight or express from mail order house. All other items are mailable. **REMEMBER:** Only 10% Down, Balance in small monthly payments on orders of $20.00 or more on Sears Easy Terms. See inside back cover for complete details.

Popular, Tall-growing, Imported Tulips

12 Holland-grown Bulbs **75c**

Truly the "flowers of spring." Plant this fall for a garden full of brilliant colors next spring. We offer you dependable, tested varieties. Ones famed for clear, solid color; large size; long strong stem. We ship you large-flowering, bedding-size bulbs imported from Holland's fertile fields. Blooms guaranteed from each bulb. Plant in sunny spot—about 6 in. deep; 4 in. apart. All varieties below bloom about same time mid-spring (except Carrara and G. Harvest about 10 days before; Wm. Copland 5 days before). Approximate height of tulips given after each variety.

A 61 G 50F–**All Bright** (Darwin) Bright red; blue base. 24 in.

61 G 102F–**Carrara** (Cottage) Not shown. Beautiful pure white. 20 in.

B 61 G 63F–**Golden Harvest** (Cottage) Huge lemon yellow. 26 in.

C 61 G 67F–**Pride of Haarlem** (Darwin) Big cherry-red. 28 in.

D 61 G 52F—**Princesse Elisabeth** (Darwin) Rose-pink. 26 in.

E 61 G 90F–**Queen of Night** (Darwin). Deep velvet-maroon. Largest of the blacks. 28 inches.

F 61 G 65F—**William Copland** (Darwin). Pale lavender. Old reliable favorite. Grows 24 in.

Bulbs 11 to 12 centimeter size (about 1½ in. diam.) *State quantity. Sold 12 of 1 variety.* Shipping weight of 12 bulbs, 14 oz.

12 bulbs for 75c 24 bulbs for $1.39 48 bulbs for $2.65 96 bulbs for $5.19

4 New Tulips

G 61 G 75F–**Cordell Hull** (Rembrandt). Mid-spring. Striking white splashed blood-red. 24 in.

H 61 G 47F–**Indian Chief** (Breeder). Mid-spring. Giant. Unusual, mahogany-brown. Tallest—32 in.

J 61 G 74F–**Alaska** (Lily flowered). Last to flower. Bright yellow. 24 inches.

Trees pictured as they'll look when full grown

Special packaging saves you money

Now you can buy Large, specimen-size Evergreens at low "bare-root" prices . . Sears sensational Evergreen packing process does away with expensive Balling and Burlapping

No longer is it necessary to ship Large, specimen-size Evergreens B & B (dirt-balled and burlap-wrapped). Gone the former, expensive shipping charges on unnecessary dirt. We can now safely ship Large sizes packed in lightwei... moisture-holding moss—just as safely as smaller sizes because . . . all CROSS COUNTRY Evergreens are "root-puddled." Shipping tests have proven this method as one of safest and most economical ways to ship all sizes of Evergreens. Savings in shipping charges are passed on to you in form of lower prices—for Sears PAYS POSTAGE on all Evergreens.

CROSS COUNTRY Evergreens are Guaranteed state-inspected and certified "pest and disease-free" . . Guaranteed true to name. Available in sizes for every landscape need . . . Shipped POSTPAID.

Large, Sheared, specimen Evergreens. True specimens that give almost immediate landscape effect. Sheared in field regular intervals for shapely, compact form. Transplanted three times which helps them develop strong root syste... **Standard Evergreens.** Lighter specimens. Twice transplanted. Will develop into shapely trees in no time at all. **Junior Evergreens** . . for economy gardening. Set out now in garden rows. In 2 to 3 yrs. you'll have handsome trees ... for transplanting to permanent spot—trees worth many times more than what you paid for them. Once trans...

Root-Puddling

Roots are soaked in hormone-invigorated mud bath for protective coating before wrapped for shipment. Hormone gives extra energy which trees need for quick start when replanted.

Dwarf Growers . . for edgings, borders, urns

Trees below measured by diameter except Globe A.V. (by height). *State size and quantity wanted of 5 below. Postpaid.*

91 G 4878W—Biota Bonita Globe Arbor Vitae. *Thuja orientalis bonita.* A beautiful, dwarf medium evergreen that grows round as a ball naturally—without any trimming. Has a slightly peaked top. Upright sprays of bright green flattened foliage glorify landscape year-long. Well-suited to South's climate.

91 G 4879W—Creeping Andorra Juniper. *Jun. communis depressa plumosa.* Lowest growing. Long branches creep gracefully along ground. Lovely when trailing down walls, terraces. Silvery-green foliage turns silvery-purple after first frost.

91 G 4882W—Pfitzer's Juniper. *Jun. chinensis pfitzeriana.* Its picturesque, spreading branches of a gracefully arching habit keep this dwarf evergreen in demand everywhere for foundation and rockery planting. Will stand crowding and is easy to trim. Extremely hardy, one of few that'll tolerate some shade. Beautiful foliage of dark green with grayish overcast.

91 G 4885W—Savin Juniper. *Jun. sabina.* Low grower that seems to thrive everywhere. Rockery favorite. So vigorous it even withstands unfavorable growing conditions of smoky cities. Branches grow in semi-upright manner, forming spreading vase shape. Arrayed with dark green foliage.

Junior Evergreens—10 to 12-inch.	Ea. 98c	6 or more ea.	89c
Standard Size—12 to 15-inch. . .	Ea. $1.89	4 or more ea.	$1.79
Large Specimens—15 to 18-inch.	Ea. 2.98	3 or more ea.	2.69

91 G 4904W—Mugho Pine. *Pinus mughus.* Keeps its shrubby ball shape without trimming. Picturesque, unique, clusters of long stiff needles. In spring the erect, new needle growth looks like candles. Does well in most soils. Ideal in rockery.

Junior Evergreens—6 to 8-inch. . .	Ea. 98c	6 or more ea.	89c

Raspberries . . . . Low as 10 for $1.80 . . . . Postpaid

Raspberries are one of the berries most excellently suited to freezing, next to Strawberries. Grand for pie making or eating fresh as after-dinner desserts. Superb for preserving and jams. Small wonder they're one of the most profitable small fruits . . . and in addition, to their dozen-and-one uses, they are prolific bearers and require very little care after they are started. Plant some early varieties and some midseason ripeners. That way you'll be able to pick freshly ripened berries all season long. We offer you varieties suited to home and market growing. All varieties excellent freezers. We ship you Premium No. 1 grade CROSS COUNTRY plants that are guaranteed to please you.
Please state quantity wanted. Shipped Postpaid.

FRUIT TREES

Shipped Postpaid

Order Now! We'll hold your order and ship to you from grower at Fall planting time.

Graded to caliber (diam. of trunk about 2 in. above ground) according to standards of American Assn. of Nurserymen. State inspected and certified "pest and disease free." Guaranteed true to name.

Gain a half-year towards harvest time by planting this Fall. Late Fall rains and warm soil enable trees to root firmly and deeply before winter sets in—then at first sign of spring, roots can resume growth, thereby giving trees a head start.

CROSS COUNTRY Apple Trees . . . . . Each—in lots of 7—as low as 80c . . *Postpaid*

own apples. Cost home grower only a few cents a bushel to grow. Plant varieties for cross pollination—with Stayman's Winesap plant at least 3.

Popular Summer and Fall-ripening Southern Apples

ransparent. Crisp, slightly tart. ten bears the first year. Red. **est.** Yellow. Flavorful, juicy. **rse.** Tart. Best for cooking.

Red June. Grand old-fashioned summer red apple favorite. Everyone likes it.
Whitney Red Crab. Fall-ripener. Ideal for jelly making. Blight resistant. Red.

Winter-ripening Apples—good keepers; grand for storing

Leading red—tasty, big cropper. **icious.** Heavy-bearing yellow.

Red Delicious. Desired for its flavor; red.
Stayman's Winesap. For cider-making.

$182.50 Cash — 2¼ H.P. — $18.50 Down

Prices for tractors only—without tires, or any implement attachments

ONLY DAVID BRADLEY has ALL these features—and more too . .

More weight . . for better traction . . at less cost per pound

Engineers agree that drawbar pull and traction of any tractor on rubber tires is directly proportional to the horse power and the weight on the drive wheels. **David Bradley is heavy**—check the weight and see. It is designed to utilize fully its working weight for maximum drawbar pull and maximum traction.

Big Wheels—mount big automobile size tires to assure maximum traction—you get the biggest tire mounted on any garden tractor we've seen in this HP class.

Claw-Tread Tires—specially designed with self-cleaning chevron-type lugs, give extra rough and rugged traction. 2-ply construction allows tractor weight to be distributed over greater ground area. (Claw-Tread Tires sold extra—see listings below). —or—you can be thrifty, too, and use old auto tires. But, for maximum traction, we recommend the Claw-Tread Tire.

Big Wheels—are drop-center, disc-type steel wheels, demountable at the hub. 16-inch diameter wheels are regularly furnished. However, 15-inch wheels are available if specified on order. You have your choice so you can use your old auto tires. Claw-Tread Tire fits 16-inch rims only. Wheels with tires mounted measure 28-inches high from top of tire to ground. This gives better surface for ground gripping—and gives 11-inch high center clearance. This is of extreme importance in straddle-row cultivation. Adjustable tread—wheels can be moved to give from 16½-inch to 24-inch tread—measured from center to center of tires.

All-weather hood.—You are proud to own the DAVID BRADLEY . . its attractive, streamlined cowling, finished with baked-on red enamel, gives beauty plus protection for your tractor and engine. Keeps vital parts out of foul weather. Snap lock holds hood securely in place. Wheels are attractively finished with green enamel.

Exhaust at front—the tractor is so designed that the engine is mounted with the muffler and exhaust in front—blowing noise and fumes away from operator.

Clutch—auto-type twin disc clutch—gives "glide-away" smooth starting. The DAVID BRADLEY line is the only line of Garden Tractors we have seen with this superior type of clutch. There are no slipping belt devices to simulate clutch action. This means more positive power to the wheels—saves operating expenses. Clutch lever is conveniently located right at your fingertips—mounted on handle bars. Throttle control is also mounted conveniently to your touch control. Rubber grips on handles make tractor comfortable and easy to grasp.

Transmission—completely sealed-in-oil, with Oilite lifetime bearings. Precision cut gears and triple-strand roller chain give proper speed reduction with a minimum loss of power. High-quality rawhide oil seals—no leaking!

Specially designed engines built just for garden tractors, develop 1¾ ... at 3200 R.P.M., as advertised by the manufacturer (depending on w... tractor you choose). PICKET FENCING, GATES and ACCESSORIES . . Designed and Built to Satisfy

Wire-bound WOOD PICKET FENCES and GATES

Fencing. Attractive for yards and gardens. Make excellent play and pet pens. Good vine supports.

Made from ½x1½-in. wood pickets, with Gothic tops. Cables are two strands of 12½-gauge galvanized steel wire, twisted together between pickets. In full 50-ft. rolls. Use with gate at right. See index for posts.

Painted red. Pickets, ½x1½-inch, are not planed smooth; spaced about 2 inches apart. Finished with dark red mineral base weather-resistant paint.

Painted white. Pickets planed smooth on all four sides to about ⅜x1⅜ inches; spaced about 2¼ inches apart. Finished with outside white oil-base house paint; each roll paper wrapped.

Shipped from Lufkin, Texas. Pay freight charges, on delivery from there. Send orders to Sears nearest mail order house. *Satisfaction Guaranteed.*

IT'S EASY TO ORDER WHITE CEDAR FENCING

a sketch of your plot to be fenced. Show exact loca- f gates, fence ends and corners in feet and inches. the total number of sections that you need stating le you wish. Order one extra post for each end and r. If you plan on using both pieces of a section that may have to cut, please order an extra post. *Extra old only with fence orders.* All fences come in 7-foot . Picket and Lattice fences come assembled; Provin- l Rail fences shipped unassembled; complete, easy- w, assembly and installation instructions included. *ordering, enclose sketch of plot to be fenced.*

NOTE: Durable White Cedar ages to an attractive silver gray, needs no painting and has a natural resistance to termites and rot. Checks and splits are a natural condition, give a rustic appearance and do not weaken the fence in any way. Nails for erecting and assembling are not included. Picket and Lattice Fences need No. 8 Box Nails for erection . . . use No. 7 Box Nails to assemble French Provincial. Rail Fence needs nails only if reinforced construction is desired **Because of moisture content all weights and diameters are approximate and are taken after logs are peeled.** All posts are dip treated to ground line with wood preservative.

$2.50 Down

FARM-MASTER AC CHARGER

Here's why you get more for your money

- Approval of Underwriters' Laboratories, Inc. and Wis. Industrial Commission; meets National Electric Code
- Economy in use . . draws current only when wire is touched . . runs 30 days for 10c (at 5c per K.W.H.)
- Handles up to 15 miles of fence wire
- Has replaceable sealed-in charger unit
- High-low voltage terminals for all weather conditions
- Flash Indicator tells when fence line is shorted
- Has replaceable fuses for extra protection
- All terminals on bottom of case; weather-protected

Just plug it into your high line and hook onto your electric fence wire . . flash indicator tells you when the charger is working and fence line is shorted. No radio interference. Has four built-in lightning arrestors.

Streamlined heavy 18-gauge steel case with baked-on red crackled enamel finish; houses charger unit. Shock timing unit floats on life-lubricated ball bearings; large self-wiping contact points. Durably constructed.

Ground wire, ground clamp, cord with plug and complete instructions included with each charger.

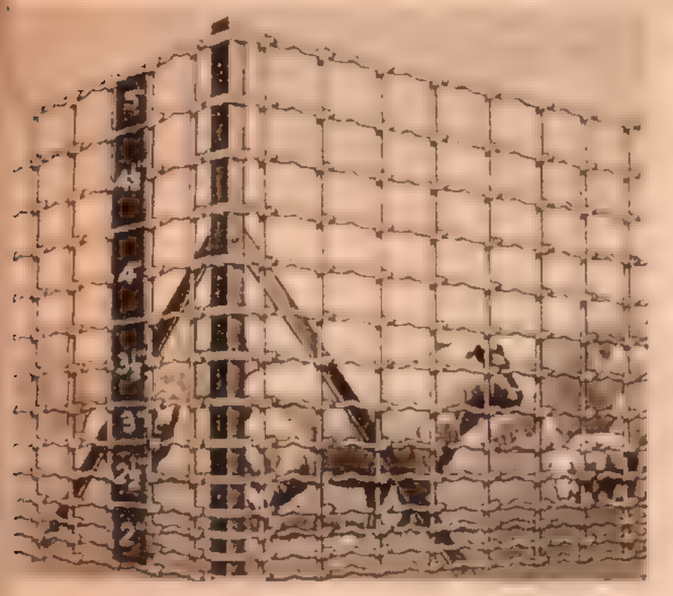
Sears Fencing Guarantee

All FARM-MASTER Fencing is guaranteed to be made from the best steel fencing wire and to be thoroughly and evenly galvanized. We guarantee our fencing is equal to or better than other fencing having the same specifications, regardless of price. If you are not completely satisfied with our fencing you may return it at our expense. We will return to you every penny you paid including freight charges both ways.

SEARS, ROEBUCK AND



Farm-Master Wolf-Proof SHEEP and CATTLE FENCE

- Made from full-gauge galvanized wire
- Has strong flexible hinge-joints
- Line wires are deeply crimped to allow for temperature changes

Has the same fine quality and workmanship as FARM-MASTER Medium Weight Farm Fence above . . . but specifically designed for sheep so that they can't get their heads caught. Finest quality we know of at these low prices. Look at its many fine features.

Durable, flexible hinge-joints allow it to "give" when crowded. Line wires are deeply crimped to allow for expansion and contraction due to temperature changes . . lets you stretch this fence tightly even over uneven or rolling ground. Heavy enough to turn cattle.

Has 11-gauge top and bottom wires with 14½-gauge line and stay wires. Bottom wires spaced 2 inches apart (see illustration). Thoroughly and evenly galvanized to prevent rust . . . to give you extra service. Made of uniform, smooth and full gauge wire only. Guaranteed to be equal to or better than any other fencing having the same specifications.

Remember you do not need all cash to buy FARM-MASTER Fence . . . it is available on Sears Easy Terms for as little as 10% down, the balance in convenient monthly payments; see inside back cover for complete details. So don't put off buying your fence, order it today.

Sold only in full 20-rod (330-foot) rolls.

Full-gauge, Sharp-pointed, Galvanized BARBED WIRE

Satisfaction guaranteed or your money back

- Built to take long use and abuse . . made of the finest quality steel fencing wire for extra strength
- Thoroughly and evenly galvanized to resist rust . . to give extra service and wear . . You get more for your money
- Has sharp-pointed barbs that have been double twisted around cable wires . . will not turn or slip . . always in place
- Carefully inspected at each stage of manufacturing to insure you of the finest quality barb wire that money can buy
- Full 80 rods neatly wound on one compact non-breaking spool . . easy to handle . . easy to use . . convenient

Two-point barbs double-twisted around double cable wires

Four point barbs Double twisted around and through double cable wires

As Low As **$5.93** 80-rod Roll

You can't buy better barbed wire regardless of the price. Made from full-gauge fencing steel wire, with heavy protective coating of pure zinc galvanizing. Sharp-pointed barbs are evenly spaced and tightly wrapped around cable wires; will not twist or slip. Wound on strong wire spools, full 80 rods (¼-mile) to the roll. 2-point barbs are spaced 4 inches apart; 4-point barbs are 5 inches apart.

For longest, hardest service, your best buy is heavy 12½-gauge barbed wire; it is actually 51% heavier, by weight, than the 14-gauge wire with the same barbs.

13 G M100—14-gauge, 2-point. Shpg. wt. 53 lbs. Per roll . . . $5.93

13 G M102—12½-gauge, 2-point. Shpg. wt. 81 lbs. Per roll . . . 8.40

13 G M104—12½-gauge, 4-point. Shpg. wt. 88 lbs. Per roll . . . 9.38

High-Carbon Rail-Steel FENCE POSTS

Easy to drive, simple to pull . . save you time in fence building. Won't rust or burn . . give years of service. Help ground lightning to protect your livestock.

Good fences need strong End and Corner posts . . order them with Line posts. Strong braces help keep fences tight.

SELECTIVE BREEDING of Farm-Master Chicks

Reg. U. S. Pat. Off.

means more eggs, more meat, more profits!

…h Production Sires
…Chicks below sired …300-egg pedigreed …or males secured … New England breeders

Choice Breeding Hens
Most of the dams of 4-A pure-breds are pedigree-sired or from high production New England stock.

Bred for fast growth
Fast growth, early feathering—big factors in developing early layers and more profitable meat birds.

Pullorum Passed Flocks
All chicks offered on this page are purchased only from U.S. Approved-Pullorum Passed hatcheries

Careful Egg Selection
Hatching eggs selected for size, shape, weight and shell texture under National Poultry Improvement Plan

Each Chick Inspected
Chicks individually selected before shipment. Only vigorous, well-formed chicks are shipped to you.

15c Each in Lots of 100 As-hatched

…ked by really superior …ding—because they're … product of scientific …tive Breeding. Most of … breeding birds are off-…g of our best 4-A …de stock.

Our Finest 4-A Grade CHICKS

They cost you LESS in the long run because they lay more eggs per lb. of feed!

17c Each in Lots of 100 As-hatched

Selective Breeding—high production bloodlines—makes FARM-MASTER 4-A Grade your BEST BUY. Two types of flocks: (1) U.S. Record of Performance pedigreed sires from 200-300-egg record females; most of the dams pedigree-sired. (2) Sires secured direct from New England breeders; dams secured direct from these breeders or one generation removed.

Need only 4 or 5 weeks brooding

33c Ea. 3-A Grade As-Hatched Lots of 100

Save time, brooding expense—produce sooner

FARM-MASTER Started Chicks give you all the benefits of Selective Breeding. PLUS the advantages of the best possible start. You save the time, work and worry of the troublesome early weeks. You eliminate the possibility of costly early losses. Your chicks are past the "danger" period when chick mortality is highest. You save on brooding expense—started chicks require less heat.

Your best buy is FARM-MASTER 4-A Grade. 4-A Chicks sired by U.S. Record of Performance males from 200-300 egg record females or by males secured direct from New England breeders. For good quality at economy prices -choose 3-A Grade.

Purchased by Sears only from carefully selected producers—experts with long experience at raising chicks. Your chicks are started with modern equipment in sanitary surroundings. They receive the best of feed and care at all times. Breeding flocks carefully chosen …rated U.S. Approved-Pullorum Passed.

Warm, ice-free water for 100 hens or more!
Big 6-gallon capacity

Farm-Master HEATED TROUGH

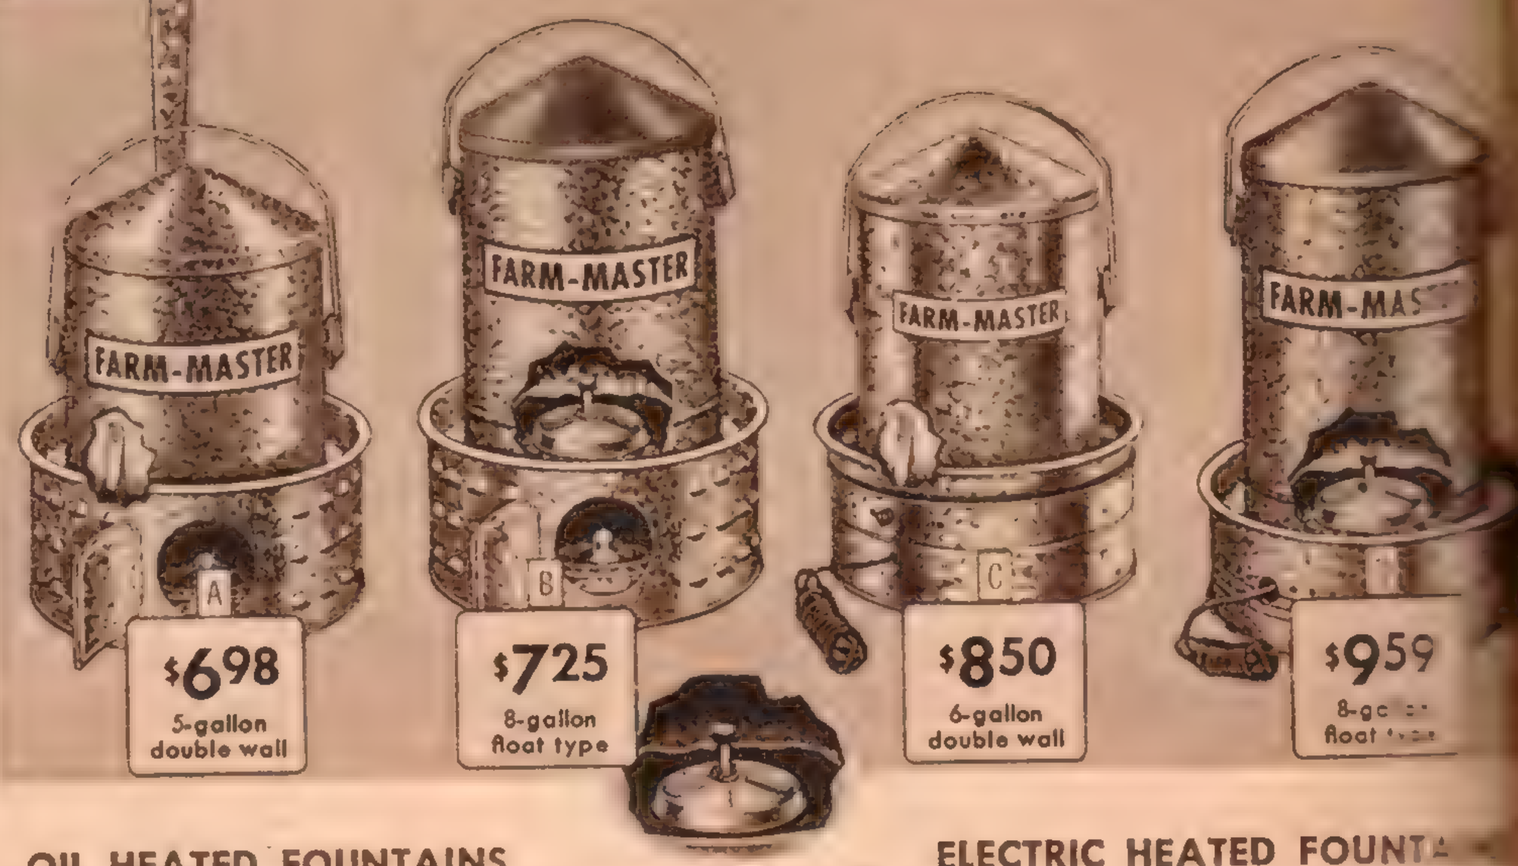
Complete with stand **$10.25**

- Provides full 80 inches of watering space
- 130-watt immersion element—no current waste—all the heat goes right into the water
- Thermostat holds temperature at 50° to 55°
- Trough lifts off stand for easy cleaning

LOOK AT SEARS LOW PRICES! Then check the quality features and big capacity of this heated trough waterer. 130-watt porcelain insulated element is housed in 15-inch copper tube in bottom of trough. Puts all the heat into the water. Preset thermostatic control maintains proper water temperature automatically—saves current. No radio interference. Entire heating unit is removable.

26-gauge galvanized steel trough 40 inches long, 9 inches wide and 5 inches deep. Sits high on cradle so birds cannot foul water. Trough lifts right off cradle. Heavy hinged 9-gauge wire grill. Rugged angle steel frame for long service. Perches are 15 inches high. Operates on any 110-120 volt AC. Shipping weight 18 pounds.

32 G 01499. ..... $10.25



OIL HEATED FOUNTAINS

Hot-Dipped Galvanized—founts and pans of 26-gauge steel hand dipped in molten zinc after forming. Extra thick protective coating covers all seams, crevices and corners—lasts much longer than ordinary galvanized finish.

Clean-burning adjustable wick-type kerosene burners keep water warm and ice-free—your hens drink more—and lay more eggs. Fuel tank occupies entire base. Holds 1⅓ gallons—about 3 weeks' fuel supply. With 15-inch die-formed drinking pans, non-roost tops, convenient carrying bails. **Guaranteed to hold full rated capacity.**

A **5-gallon double wall fountain for up to 50 hens.** Vacuum control.
32 G 01475L—Shpg. wt. 16 lbs. $6.98

B **8-gallon float type fountain for up to 80 hens.** Efficient valve and float maintain proper water level. Cone-shaped removable enameled top.
32 G 01480L—Shpg. wt. 16 lbs. ...$7.25

Float fountains. All-brass and copper valve and float. Hinged float stem prevents overflow on uneven floor. Fount lifts off pan for filling.

Double wall fountains. Vacuum control. Outer shell locks to pan—lift off and use as pail for filling. Flow stops when outer shell is removed.

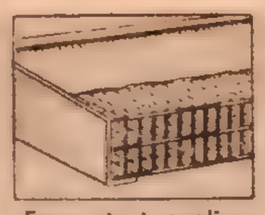
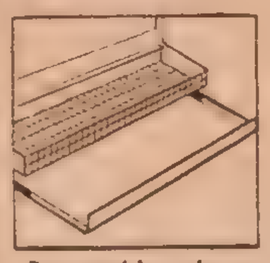
Great new family style Nest

Eggs roll down wire floor into egg tray—for faster, easier egg collection—cleaner eggs—less breakage



Eggs start cooling immediately in wire egg tray—that means fewer trips to collect eggs



Removable galvanized steel dropping pan makes cleaning nests much easier!

- **Faster, Easier Egg Collection**—eggs roll gently into egg tray where they're right at your fingertips
- **Cleaner Eggs, Less Breakage**—you get almost all clean eggs —practically eliminates egg washing and cleaning
- **Eggs Start Cooling Immediately**—saves work by reducing the number of trips necessary to collect eggs
- **Encourages Good Egg Production**—tests show that hens like the darkened interior of the family style nest
- **Sanitary and Easy to Clean**—removable galvanized steel dropping pan for faster, easier cleaning
- **Strong, Long-Lasting Construction**—of heavy 28-gauge galvanized steel with ½x1-inch wire mesh floor
- **Priced Low**—Sears low price plus fine quality construction make this *the greatest nest buy we know of!*

All the advantages of the Standard Family Style Nest—*PLUS work-saving, egg-saving, money-saving Egg Collector Tray.* These big capacity nests handle 55 to 60 hens—8 to 10 at a time. Floor area is 45x20 inches. Overall size 52x 27½x21 inches high. Nest and egg tray have hinged covers. Spring snap holds egg tray cover open while you collect eggs. 8-inch opening with curtain and perch. Nests are easy to assemble . . . bolts included.
32 G 01705L—Shipping weight 39 pounds.....Each $16.25
Five or more nests.....Price Each 15.50

NOTE: pullets should be started in these nests as soon as they are housed. Hens accustomed to standard nests will not adapt readily to wire mesh floors and may continue to lay in whatever nesting material they can find.

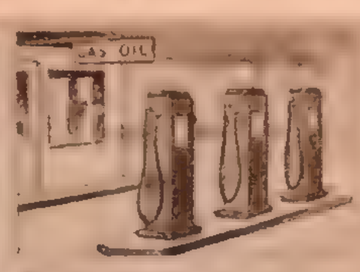
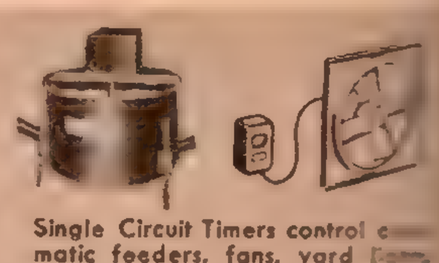
EASY TO OPERATE

2-circuit controls for poultry houses—provide 15-minute dim period morning and night—avoids startling hens, allows roosting time



Single circuit timers turn electric signs on and off



Single Circuit Timers control c… matic feeders, fans, yard l… motors, etc. Turn current on and o… automatically

More eggs to sell when prices are highest!
Install 2-CIRCUIT LIGHT CONTROLS

Designed especially for poultry houses. FARM-MASTER Light Controls will quickly pay for themselves—and earn you extra profits—through increased Fall and Winter egg production. You'll have more eggs to sell just at the season when prices are highest. Operates two separate circuits to lengthen your hens' day the natural way. Dim lights are turned on 15 minutes before bright lights go on in morning. This "sunrise" period avoids startling hens. In the evening when you've extended the day with bright lights, another 15-minute "sunset" dim period allows hens time to roost. You can set any "on and off" lighting schedule you choose. Electric and key-wind clocks have precision movement to assure regularity necessary to maintain production and avoid unseasonable molt.

Easy to install in your laying house—complete instructions and wiring diagram included. Attractive steel case with baked-on red enamel finish. 8x5x4¼-inch size. Controls up to 1650 watts.

32 G 1623—**With self-starting electric clock. UL Approved.** For 110–120-volt 60-cycle A.C. only. Shpg. wt. 4 lbs. $9.95

99 G 01977 K—⅓-H.P. motor..... $24.95 99 G 01978 K—½-H.P. motor..... $26.50

- **More Profits!** Tests show savings of about 3/10 to ½-pound of feed per dozen eggs—almost ½-pound of feed per pound of broiler!
- **Saves Time and Work!** Feed even the biggest flocks in just a few minutes. No more tedious hand-filling of individual troughs
- **Saves Feed!** Practically eliminates wasteful billing and scattering FARM-MASTER Automatic Feeders do ALL your poultry feeding automatically. Feed baby chicks, broilers, layers, turkeys. Adaptable to almost any size or shape poultry house. Basic 80-foot feeder feeds up to 800 layers, 1280 broilers or 650 to 800 turkeys. Easily extended to any trough length up to 500 feet.

Check These Work-Saving, Feed-Saving Features

Big capacity hopper—holds 450 to 550 pounds of feed. Ruggedly constructed of heavy 14-gauge rolled steel. 24 in. high, 37 in. in diameter. Attractive rust-resistant green enamel finish.

Special feed agitator. Agitator rises by itself as hopper is filled. As feed goes out, agitator slants over forming a V in feed. Pellets or grain poured into this V are fed out immediately.

Automatic feed level control—prevents overflowing from trough. Output can be increased manually or shut off completely if desired.

Rugged steel legs—heavy 18-gauge galvanized trough. Hardened steel wearplate prevents chain rubbing and wearing trough. Holds trough firmly. Trough is 3¼ inches wide and 2½ inches deep.

4-speed belt drive with interplanetary transmission. Hinged motor mount for easy belt adjustment—quick speed change. Hinged hood.

Easy to order—easy to install. Just order the basic 80-foot feeder and then add extra 10-foot trough units to give you the desired additional length or width. Maximum recommended trough length is 500 feet. If your plan calls for more than 4 corners (including hopper corner), you will need extra neutral corners. If you plan more than 6 corners, order extra 10-foot length of chain. Note that all corners, including hopper corner, must be exact right angles. Allow at least 5 feet clearance between trough and walls of building. Feeding capacity, figured conservatively, is 10 layers, 16 broilers or 8 to 10 turkeys per foot of trough.

Use ⅓ or ½-H.P. 1750-R.P.M. capacitor type electric motor. For simple rectangular installation with only 4 corners, we recommend ⅓-H.P. motor for trough length up to 300 feet; ½-H.P. motor for trough length 300 to 500 feet. **Extra corners take extra power—for EACH corner over 4, deduct 20 feet from maximum trough lengths recommended for each motor size.** Use your own motor or order to left, below. Feeders regularly furnished with motor pulley for ½-inch shaft. **Specify if your motor has ⅝-inch shaft.** *See opposite page for AUTOMATIC TIMER for your feeder.*

Feeders, accessories shipped from factory near Grand Rapids, Mich.

PROTECT PIPES FROM FREEZING . . NEW FARM-MASTER HEATAPE

Protect pipes in poultry house, barns, homes

For hot beds, cold frames

For stock watering lines

Approved for use on water pipes and oil lines by U.L.

Heat is generated by current passing through resistance wires. This wire fuses and opens circuit if accidentally overheated or damaged at any point.

- **Avoid Costly Damage** and bother due to frozen pipes
- **Heat Soil in hot-beds,** greenhouses and cold-frames
- **Guard against Ice Jams** in eaves, gutters
- **Keep Oil Flowing** in exposed oil lines in severe weather
- **Melt Snow on walks,** driveways—imbed HeaTape under surface

FARM MASTER HeaTape is protected by flexible glass braid and pliable vinyl plastic cover—½-inch wide. It's water-proof—not affected by oil, grease, mild acids or alkalies. 3-foot non-heating lead-in wire furnished for connection to standard outlet box.

Fasten straight along pipe for protection down to 10° above zero. For lower temperatures, spiral HeaTape around pipe—allowing 2 to 3 ft. of HeaTape per ft. of pipe. For hot-beds allow 6 in. between rows of HeaTape. For walks and drives, allow 3 in. between rows. With instructions. **NOTE: lengths cannot be spliced or cut.** For 110-120 volt AC or DC.

SEARS OWN FARM-MASTER AN

Why pay fancy prices for commercial feed

MAKE YOUR OWN ANTIBIOTIC FEED

You can make a complete antibiotic feed using your home-grown grains! All you do is mix FARM-MASTER Antibiotic Supplements with your grains and plant proteins; add locally bought salt, limestone, and bonemeal. The resulting feed can promote faster, healthier growth; save you time; and cut down feed bills, too.

COMPARE **... see how little you pay for FARM-MASTER ANTIBIOTIC FEED SUPPLEMENTS**

FARM-MASTER Antibiotic Supplements contain all important vitamins and minerals plus Terramycin (antibiotic) and Vitamin B_{12}

About Antibiotics and Vitamin B_{12}

Antibiotics are the "Wonder Drugs" . . . the germ killers. The first one was Pen[illegible] Later came Streptomycin, Aureomycin, and Terramycin. Terramycin is used to fight a wide range of diseases in humans. **AND** it has been found by agricultural research to be *effective when used on both Poultry and Hogs.*

Vitamin B_{12} is the amazing new vitamin which, when combined with an anti[illegible] produces in hogs and poultry even faster growth results than those obtained by feeding the animals "high animal protein" tankage, expensive meat scraps, or fish meals.

How do Antibiotic Supplements help increase growth?

Scientists believe Terramycin attacks bacteria in intestine. Growth factors go to work here.

Scientists believe that Terr[illegible] tacks harmful bacteria in t[illegible] stomach and intestines. [illegible] digestive system to work more efficiently. The animal then makes better use of its feed and puts on weight . . . stays healthier.

Sears Antibiotic Feed Supplements contain Terramycin (antibiotic) and Vitamin B_{12}, *plus* all the vitamins and minerals *known* to be necessary.

POULTRY MADE UP TO 20% GAINS HO

FARM-MASTER Antibiotic Poultry Supplement contains Trace Minerals plus Vitamins B_{12}, A and D

Make your own antibiotic poultry feeds with these fine FARM-MASTER Antibiotic Feed Supplements. Now improved with trace minerals to save an extra mixing step. Further improved by packing guaranteed amounts of full-strength Vitamins A and D in a separate plastic inner bag . . . insuring greater stability of these essential vitamins.

Supplement No. 1 is for starting and growing flocks. Supplement No. 2 is for promoting egg production. 5 lbs. of either supplement will properly fortify up to 1,000 lbs. of finished feed. Complete directions are included with each can. Choose the FARM-MASTER Poultry Supplement best suited to your own needs. Both are easy to mix.

SUPPLEMENT NO. 1 . . . for starting and growing flocks

$9.09
5 pounds
Will fortify up to 1,000 lbs. of feed

Best for starting chicks, turkeys, breeder flocks, and as a growing mash. Contains 1 gram per pound of Terramycin, one of the most effective antibiotics. Also has guaranteed amounts of Vitamin B_{12}, B-Complex Vitamins, and Vitamins A and D—all vital in promoting growth and health. Contains important trace minerals that your flocks need. The essential vitamins A and D are packed in a separate plastic bag to protect stability.

Young flocks need antibiotics to give them a good start . . . reduce chick mortality. Antibiotics in their feed helps them make best use of the growth factors. Supplement No. 1 allows you to replace costly animal protein with less-expensive vegetable-source proteins. You save money in feeding by getting flocks to market sooner.

8 G 6944—Shipping weight 6 pounds.....5-Pound Package Only **$9.09**

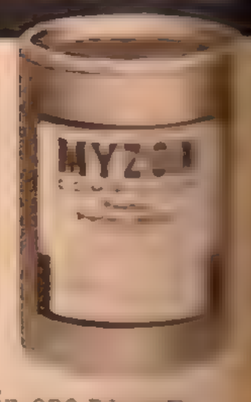
SUPPLEMENT NO. 2 . . . for increasing egg production

$5.89
5 pounds
Will fortify up to 1,000 lbs. of feed

Excellent in helping increase egg production by decreasing laying-house mortality. Will help increase egg hatchability. Highly concentrated source of [illegible]mins A, D and B complex vitamins. For feeds which are not known to be improved by the addition of antibiotics . . . yet which need high vitamin content. For pullets, laying hens, and turkeys.

8 G 6945—Shipping weight 6 pounds.....5-lb. Package **$5.89**

MYZON Compounds for Poultry . . complete antibiotic rations



A complete antibiotic, vitamin, and mineral ration in one [illegible] ready to mix. You add only grain, salt, and vegetable protein. Vitamins A and D_3 are protected by special inner pack. Because nutritional requirements vary, MYZON for Poultry comes in different rations. Use Starter-Broiler for baby chicks and turkeys. Layer-Breeder for pullets, laying hens, and turkeys. Turkey ration requires 40 lbs. of Starter-Broiler Compound in addition to pounds of Layer-Breeder Compound. Complete directions [illegible]

MYZON'S Starter-Broiler Compound

$6.50
20 pounds
Will fortify 500 lbs. of feed

Gives up to 20% faster gains in your baby broilers. Myzon Starter-Broiler Compound will reduce chick mortality . . . give your chicks a fast start toward profit for you. Contains [illegible] biotic activity (Terramycin) to aid in fighting intestinal bacteria of your chicks . . . lets them make use of their grains. Also contains all the minerals they are known to need plus Vitamin B_{12} (growth factor) to mix with your own grains. Complete mixing instructions.

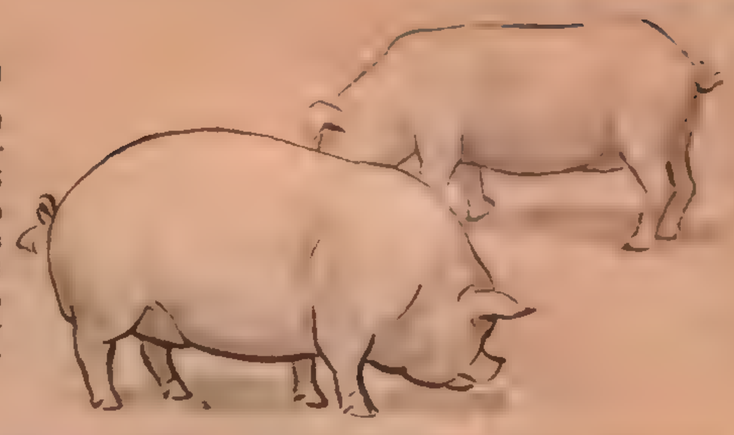
Get fewer runts
Cut feed bills

2/3 Greater Gain

These 2 litter mates got identical basic rations for 42 days. Both weighed 25 lbs. at the start. The pig on the left got Vitamin B_{12} plus antibiotic in his ration and gained 62 lbs. The pig on the right received no B_{12} or antibiotic and gained only 37 lbs.



ANTIBIOTIC FEED SUPPLEMENTS

Science plus Agricultural Research developed Antibiotic Feeds

Tankage, Scraps

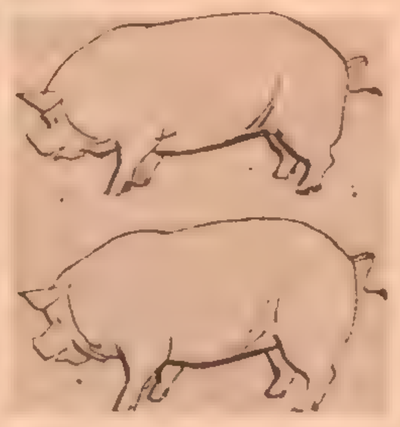
Pig and Poultry farmers ...w that animals fed tank...ge, meat scraps, or fish ...al will show the best ...wth. But farmers didn't ...ays know why this was ... Scientists discovered ... it was the *animal pro...* content of these foods ...n produced this excep...ol growth.

The A.P.F.

Unable to say exactly what form this animal protein took, science just called it the APF (animal protein factor). Food containing natural quantities of APF is hard to get for most farmers and usually expensive. The problem became one of finding a cheap source of this APF for the farmer.

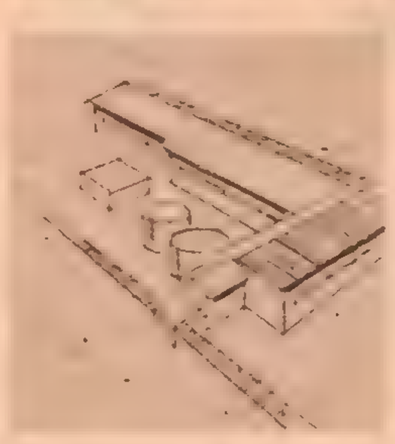
Antibiotics and B_{12}

Then along came the new antibiotics to bring aid to humanity on the battlefield and at home. A little later Vitamin B_{12} was discovered. It was shown to have amazing growth results on hogs and poultry when used with an antiobiotic. Here was a substitute for APF to help farmers.



Experimental Work

Leading agricultural universities did experimental work with B_{12} plus an antibiotic. They found amazing results in growth, health, productivity and size. Although antibiotics were expensive, such small amounts were necessary as to bring the cost below that of other natural sources of APF.



Inexpensive Source

Human consumption of antibiotics leaped and great factories then began producing Terramycin (one of the most effective). This mass production brought the cost of antibiotics down far enough to provide farmers a relatively cheap source. At last the answer to the problem had been found.

Farmers Save

Realizing that most farmers grow their own grains, Sears developed a concentrated Antibiotic Feed Supplement fortified with vitamins and minerals so that poultry and hog raisers could make their high-quality antibiotic rations.

HOGS MADE UP TO 30% GAINS

MYZON Antibiotic Hog Compound

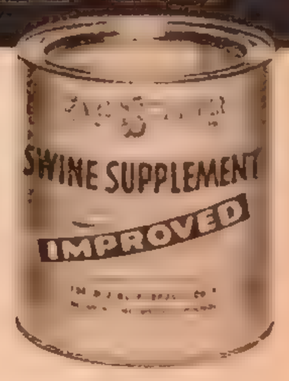
FARM-MASTER Antibiotic Swine Supplement with Vitamin B_{12}

Contains a full-strength antibiotic (Terramycin), B12, plus all the vitamins and minerals your hogs are known to need.

$5.79 5 pounds — 5 lbs. fortifies 1,000 lbs. of feed



Get your hogs off to a healthy start and fatten them the scientific way . . . with FARM-MASTER Antibiotic Swine Supplement. You can now use your home-grown grains to carry on a complete antibiotic feeding program. All you do is mix 5 lbs. of FARM-MASTER Swine Supplement with 1,000 lbs. of your own grain plus salt, low-cost vegetable protein, and (in some cases) bone meal and calcium phosphate. The resulting feed will increase growth as much as 30%, get hogs to market sooner and cut down feed bills as well as valuable time, help reduce the number of runts, and get runts to market weight. The added vitamins help prevent deficiencies which cause scouring. Contains Vitamins A and D in a protective inner bag, Vitamin B_{12}, B-Complex Vitamins, plus 6 important Trace Minerals for better health and faster development. If necessary—tell us model number and make of your old engine. We will tell you what model to order.

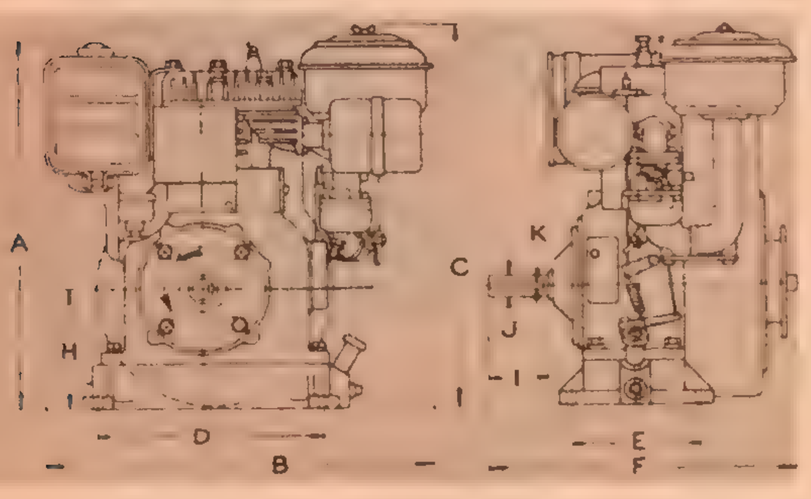
- COMPACT, PORTABLE POWER for farm, industry—reduce hand labor, save time, increase
- ENGINEERED TO PRECISION STANDARDS—dependable operation even under gruelling co
- ECONOMICAL TO BUY—because Sears prices are low—only 10% down on convenient Easy
- ECONOMICAL TO OPERATE—actually average less than one pint of gasoline per horsepow

1 to 8-H.P. engines. Four-cycle single cylinder L-head type—air cooled by powerful flywhee Patented, high tension magneto throws a hot spark for quick, easy, sure-fire starting—it's proof and dust-proof. Adjustable governors provide dependable speed control—1 and 2-H.P have pneumatic "air vane" type governors; all larger engines have flyball type mechanical Heavy duty drop-forged alloy steel crankshaft gives long service—runs smoothly. Counte weights are integral with crankshaft. Balanced flywheel reduces engine vibration.

Cylinders and crankcase are close-grained gray iron. Cylinders honed to precision finish. Surf ened aluminum alloy pistons with 3 rings. Long-life alloy steel valves. I-beam aluminum connec Large, heavy duty main bearings designed for long service—steel backed and lined with b leaded bronze. Adjustable carburetors—1-H.P. engine has suction feed; all larger sizes have carburetors. Positive splash lubrication—constant lubrication with every turn of the crank engines come complete with muffler, efficient oil bath air cleaner, starter rope, instructions.



Dimensions listed in table below . . . help you select correct power for your requirements. Determine what you need and order engine best suited to

STEEL WASH TANKS

Provide ample room for washing and sterilizing milk cans, milker pails and other bulky dairy utensils. Sturdily constructed of rust-resistant 22-gauge hot galvanized steel—aluminum finish outside. Round bottom—no hard-to-clean corners—seams welded outside and smoothly soldered inside. Tanks stand on sturdy angle legs. ¾-inch threaded drains can be connected to pipe to run water outside. Tanks stand 32 inches high and are 20 inches wide and 16½ inches deep. Shipped by freight or express with legs detached—easily set up.

Double Wash Tank. Extra convenience—wash in one section; rinse and sterilize in the other. Threaded drain in each section. 63 inches long.
32 G M8861—Shpg. wt. 85 lbs....$33.50

Single Wash Tank. See small illustration. 32 inches long overall.
32 G M8829—Shpg. wt. 50 lbs.....$19.95

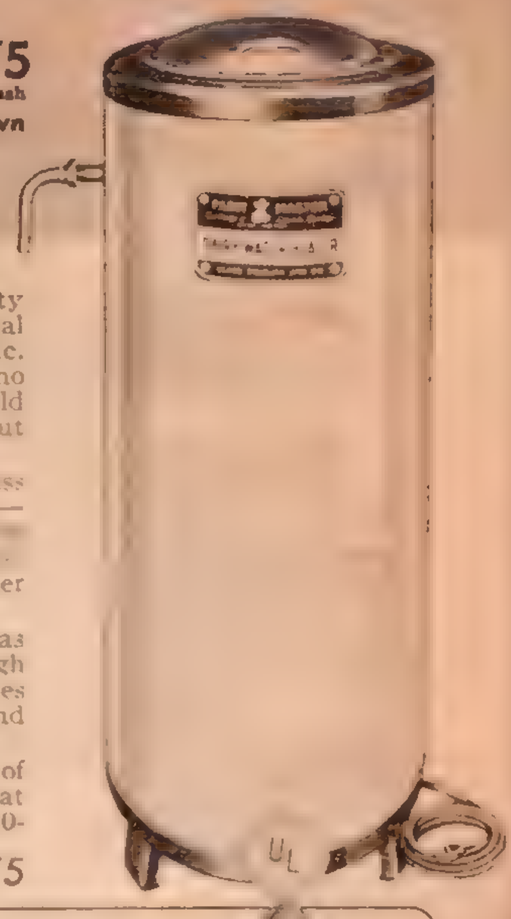
Heats water to Hot 190°
Glass-lined Electric Dairy WATER HEATER

No running water needed. Big 15-gallon capacity

Last Spring Price Was $58.50

$53.75 Cash
$5.50 Down

Glass-lined—like our finest home water heaters
Water temperature adjustable from 140° to 190°



FARM-MASTER Dairy Water Heater provides plenty of HOT water for twice-a-day dairy cleaning. Ideal for lodges, trailers, tourist cabins, cottages, etc. Easy to use—no fires to build, no burner to light, no running water needed. All you do is pour or run cold water into the top to make hot water run out spout in side at once.

Modern design for added years of service. Glass lined tank—glass lining can never rust or corrode—no matter how chemically active your water . . . glass lining is actually fused to the heavy steel t… Won't chip, crack or peel. Full three inches of fiber glass insulation around tank.

Trim, compact design. Steel outer jacket has smooth, white enameled finish. Only 45 inches high—good height for easy pouring—only 18¼ inches wide. Insulated hinged cover keeps out dust and dirt. Entire top removable.

750-watt strap-type element around bottom of tank—no "liming" problem. Automatic thermostat is easily adjusted. With cord and plug. For 110–120-volt 60-cycle A.C. **UL Approved.**

ARE YOUR CHILDREN DRINKING UNDULANT FEVER GERMS IN THAT GLASS OF RAW, UNPASTEURIZED MILK?

Will your children be among the many thousands who suffer from Undulant Fever this year? Will they catch scarlet fever, typhoid, diphtheria, septic sore throat or some other serious milk-borne disease .. because you "took a chance" with raw, unpasteurized milk? The finest Blue Ribbon cows—the most thorough testing—do NOT guarantee safe milk! There's only one way to be sure. Authorities agree that *the only way to make milk safe to drink is to PASTEURIZE it.* Pasteurization destroys or renders harmless all milk-borne disease germs. You can pasteurize milk thoroughly right in your kitchen.

FARM-MASTER ELECTRIC HOME PASTEURIZER

Makes milk safe for your family to drink!

$29.50 Cash
$3.00 Down

Give your family the same protection that is *required by law in towns and cities.* The risk in drinking raw milk is so great—the cost of home pasteurization is so small—that you can't afford to be without this essential protection. You can pasteurize milk right in your kitchen. It's simple, safe and economical with a FARM-MASTER Home Pasteurizer. Actually costs less than 1c per gallon at average rates. It's completely automatic—just fill the removable milk bucket, plug into outlet, set the timer and go about your other tasks. Timer starts automatically—proper pasteurizing temperature is maintained by positive thermostatic control. When pasteurization is complete, a buzzer sounds—telling you that the milk is ready for rapid cooling and storage.

FARM-MASTER Home Pasteurizer pasteurizes by direct heat from 300-watt ring-type element. Heat waves circulate milk constantly—you can be sure every particle is properly pasteurized. No hot spots, no cooked taste—not just a double boiler system. Easy to clean—the only part that needs washing is the removable milk bucket. No motor or awkward agitator. All-aluminum construction—outer housing has heat-retaining cover. Removable milk bucket holds 1 gallon of milk—has cover and handle. Overall size only 9½x13 inches high—net weight only 3½ pounds. 5-foot cord and plug and complete instructions included. Operates on 110-120-volt 60-cycle A.C. only. **UL Approved.**

32 G 08998—**1 gallon capacity.** Shipping weight 8 pounds..... $29.50

GUARANTEED INFLATIONS

FULLY GUARANTEED FOR SIX MONTHS OR YOU GET A NEW INFLATION FREE

90c Each **SET OF FOUR**

NEW special green inflation material has *TWICE THE LIFE* of natural rubber . . .
BETTER MILKING ACTION! Guaranteed not to crack, distort, flatten or absorb butterfat

They're the only guaranteed inflations we know of!

It took years of research—hundreds of tests—to develop the RIGHT synthetic compound for inflations. A compound that lasts longer and gives better milking action than natural rubber. *AND THIS IS IT!* FARM-MASTER Guaranteed Inflations hold their shape and fine milking action *throughout the life of the inflation*. We're convinced they're the best inflations available *anywhere!*

PLOW SHARE EDGES

The economical way to maintain sharp edges on your plow shares. You never need replace your shares again—merely replace the edge at a fraction of the cost. Simply slip the FARM-MASTER Plow Share Edge over your new or reconditioned share and you have a sharp edge. Can be attached in 30 seconds. Self-sharpening and scour well in practically all soils. Eliminates costly replacement and resharpening of old and used plow shares.

Recently introduced hard surfaced edges give extra long wear and greater value. Edges are one-piece welded steel construction—no bolts, pins or screws. Edges are secured to share by a specially designed anchor clamp and claw type gripper. The FARM-MASTER Plow Share Edge is guaranteed to stay on a new or reconditioned plow under normal plowing conditions. Edges do not change original draft of plow. Come in sizes to fit 12, 14, and 16-inch plow bottoms. **Be sure to state size and quantity when ordering.** For extra savings order in quantities of six.

DAVID BRADLEY SPREADER and SEEDER

- Easily adjusted, with hand lever, to spread from 75 pounds of concentrated fertilizer to 10,000 pounds lime per acre, without leaving tractor seat.
- Positive feed agitators break up lumps to give even, accurate distribution.
- Agitator shaft is two-section—for independent operation—can be disengaged when transporting. Center bearings on agitator shaft for free, easy turning.
- Puts seeds and fertilizer down on the ground where they will not blow around.
- Sows cover crops, oats, alfalfa, clover, etc.—even brome grass—evenly. Keeps blended seeds fully blended when seeding. Handles commercial fertilizers, lime, phosphates easily—and spreads to desired thickness accurately.
- Two large size hoppers, covers open from back for easy loading.
- Spreads 8-foot swath through 16 diamond shaped hopper openings. Hopper bottom rounded to assure complete emptying. Forced flow agitator breaks up lumps.
- Heavy-gauge steel construction throughout. Zerk lubrication fittings. Painted red with green wheels. Without tires . . . see index for tire listings.
  Pay shipping charges on delivery from mail order house.

David Bradley Hammer Mills

Choice of 10-inch or 15-inch sizes, with plain or traveling tables

v you can make your selection from [illegible] Hammer Mills . . . A Hammer Mill every farm use. Now, take advantage of Sears low prices—buy the Hammer Mill to your need; choose from a 10-inch mill with either plain or traveling table, or a big inch model in either plain or traveling table. Handles any grain speedily and iently—wheat, oats, barley, [illegible] corn; or roughages; stalks and of any kind. Grinding [illegible] more feed value from the grain s more easily digested; no whole kernels pass through in the droppings.

In designing this line of Hammer Mills every quality feature has been carefully built—every feature included to give increased capacity and increased value. Check features below and see why we think these Hammer Mills are the finest made!

Light Running for Maximum Capacity

tor perfectly balanced, [illegible] easy running, minimum wear gh-carbon steel rotor shaft set in [illegible] SKF self-aligning ball bearings rk lubricating fittings give positive lubrication to all moving parts

Direct Air Duct Moves Biggest Amount of Feed

ew "straight through" air duct brings processed feed directly in line of draft eavy-duty, high-capacity three-bladed fan [illegible] across bottom of grinding mber—blows ground feed directly into feed collector. Mill cleans automatically

Ruggedly Constructed Throughout

gged, heavy-gauge feed table—built at convenient height for easy feeding -inch mill has 5 high-carbon steel rotor plates and 12 reversible, swinging hammers. 15-inch mill has 7 rotor plates and 16 reversible swinging hammers

ammers are high-carbon, heat-treated steel—measure 6x2¼x¼ inches. Four erent sets of cutting surfaces on each hammer give greatest utility to hammers inding Chamber is made of heavy steel [illegible] plate construction—heavy duty ll important joints are electrically welded for the greatest strength

ockwood pulley on all models give positive grip of belt—reduces necessary power eavy-duty fan—three-bladed, welded of [illegible] steel. Precision machined hub anning speeds: 2400 to 2800 R.P.M. recommended for most efficient grinding eed opening has double gate and swinging baffle plate—feed won't fly back inished with long-lasting red implement paint

- Hinged chamber housing—feed table drops down for easy screen changing
- Screens easily removable, sizes for every grinding need, shipped with ½-inch screen

Plain Table Mill—10-inch or 15-inch sizes

- Rugged heavy-gauge feed table slanted down for flow of grain into mill

DAVID BRADLEY TWO-HORSE DISC HARROW

PRICES SLASHED for factory clearance—PRICES CUT, on disc harrows previously listed, from $23.00 to $24.50—and you get similar low FACTORY CLEARANCE prices on the other numbers. These high-quality harrows are priced tremendously low—to give you the BIGGEST disc harrow bargain we know of. Check the outstanding features and see how really BIG this Sale is:

- Center pressure adjustment screws for even penetration across full disc width.
- Separate angling levers to adjust hillside discing or uneven ground.
- Cast bearing boxes with oil-soaked hard maple bushings resist wear, abrasion.
- All-steel frame, with built-in weight boxes—extra strong for hardest wear.
- Specially heat-treated disc blades hold edges without cracking. 16-inch blades on 32 G M3400F—and bigger, extra-duty 18-inch blades on all others.
- Oscillating-type, heat-treated steel scrapers—controlled by foot pressure—keep blades clean—even in gumbo or heavy clay. Discs available with or without scrapers, as indicated in listings below.
- Wide-tired, wide-tread tongue truck makes turning easier and relieves neck weight on team. Strong steel wheels and axles; well-braced. 14-inch diameter wheels. Truck is adjustable and flexible to ride over rough fields.
- Special bumper washers between gangs keep gangs running together properly.
- Sturdy, well-shaped pressed steel seat with steel spring for comfortable riding.
- All levers are within easy reach of the driver—easy to operate.
- High-quality workmanship and high-quality materials in every disc.
- All disc harrow frames are painted with high-quality red implement paint.

Pay shipping charges on delivery from mail order house.

DAVID BRADLEY TANDEM DISC HARROW

Heavy-duty harrows, designed and built heavier and stronger to withstand the shocks, stresses and wear of high speed discing. Built for accurate trailing that the rear gang split the ridges from the front gang, and dig deeper for a better bed. Extra heavy welded steel frame with all welded and double bolted construction. Rugged 1-inch square gang bolt.

Unique cross-arm hitch, between front and rear gang, balances load from end of rear gang. Tension spring on front gang has crank adjustment—except 6-foot size. Front and rear gang match accurately to distribute work evenly. Designed for short turns—is long enough for stabilized trailing at full field speed.

Power angling—with single trip-rope control. Back-up to set angle—pull forward to straighten. Gangs can be set at any angle for deep or shallow penetration. Disc angles range up to 22½-degrees. Adjustable, reversible scraper blades. Spacing spools are precision formed with ends dished to fit curve of blades. Thrust bearings are of glass-hard white iron—resists abrasions. 7½-inch spacing between discs. For 18-inch diameter blades. Pressure lubricated through Zerk fittings. Chilled white bumper washers. Harrow frames painted red. Pay shipping charges on delivery from mail order house.

58-inch

$44.[illegible]

165-foot

- Close, diamond-shaped meshes are practically non-climbable
- Thoroughly galvanized, rust-resistant steel wire; 2x4-inch mesh
- Has 2, 12½-gauge twisted horizontal cables for extra durability
- 14-gauge up and down wires are tightly wound around horizontal wires

Once again we are able to offer the ever-popular Harvard Diamond-Mesh. Close, triangular mesh (one of the strongest forms of construction known) that this fence is built to take punishment. Diagonal wires are so interwoven horizontal wires, slipping is impossible. Close, 2x4-inch triangular mesh makes fence almost impossible to climb. Joints are designed so that when pressure is applied fence will "give" and return to natural position.

Has many, many uses. Ideal for residences, farms, parks, golf courses, athletic fields, etc. Use for dog runs, kennels and pet pens. Protect your property. Satisfaction guaranteed or your money back.

Sold in full 165 foot (10 rod) rolls. Shipped from mail order house stock.

12½-gauge horizontal wires — 14-gauge diagonal

13 GM 8503—When ordering, please be sure to state height wanted.

It Saws . . It Cuts Weeds . . It Mows Your Lawn

Portable Power Unit with saw attachment is the fast and efficient way to cut . fell small trees, buck logs, clean fence-rows . . and with the Portable Weed r attachment gives you a complete unit for any land clearance problem. Also s excellent job of lawn mowing. Both attachments are interchangeable on same r unit. NEW Self-Propelling unit works with either attachment.

wer Unit has 2½ H.P. Briggs & Stratton gas engine—plenty of power for the best jobs. Rolls smooth and easily on 16-inch by 2.25 semi-pneumatic tires. lar steel frame, with welded construction, gives solid support to engine and hments, enameled red. Rubber grip handles. Entire unit is perfectly balanced. friction type clutch—with V-belt drive. Handy clutch lever starts and stops saw or cutter bar. Timken roller bearings in drive shaft.

wer Saw Attachment . . Big 20 inch blade is protected by safety shield and chip tor. Belt has shield to protect it from branches and logs. Saw blade and mandrel e to either horizontal or vertical (log bucking) position.

eed Cutter and Lawn Mower Attachment . . Cuts in corners, fence-rows, around , along hedges, roads, etc. Lawn mower does clean, even grass mowing job. is 24-inches long—made of special heat-treated, extra tough steel. Cutting s on either side of blade—can be reversed for extra hours of cutting. Blade will keen cutting edge—will not shatter if it hits rock. Blade is partially enclosed—cts operator. "Hedge-fender" wire guard—pictured above—protects flowers and bushes when used to mow lawns—also acts as adjustable depth-of-cut regulator. Wire guard—which replaces "hedge-fender" when you cut weeds—included with attachment windrows weeds—gets them out of way when you are cutting. Both attachments use the same Portable Power Unit.

New! Self Propelling Attachment. No more pushing—no more struggling with saw or weed cutter. Pulley operates belt from engine that drives wheels at moderate walking speed. Fits your present DAVID BRADLEY Portable Power Saw and Portable Weed Cutter described at left. Engages and disengages with lever mounted on handles.

DAVID BRADLEY ONE-HORSE WAGONS

Available in 1,600 and 2,000-pound capacities

Sturdy, one-horse wood wagons are now available to you at Sears low cost. These styles are popular throughout the South — give durable service on small farms—for ordinary hauling. They're strongly built of selected hardwood with tough oak bolsters and gear woods. Sturdily braced—priced for economy. Check the following important features:

Axles: Made of strong, selected hickory—size 2½x3½ inches. Cast tapered skeins. 1,600-pound capacity wagon has 2¼ x 7-inch skeins. 2,000-pound capacity wagon has 2½x8-inch skeins. Round truss rod under axle for extra reinforcement. Side braces from axles to hounds. Running gear painted red.

Bolsters: Selected oak. 2½x3¼ inches in size. Steel bound on ends. Stakes are 12 inches high with 2 stake rings. Rear bolster is bolted clear through hound and axle for extra strength and reinforcement. Steel wearing plate between front bolster and sandboard.

Reach: Made of sturdy oak. 1½x3¼ inches. 7½ feet long.

Wood Wheels: 36-inch front wheels, 40-inch rear wheels. Strong, steel-banded wood hubs. Spokes riveted on one side. 2x⅜-inch steel tires securely bolted through rims.

Shafts: Straight-heel one-horse shafts of sturdy hickory.

Wide Track: 60-inch tread; 42 inches between stakes. (Also furnished at same price with Narrow Track—56-inch tread, 38 inches between stakes — **State Narrow Track on your order**—otherwise Wide Track will be furnished.)

Shipped partly assembled from factory near Evansville, Indiana. Pay freight or express on delivery from there. Send your order to Sears nearest mail order house. See inside back cover for Easy Terms.

For safe, economical heavy-duty hauling
OUR BEST . . 7000-lb. capacity WAGON GEAR

Big value in wagon gears—this 7000-pound (3½-Ton DAVID BRADLEY Wagon gear is designed for heavy-duty farm hauling and built with all the extras that mean long life and top quality performance. Check the features—see why we say it's the finest in the field:
Rocking Front Bolster: gives your wagon extra protection needed for extra long life and continued efficient performance even over roughest roads with heaviest loads. Gives better balanced loading which makes for equal weight on all four wheels at all times—thus reducing heavy strains constantly being put on gear and boxes. Front bolster made of heavy 13/16-inch steel plate—measures 3x4¾ inches. Box section construction gives far greater strength.
Wheels: Drop-center, disc-type—made of heavy 9-gauge steel . . . demountable at hub. 16-inch rims—to take 5.50 to 7.00x16-inch tires—are regularly furnished. 15-inch wheels available if specified on order. Wheels painted with high-quality green implement enamel.
Axles: Formed from one piece of 7-gauge steel. Box section construction. Measure 3x6 inches. Front axle built up in center for bigger capacity. Rear axle has gusset reinforcing to hounds.
Bearings: Two Timken tapered roller bearings on each spindle. 1½-in. inner and 1⅜-in. outer.
Spindles: Front spindles are 1⅝-in. and rear are 1⅜-in. All are formed from heavy, hardened, cold-rolled steel. Front spindles have heavy welded reinforcing gusset.
Steering: Adjustable radius-rod type with malleable clevis and high-carbon steel rod. Gives short 14 to 15½-foot turning. Standard 60-inch wheel tread.
Reach: 2⅞-inch outside diameter, tubular steel. Allows full oscillation of rear truck.
High-clearance: Measures only 18¼ inches to bottom of axle: 24¼ inches loading height. 52-inch tractor stub pole included. All exposed parts coated with red oxide inhibitive primer and second coated with red implement enamel.

NOTICE

CONCERNING OUT-OF-SEASON GOODS

Occasionally, when you look for an item in this index you are referred to this page ("See Notice on Page 1431). That reference means that the item is not offered for Sale in this Fall and Winter Catalog because it is Spring and Summer Merchandise.

If you want out-of-season merchandise, write for prices. When writing, be sure to give us full information on the merchandise you want.

Sears Laboratories Help You!

Sears Laboratories Help You with your Shopping Problems

Careful shopping can be a confusing experience for any of us. Comparing uses, features, dependability, quality and prices can become a long, difficult job. Sears technical laboratories are continuously doing just that . . . testing Sears merchandise, comparing it with other brands. Merchandise is tested by 100 technicians. These experts weed out failures, suggest ways of improving merchandise, make sure that you can buy all Sears merchandise with confidence.

How much do you know about vacuum cleaners? You can choose a KENMORE and a staff of experts supports your choice.

KENMORE vacuum cleaners, like hundreds of other Sears items, are tested in several divisions of our laboratory. The textile division tests the bag; the materials division tests the finish of the metal parts; the home economics lab tests the sweeping qualities. Electrical safety, motor operation and durability are tested in the electro-mechanical laboratory. The KENMORE has to merit the approval of all these experts before it's sold by Sears!

COLDSPOT refrigerators, SILVERTONE radios, J. C. HIGGINS bicycles . . . practically every item sold by Sears must pass all or part of these tests. The photographs on this page show our engineers, chemists and home economists at work on just a few of the many tests they perform daily. Sears laboratory takes the guesswork out of buying, protects your dollars long before they are spent . . . allows you to buy whatever you need from any Sears catalog with complete confidence.

Testing Allstate battery charger

Testing Kenmore vacuum cleaner bag

Measuring paint thickness in Coldspot

Repeated test loading of chair

Testing Maid of Honor pressure saucep

For wise buying, know what these terms mean

• ***Washability***—We use the following terms in our catalog to describe care required for fabrics and garments which may be washed. To retain best appearance follow these simple washing instructions:

Superior Washfastness: May be washed under severe conditions.

Washfast: Wash in washing machine with any good soap and hot water.

Washable: Wash in warm suds (below 120°F). Use mild soap.

Washable Separately, or Wash Separately: Remove trimmings and wash article *by itself* because it may fade or stain other fabrics. Wash in rich warm suds (below 120°F.). Use mild soap.

Hand Washable: Wash by hand in rich, lukewarm suds (about 100°F.). Use mild soap.

Wash with Care: Indicates articles such as bedspreads, rag rugs, slip covers, where weight or size requires use of washing machine and rich lukewarm suds (about 100°F.).

Hand Washable Separately, or Wash Separately by Hand: Remove trimmings and wash article *by itself* because it may fade or stain other fabrics. Wash by hand in rich, lukewarm suds (about 100°F.). Use mild soap.

• ***Fabric Shrinkage***—All fabrics shrink (or stretch) some in washing. Below we explain what shrinkage may be expected in laundering Sears merchandise.

The shrinkage tests are made in accordance with Commercial Standard CS59-44 issued by the National Bureau of Standards. Merchandise with over 5% shrinkage is cut to allow for this shrinkage or it is described as "Allow for Shrinkage."

Sanforized and Preshrunk Fabrics: The shrinkage in Sanforized fabrics will not exceed 1%. The shrinkage on preshrunk fabrics will not exceed 3%, except on corset fabrics which will not exceed 5%.

Ordinary Woven Fabrics: Unless otherwise stated the maximum average shrinkage will not exceed 5%, except on ginghams, chambrays, coverts, denims and woven striped ticking.

Knitted, Napped, Braided or Sheer Fabrics: Unless otherwise stated shrinkage will not exceed 10%. These fabrics include such articles as rag rugs, blankets, curtains, flannelettes, sweaters, voiles, polo shirts, sweatshirts, underwear, hosiery, batistes, bedspreads and tablecloths.

• ***Sun-Resistance***—We use the following terms in our catalog to indicate the degree of sunlight which our fabrics will withstand.

Superior Sunfastness: The fabrics identified by "Superior Sunfastness" will withstand exposure to sunlight under severe conditions without noticeable fading or color change.

Sunfast: Where "Sunfast" has been used to describe fabrics, it means that dyes have a high resistance to conditions of normal use. Their color should not alter noticeably during the normal life of the fabrics.

Sun Resistant: Where "Sun Resistant" is used to describe fabrics, such as draperies, it means that dyes have good resistance to conditions of normal use. Because fabrics so qualified are ordinarily subjected to considerable sunlight, their colors may alter slightly during the normal life of the fabrics.

• ***Water-Resistance***—**Waterproof:** Where "waterproof" is used, the fabric is nonporous so that water will not penetrate. Where garments are described as wholly or 100% waterproof the seams of the waterproof fabric have been sealed for complete protection.

Water Resistant or Water Repellent: Where either term is used, the material has been treated to resist water, but is porous to air. Where "Durable" is used with either term, the material has been treated so that it will withstand repeated washings or dry cleanings.

Water Spot Resistant: Where this term is used, the fabric has been treated to resist water spots without leaving a mark.

• ***Wool Labeling Terms***—The Wool Products Labeling Act requires all wool and part wool products (except carpets, rugs, mats and upholstery fabrics) to be labeled as to fiber content.

According to this Act, there are four classifications of wool: New or Virgin Wool, Wool, Reprocessed Wool, and Reused Wool.

New Wool, Virgin Wool are terms employed to describe wool fibers which have never been previously processed in any way.

Wool—is the term employed to describe fibers that may have been previously spun or knit, but never woven or felted.

Reprocessed Wool is used to describe wool fibers reworked from woven or felted products never used by the consumer.

Reused Wool is the term employed to describe wool fibers reclaimed from wool products that have been used by the consumer.

Grade for Grade—New Wool or Wool gives most warmth and has the greatest resistance to wear. However, Reprocessed and Reused Wools are good materials and equally as sanitary. Reprocessed and Reused Wools are reduced from their woven or felted form to fibrous state, scoured and cleaned before reprocessing. We buy wool and part wool goods with you in mind . . . the use to which you are going to put the goods, the warmth and hard wear you have a right to expect, and the price you wish to pay. You can buy woolens by mail at Sears with confidence.

WE GUARANTEE COMPLETE SATISFACTION OR YOUR MONEY BACK

There's no Guesswork when you Shop at Sears

Shop With Confidence!

SEARS GUARANTEE

TO SAVE YOU MONEY . . .
TO DELIVER ALL MERCHANDISE SAFELY
TO SATISFY YOU PERFECTLY

We guarantee that every article in this catalog is honestly described and illustrated.

We guarantee that any article purchased from us will give you the service you have a right to expect.

If for any reason whatever you are not satisfied with any article purchased from us, we want you to return it to us at our expense. We will then exchange it for exactly what you want, or will return your money, including any transportation charges you have paid.

SEARS, ROEBUCK AND CO.

Important About Prices: ***If the price of any item in this catalog is reduced after the catalog is in your hands, we will fill your order at the lower price and return every penny of the difference to you.*** Regardless of which Sears Catalog you order from, you always get the benefit of any price reductions the market affords. We believe that Sears prices save you money and always give you the greatest possible value.

Prices in this catalog apply only to orders placed by mail, telephone, telegraph or at the catalog order desk in a Sears Retail Store, Catalog Sales Office, or in one of Sears Affiliated Stores.

Should the Federal, State or Local Governments increase or impose additional taxes after this book goes to press, we reserve the right to add such taxes to the prices shown. On the other hand, if any existing taxes are reduced or terminated while this catalog is in effect, we shall adjust our prices accordingly.

We believe our purchases and stock on hand are sufficient to meet all normal requirements of our customers during the period for which this catalog is intended. To protect you, as well as ourselves, we may, before filling, refuse orders so large as to indicate that we are being used as a source of supply by dealers who intend to sell the goods again.

• About Sears Catalogs

More than twelve million customers throughout the United States use Sears Catalogs year in and year out as their buying guides. They make worthwhile savings—that's why they continue to buy from Sears.

We send our Big Catalogs and our supplementary catalogs without request to customers who buy regularly from any Sears catalog—by mail, by phone or through one of our catalog sales offices.

To be sure that all of your orders will be correctly credited to you so that, as a regular customer, you will automatically receive Sears catalogs, we suggest that members of the same household order under one name, preferably that of the head of the household—and that this name be written the same way each time you order—for example "John T. Jones" (always using full name). This also helps us to give you faster and more efficient service.

About colors—The color pages in this catalog reproduce the actual colors of the merchandise as faithfully as is possible with modern high speed printing equipment. Naturally in the process of reproduction some of the printed colors may vary slightly in shade from the actual colors of the merchandise. In such cases, as with everything we sell, we guarantee your complete satisfaction or your money back.

• C.O.D. Mail Orders

Unless there is a real need for C.O.D. service, we urge you to enclose money order or check with your mail order. Thus avoiding the extra expense of shipping C.O.D. which would cause you to lose part of the savings in buying by mail from Sears. On parcel post C.O.D. shipments, in addition to the price of the merchandise and parcel post charges, you pay a C.O.D. collection fee which is an extra charge the Post Office makes for handling C.O.D. shipments. The post office also charges you a money order fee for forwarding payment to us. ***For example*** on a $6.00 C.O.D. order you would pay the post office a 40 cent C.O.D. collection fee and a 15 cent money order fee in addition to the regular parcel post charge. Save this extra expense by including the total remittance with your order. See Parcel Post Page 1437 for tables of C.O.D. collection and money order fees.

We do not ship C.O.D. orders:—For merchandise that is cut, engraved, printed, or made to special order. For merchandise that is shipped direct from one of our factories. For merchandise to be shipped to foreign countries. For merchandise to anyone other than the person sending us the order. For seeds and perishable nursery goods.

• Our Eleven Mail Order Houses

We operate mail order houses in Chicago, Philadelphia, Boston, Kansas City, Minneapolis, Atlanta, Greensboro, Memphis, Dallas, Seattle and Los Angeles. We'd enjoy a visit from you. Our door is always open and you are welcome to come in and visit us at any time.

Our Dallas mail order house is located at 1409 S. Lamar St. in Dallas, Texas.

• Write in Any Language

We can always take care of your order and we assure you of complete satisfaction at all times, or your money will be gladly refunded.

• Sampling Fabrics and Materials

Please do not ask for samples of upholstering, draperies, curtain or window shade fabrics, etc. We cannot send them at this time.

We can fill your requests for samples of Dress Goods, Wallpaper and Broadloom Carpet.

• Prompt Service

The vast majority of Sears orders are carefully filled and on their way to the customer within 24 hours after they are received.

Where catalog descriptions show factory or warehouse shipping points, please allow us enough time to forward your order to the factory or warehouse for shipment from that point direct to you. When merchandise is shipped from a factory or warehouse, we give you fastest possible service and notify you of approximate date when shipment will be made.

IMPORTANT TAX NOTICE

If you live in any of the places listed below, please add to your order an amount, at the rate shown, to cover the following:

Arkansas (Use Tax) 2%
Indiana (Use Tax) 2%
New Mexico (Compensating Tax 2%
Oklahoma (Use Tax).....2%

Measure each time you order!

to be sure you get correct fit in Children's and Teens' Apparel

How to Measure!

How to Measure for Tots and Small Girls

The illustrations below show you the right way to take children's measurements. This is the way to measure each time you order tots' and small girls' sizes. If measurements fall between two sizes, as shown in size chart at right, order the larger size. Remember, age doesn't tell you what size your child wears. In measuring, please do not make extra allowances.

Sears sizes are not based on age. They're based on body measurements developed by the National Bureau of Standards. You will get the right fit and save unnecessary alterations if you follow these measuring directions and check the measurements carefully with the size charts below

HEIGHT: Have child remove shoes and stand naturally against wall. Make mark level with top of head. Measure from this point to floor. Re-check height EACH time you order.

CHEST: Measure around body at fullest part of chest. Hold tape snugly, well up over shoulder blades. Be sure tape does not slide down in back. Stand naturally.

SIZE CHART for Tots and Small Girls

Her size (not age) is	SIZE 1	SIZE 2	SIZE 3	SIZE 4	SIZE 5	SIZE 6	SIZE 6x
If her Height is.. (without shoes)	29½ to 31 in.	31½ to 34 in.	34½ to 37 in.	37½ to 40 in.	40½ to 43 in.	43½ to 46 in.	46½ to 48 in.
If her Chest is..	20 in.	21 in.	22 in.	23 in.	24 in.	25 in.	25½ in.
If her Weight (without shoes) is	22½ to 25 lbs.	25½ to 29 lbs.	29½ to 34 lbs.	34½ to 38 lbs.	38½ to 44 lbs.	44½ to 49 lbs.	49½ to 54 lbs.
COAT LENGTH:							
1 to 4 range...	16 in.	17 in.	18 in.	19½ in.	.....	.....	.....
3 to 6X Range.	.....	.....	19 in.	20½ in.	22 in.	23½ in.	25 in
DRESS LENGTH:							
1 to 3 range...	15½ in.	16½ in.	17½ in.	.....	.....	.....	.....
3 to 6X range..	.....	.....	18½ in.	20 in.	21½ in.	23 in.	24½ in.

How to Measure for Girls and Teens

If measurements fall between two sizes, order the larger size. Do not make extra allowances in measuring. Order the same size in all types of apparel. Order the same size whether you buy low priced merchandise or our best quality. Be sure the style you want comes in the size you want.

Height: Have girl remove shoes and stand naturally against wall. Make mark level with top of head. Measure from this point to floor. Re-check height EACH time your order.

Chest or Bust: Measure around body at fullest part of chest or bust. Hold tape snugly, well up over shoulder blades. Be sure tape does not slide down in back. Stand naturally.

Waist: Measure around smallest part of body at natural waistline. (Remove belt when measuring.) Hold tape firm but not tight. Re-check measurements every time you order.

Hips: Have girl stand naturally with knees together measure in straight line around body at fullest part of hips (about 7 inches below waist). Hold tape firm but not tight.

NEW! SHORTER TEEN SIZES . . . *for younger girls*

These sizes (10S, 12S and 14S) bridge the gap between Girls' (7 to 14) and Teens' (10 to 16) sizes. They're for the "Almost Teens" who have had to wear sizes that were too long or too short, styles that were too young or too old. They're shorter in length than regular Teen sizes and specially proportioned for the figure that is just starting to develop a slimmer waist and a fuller bust.

NEW SIZES 10s 12s 14s

SIZE CHART for Girls 7 to 14

Her size (not age) is	SIZE 7	SIZE 8	SIZE 9	SIZE 10	SIZE 12	SIZE 14
If her Height is..... (without shoes)	50 in.	52 in.	54 in.	56 in.	58½ in.	61 in.

MAKE SURE YOU ORDER THE RIGHT SIZE

Just two simple steps will get you a perfect fit from Sears. The first is taking the *right measurements.* Once you have those, simply find your measurements in the tables for the item. Then *order size printed there.* Do not pay any attention to age.

PROPER SHOE FIT GUARANTEED—Order correct shoe size one of these 3 easy ways

...Tell us shoe size (length and width) if known. For men and women only—not ...or children. (For children, use 4-point measuring system each time you order.) ...lake sure that shoes you order are sold in your particular size and width (see ...talog description). If you have worn a particular size or type of shoe comfort...bly, you will find it satisfactory to order same size in your new Sears shoes.

...or 3. Use Sears scientific 4-point measuring system: For men, women, older boys, girls and children ... Use a piece of ... paper ... to fit under your foot and an ordinary kitchen knife and ...ncil. Sit on chair and let foot that gives you the most trouble rest naturally and without moving ...a piece of paper as shown below. Do not stand as this will spread foot and give incorrect measure...ents. Then mark piece of paper as shown in sketches below.

1

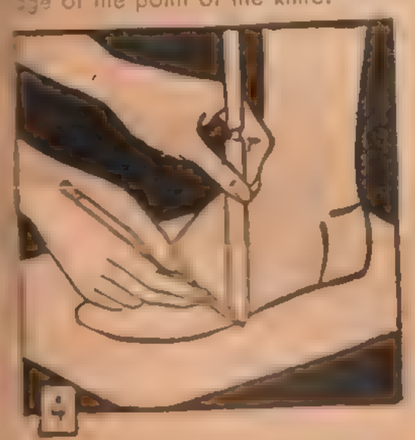
...Have someone else hold the knife straight up and down at the tip of ...our longest toe, as shown in Point ...mber 1 above, and make a mark ...th the pencil along the outside ...dge of the point of the knife.

2

Have knife blade moved to the joint of the inside of the foot (widest part), as shown in Point Number 2 above, and again make a mark with the pencil along the outside edge of the blade.

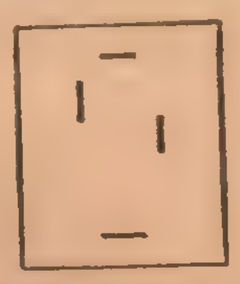
3

Next, have the knife blade placed at back of the heel, as shown in Point Number 3 above, and make another mark along the outside ... of the blade. Be sure that the kn... is held straight up and down.



4

And last, have knife blade placed at widest part of the outside of your ... as shown in Po... ...at is your exact ... ...o not send us ... your foot.



You now will have a piece of paper with four pencil marks on it ...as shown above. Enclose this piece of ... blank (if order... send diagram ... number noted). ... Measurement gives ...tion we need to de...rect shoe size.

For Children's Shoes —measure each time you order

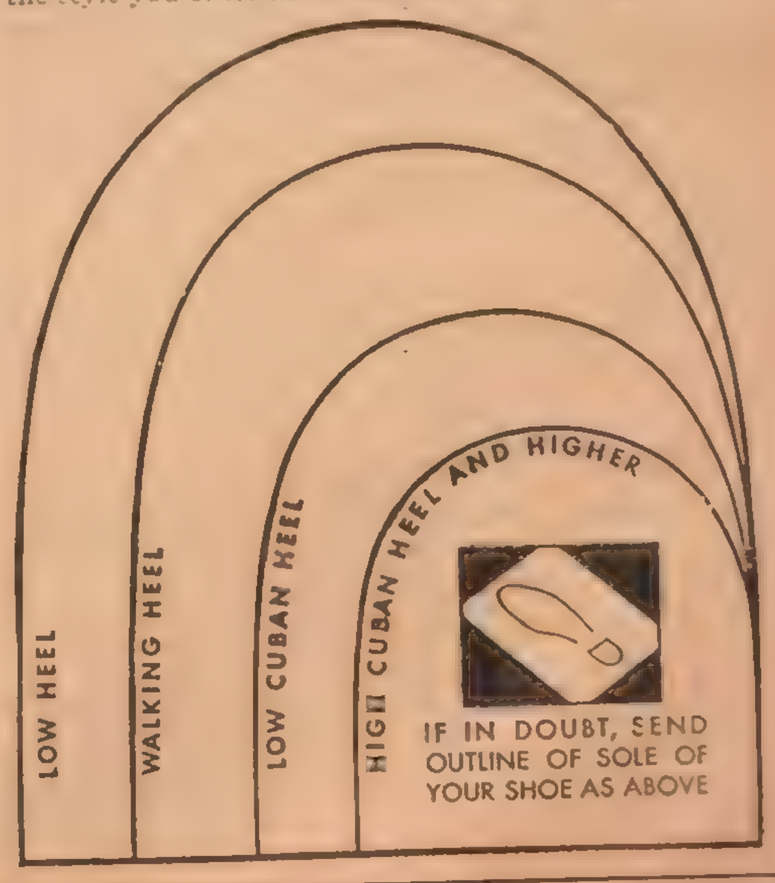
Send for FREE Measuring Device. Sears new measuring device makes it very easy to get exact size measurements for children's shoes only. Complete instructions are printed right on this device. Write for this free Sears Shoe Measuring Device 13818G today. You will be able to use it again and again when ordering children's shoes. Makes it even easier to order shoes by mail from Sears.

...or 2. Give us all numbers and letters in your shoe.

For men and women only—not for children. Just write on your order all numbers and marks in the lining of a comfortable old shoe, whether or not it was bought at Sears—and your new Sears shoes will fit comfortably. Be sure to show all marks, including dashes, that you find as dashes sometimes indicate half sizes.

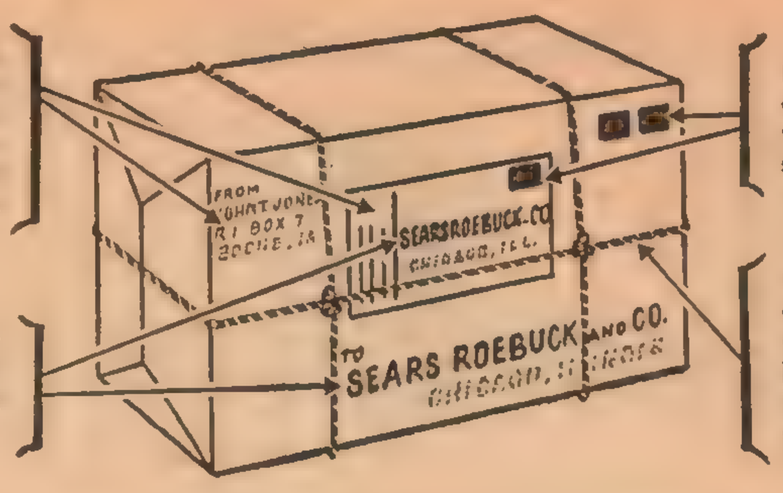
Women's and Misses' Rubber Footwear

Determine correct heel size this way. Place heel of shoe in lower right hand corner of heel chart below. The line which is nearest outline of heel and completely visible at all points will give you correct heel height. After you've learned your heel height, be sure to follow carefully ordering instructions included in the description of rubber footwear style you want to order. This will save time, inconvenience, and irritating delays and you will receive the style you order in the size that fits your shoe.



How to Write us . . or send us Goods

Be sure your package and letter look like this



• When writing to us about an order . .

Before writing us—Compare order or invoice with merchandise. You may find changes already explained, eliminating need for writing. Invoices or order may come separately by mail a few days after you receive your merchandise.

When writing us—Be sure to include all papers, invoices and correspondence concerning the order about which you are writing. Please give full information as to name of item, catalog number, quantity, size, color, pattern and price, including any special information required.

• If necessary to return goods . .

Please tell us why you are returning the merchandise . . which articles you want in exchange . . or if you would like your money returned. Be sure to enclose all papers you've received concerning the order.

• When returning goods by freight or express . .

Write to us first for instructions.
Pack merchandise securely and be sure to address according to our directions.
Put your full name and address on inside or outside of package with "FROM" before your name.
Your station agent will give you a receipt to be mailed to us at once together with our letter of instructions. If the freight station is not the same as your regular post office address, be sure to tell us.

• We always allow any postage paid for returning goods to us . .

When using parcel post, attach instruction letter to outside of package. **Caution** . . do not put letter and invoices inside package, as this makes entire package subject to 1st class (letter) rate which is much higher than Parcel Post. **Directions above show how to wrap and address package.**
If Parcel Post, **don't seal** unless package has Parcel Post label stating "contents merchandise, may be opened for postal inspection if necessary." *Sealed packages without this special label are subject to the 1st class postage rate.* Pack merchandise carefully. Post Office requests that correct postage be put on both package and letter before depositing them in your mail box.

• When returning very small articles . .

For example, a sewing machine needle or similar small item should be carefully wrapped in paper and enclosed with your letter.
Send by first class mail. Place letter postage on envelope.

How to order REPAIR PARTS

An important point to consider when you buy mechanical equipment—is that today . . . tomorrow . . . even years from now Sears Speedy Repair Parts Service will keep your equipment in working order. You expect to get long, hard service out of every piece of Sears equipment you buy. You have a right to expect this and Sears guarantees it. But, the finest piece of equipment ever built has parts that will eventually become worn in normal service and need replacement. We consider it our duty to be prepared for such emergencies, and to be able to provide replacement parts for Sears-Roebuck equipment quickly and at the lowest possible prices. On repair parts, as on all other Sears-Roebuck merchandise, we guarantee to satisfy you perfectly.

• What has Sears done to provide repair service?

When you buy farm machinery, power tools, washing machines, stoves, and hundreds of other things from Sears, Roebuck and Co. you can buy with confidence in Sears ability to provide speedy, low-cost repair service, should it ever be needed. Here's how we make it easy for you to get quick service on repair parts:

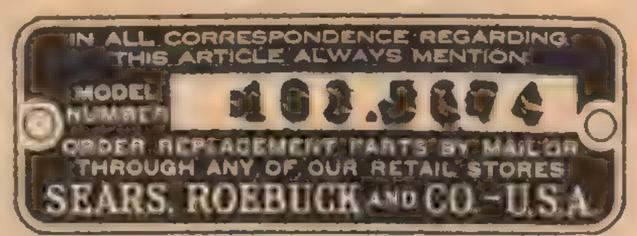
1. At our eleven big mail order houses we maintain for immediate shipment large stocks of replacements for parts which may wear out through natural use. Most of these parts are shipped *the same day* we receive your order.
2. Sears Retail Stores carry large repair parts stocks for immediate delivery.
3. Complete lists of repair parts for all Sears mechanical equipment, old and new, are kept in all our Retail Stores. Sales people will help you order the correct part.

• How do I order repair parts by mail?

Before ordering, please be sure to check this catalog—as many regular replacement parts are listed along with the equipment for which they are intended. (Please turn to Index for page references on the type of equipment you wish to repair.)

Prompt service on repair parts depends upon the completeness of information you give us. With each major piece of mechanical merchandise sold, we include a complete repair parts list. Keep this list and refer to it when in need of repairs. All repair lists give part number and model number, as well as the exact weight so you can include proper postage. *If in a special hurry*, just send your order by paid telegram, giving us *complete information*, and we will rush the parts to you.

1. Give us the exact name and number of part you want.
2. Give us the name and model number of machine or item for which part is being ordered.



To find the model number, look for the metal tag carried on most Sears mechanical merchandise. If the tag does not appear on your merchandise, you will find the number stamped or stenciled somewhere on the article.

• How about repair parts for very old equipment?

We are able to supply parts, in most cases, for the normal life expectancy of the equipment. If the article doesn't bear a plate like the one shown above, send us the following information:

1. Name and model number of the machine or item referred to. If there is no model number, give us a complete description of the item, including the year purchased.
2. Exact name and number of part wanted. If no number appears on the part, send us a pencil outline, or the old part itself. Tell us location of part on equipment.

Repair parts for older equipment are quoted at reasonable prices which will be supplied on request, or can be obtained at any Sears Retail Store. When you order mechanical equipment at Sears, you can be sure that you will be able to obtain repair parts.

• How about Electric Motor Repairs?

We maintain for your convenience and service complete electric motor repair shops in Chicago, Philadelphia, Dallas and Los Angeles. These are equipped to repair or rebuild any Sears electric motor. Perhaps you have a Sears vacuum cleaner, washer or mixer, any Sears article which is motor driven, which needs motor repairs but you cannot repair it yourself or get it repaired locally. Our motor shop is prepared to rebuild that motor to give you many more years of service at reasonable cost to you. This service applies only to motors purchased from us.

Before sending any electric motors to us for repair, write us and we can give you prices and specific instructions on what to send us and how and where to ship the motor. Address your inquiries to the Personal Service Division of your nearest Sears mail order house.

How to Figure Parcel Post Rates

Packages weighing up to 70 pounds and measuring not more than 100 inches in combined length and girth (measurement around at widest point) can be sent by Parcel Post in all parcel post zones, except when mailed at a first class post office and addressed for city delivery to another first class post office.

The new parcel post weight limits passed by Congress, which apply only to packages mailed between first class post offices and addressed for city delivery, are 40 pounds to the Local, 1st and 2nd Zones; and 20 pounds to Zones 3 to 8. The size limit for these packages is 72 inches length and girth combined. These size and weight limits do not apply to baby fowl, nursery stock, books or to overseas shipments.

REMEMBER, THESE NEW SIZE AND WEIGHT LIMITS DO NOT AFFECT YOU UNLESS YOU HAVE A CITY ADDRESS, POST OFFICE BOX NUMBER ADDRESS, OR GENERAL DELIVERY ADDRESS, SERVED BY A FIRST CLASS POST OFFICE. Your postmaster or carrier can tell you if you live in a first class post office area.

Items which cannot be sent by parcel post will be shipped by freight or express. See following pages for freight and express rates.

Figure postage on total weight

...rticles you are ordering. When you write your ...er show shipping weight of each article on ...nds and ounces, in last two columns of order ...k. Add the pounds and ounces and change ...ces into full pounds (16 ounces to a pound). ...en show total weight in pounds.

When figuring postage

...packages weighing more than one pound, the ...stoffice counts a fraction of a pound as a full ...nd and charges postage accordingly. For ex...ple, if the total weight of your order is 7 pounds ...1 ounce, the postoffice charges the parcel post rate for 8 full pounds. Therefore you could include additional articles weighing 15 ounces without having to pay one cent more for postage. *It means extra savings for you when you build up your order to full pounds.*

• Include money for postage

with your order as we must pay postage on parcel post packages before we can send your merchandise. *Don't worry about sending more than the correct amount—if you send us too much, every cent extra will be promptly returned to you.* You pay only the exact postage needed for your order.

• If you are not sure which Parcel Post Zone you are in, ask your carrier or postmaster or look at your address on the wrapper of this or any catalog we mail to you, or on the label on any package you receive from Sears. The number that appears on the line with your address, as shown in the example below, is your Parcel Post Zone

JOHN T. JONES
R 1 B 7
UVALDE, TEX. 3

DISTANCE FROM DALLAS

Local Zone	Within Dallas
Zones 1 and 2	Not over 150 miles
Zone 3	151 to 300 miles
Zone 4	301 to 600 miles
Zone 5	601 to 1,000 miles

Postoffice Money Order Charges

...money orders can be purchased at any ... mail carrier will buy a money ... charges for Money ... purchased

• Parcel Post C. O. D. Fees

On parcel post C.O.D. shipments, in addition to price of merchandise and regular parcel post charges, we will bill you for C.O.D. collection fee which we are required to pay the postoffice, as follows:

Amount Due	C.O.D. Fee
Up to $ 5.00	30c
$ ... to ...	40c
... to ...	60c
... to ...	70c
... to ...	80c

PARCEL POST RATE TABLE

The table below shows the correct amount to include in your remittance for postage. *For example*, if your order adds up to 18 pounds and 10 ounces and you live in Zone 3, the postage on your merchandise would be 80c. If you do not know your postal zone, see the explanation at left below.

SHIPPING WEIGHT (16 oz. equal 1 lb.)	Local Zone Within Dallas	Zones 1 and 2 Not Over 150 Miles	Zone 3 151 to 300 Miles	Zone 4 301 to 600 Miles	Zone 5 601 to 1000 Miles

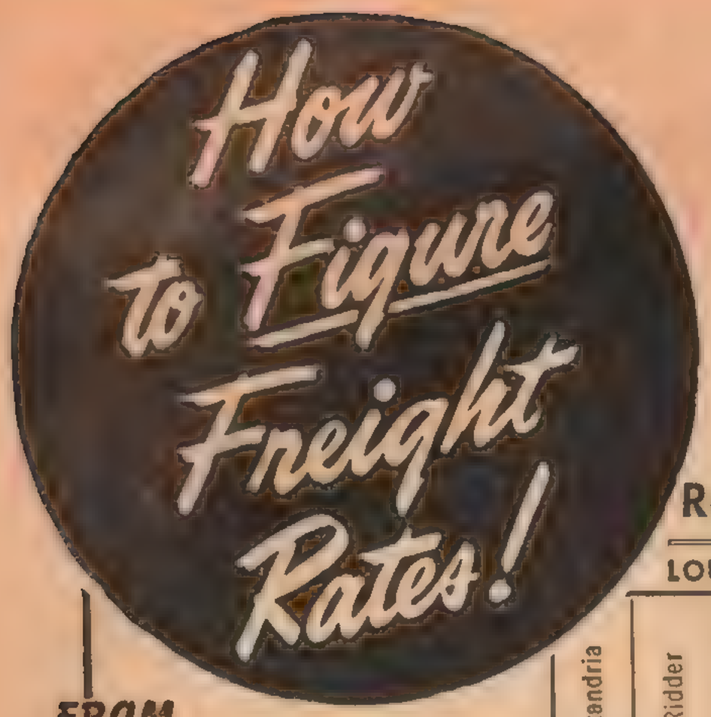
PLEASE NOTE



Freight Rates on Merchandise

Freight is the most economical way to ship heavy, bulky merchandise. The rates on this and following two pages will help you estimate freight charge to your town on any order whether it is shipped from our Dallas mail order house or direct from one of our convenient warehouses or factories. Catalog descriptions of articles give points of shipment. You may include articles which are shipped from factories or warehouses on same order blank with goods shipped from our mail order house. However, factory and warehouse articles will be sent as separate shipments with separate shipping charges.

Freight rates are based on distance and are the same, regardless of who ships the merchandise. **If there is a freight agent at your station,** you pay freight charges w... shipment is received. If there is no freight agent, inclu... additional money with your order to cover freight cha... es. If you send too much, we will return the differenc...

Direct-to-home freight delivery. Many railroads ... direct-to-home truck delivery service on rail freight s... ments—usually only within city or village limits. Or... narily there is no extra charge except where the frei... rate is very low—then a slight extra charge is made ... railroad to cover cost of delivering merchandise. Such ... liveries are usually made to first floor or sidewalk. ... your freight agent or write us if you want more infor... tion about this service.

Rail Freight Rates per 100 lbs. from Factories and Warehouses—as listed

We Guarantee to Satisfy You Completely on Every Order . . . Freight Rates

dise Shipped direct from Factories and Warehouses

If you are ordering merchandise to be shipped from one of our factories or warehouses find in table on this or opposite page city in which you live or city nearest you. Then find rate per 100 pounds from shipping point to this city, and it will be easy to figure freight charge. **Example:** If you live in or near Longview, Texas, and order a coal stove weighing 300 lbs. to be shipped from factory in Chattanooga, Tenn. Rate per 100 pounds from Chattanooga, Tenn. to Longview, Texas, is $2.79. Multiply shipping weight 300 lbs. (3 times the 100 lb. rate) by $2.79 and answer is $8.37. Add 3% (25c) for Federal tax, making total freight charge $8.62.

Freight shipments of 100 lbs. or less take the 100-lb. rate; charges on shipments over 100 lbs. are based on actual weight. **The minimum freight charge made by railroads** is $2.30.

Transportation companies are required to collect a Federal tax of 3% on their charges.

If you are ordering merchandise to be shipped from our Dallas mail order house or one of our nearby factory points, see table of rates on the following page.

If you prefer, you can ask your station agent, or write us giving catalog numbers of items on which you want to know the actual freight charges. Truck shipments are explained on page 1440.

Rail Freight Rates per 100 pounds from Factories and Warehouses . . . as listed

How to Estimate Freight Rates to your station from Dallas and nearby factories

Use rates below for estimating freight charge to your station on merchandise shipped by rail freight from our Dallas mail order house, or factories or warehouses in Dallas, Texas, or Houston, Texas, or Window Glass from Austin, Texas, Beaumont, Texas, Ft. Worth, Texas, Houston, Texas or Port Arthur, Texas. **See preceding pages for freight rates from other factories.**

Freight shipments of 100 lbs. or less take the 100-lb. rate; charges on shipments over 100 lbs. are based on actual weight. On freight orders of 100 pounds or less, made up of several articles taking different freight rates, highest rate applies to entire shipment. **The minimum freight charge made by railroads is $2.30.** Minimum charge by truck may in some instances slightly exceed the hundred pound rate.

Freight charges are based on distance and are the same, regardless of who ships the merchandise. Figure total weight of your order, refer to table below, and you can easily estimate freight charges. The actual charge, however, may be slightly more or less than your estimate.

EXAMPLE: Suppose you live about 200 miles from DALLA and order Rock Wool Pellet Insulation weighing 150 lb Rate table below shows 200-mile freight rate for 100 lb of Rock Wool Pellets to be $1.57. Multiply shipping weight 150 lbs. (1½ times hundred pound rate), by $1.57. 1½ times $1.57 is $2.36, then add 3% (7c) for Federal ta making the approximate total freight charge $2.43.

Truck Shipments—For truck delivery consult truckin company's local agent to be sure your town is a regul delivery point and that they can make delivery from shi ping points given in our catalog. **After you have made ar rangements for truck delivery,** put "X" in Motor Truc space on our order blank and give us name of truckin company and your complete street address. If you live out side of town and do not have a street address, be sure t give us some identifying landmark to help the truck drive find your home. Post office, rural route and box numbe locations alone are not sufficient. Truck rates are slightl higher than railroad rates.

Estimated Rail Freight Rates per 100 pounds from Dallas or Houston and nearby factories

5 Ways to Shop!

There are FIVE WAYS to Shop at Sears . . . Shop the Way you like . . . but *always* Shop at Sears and Save!

① Shop at home by mail

Take your time . . relax . . shop at home by mail. Your "catalog-store" is handy, never closes. Study illustrations and descriptions you can trust. Select from over 100,000 catalog items at Sears low prices, with satisfaction guaranteed or your money back. Write your order on a Sears order blank and mail it to us.

② Shop at home by phone

The quickest and easiest way to shop at Sears is to phone your catalog order (where service is available). Simply give the catalog number, description and price of the merchandise you want. You get prompt service from our mail order house. You pay on delivery. Satisfaction guaranteed or your money back.

③ Shop at Sears Catalog Sales Offices

For Sears mail order prices and special services, visit or phone Sears Catalog Sales office. Our current catalogs, circulars, swatch books, and merchandise displays will help you make selections. Sales people will help take measurements, and write and mail your order. You save letter postage and money order fees.

④ At Catalog Sales Department

Your nearby Sears Retail Store has a Catalog Sales Department where you can place your catalog order by phone or in person at low catalog prices. Our sales people will gladly help you select the merchandise you want. They will write and mail your order, saving you letter postage and money order fees.

⑤ Shop at Sears Retail Stores

Each of Sears over 600 stores . . the Sears store in your community carries nationally accepted, up-to-date merchandise at thrifty prices. You can buy over the counter and take the merchandise with you. We also arrange for home delivery and installation whenever required. Your nearest Sears store is listed below.

If you have any questions, write to us . . ask us anything about Sears service

After looking through this catalog, you may have some questions to ask. Perhaps you would like additional information about merchandise. If you have questions about how to make out an order, or how to have your order shipped, please don't hesitate to write. Send your questions to our Personal Service department.

Request whatever information you may need. Ask us anything you want to know about Sears service or merchandise. Your questions will receive prompt, individual attention. Address your letter or post card to Personal Service Department . . . Sears, Roebuck and Co., Dallas 2, Texas.

HOW TO MAKE OUT AN ORDER

Follow steps shown below and your shopping is done . . please give us all information requested in description of merchandise you are ordering

PRINT or WRITE PLAINLY your full name and complete address, including rural route number and rural box number if you live on a rural route.

PLEASE NOTE!

All members of the same household should order under one name and this name should be written the same way each time you order—for example: "John T. Jones" (always use full name).

Using one name per family helps us give you faster, more efficient service. It makes sure that all of your orders will be correctly credited to you and that, as a regular customer, you will automatically receive copies of Sears-Roebuck catalogs.

Please give us catalog number, quantity, name of each item, color, size, price, shipping weight and any special information required. Give us the same information whether you order on plain paper or use one of our order blanks.

Also tell us color, size and pattern where requested. Take all measurements carefully and be sure to give us sizes asked for in the description of the item you are ordering. If you haven't a tape measure, we will gladly send you one FREE on request. Just send us a post card or put a note on your next order.

Add the shipping weights of items you are ordering and change ounces to full pounds (16 ounces to the pound) to find total weight of your order. It's easy to estimate transportation charges. Complete information on Parcel Post, Freight and Express Rates is on pages 1437 to 1440.

The best ways to send money, whether you are buying for cash or on Sears Easy Terms, are by post office money order, express money order, or by bank draft or check. Your mail carrier will be glad to buy a post office money order for you if you live on a rural route. You can also obtain a money order at your post office or from your local express agent. See page 1437 for post office money order charges and page 1440 for express money order charges.

If you are ordering on Sears Easy Payment Plan, check square at bottom of order blank indicating that you are ordering on Easy Payment Terms. Then have the head of household answer Easy Payment questions and sign the form on back of order blank. If you have an Easy Payment account and are "adding on" additional purchases, please give us your Easy Payment account number. See inside back cover for additional information and table of Easy Terms.

The Sears order blank shown below is correctly made out. Use it as a guide in writing your own orders and you can be sure your order is complete. Please give special attention to first step at left and follow simple instructions step by step.

2 HOW SHALL WE SHIP? (Mark X in Proper Square)

Parcel Post ☐ Rail Freight ☐ Express ☐ Motor Truck ☐ Name of Truck Line

3 SHIP TO ANOTHER ADDRESS? If you want this order shipped to another person or to a different address, give directions here:

To order Harmony House Linoleum Floor Designs

1) Measure the widest width and longest length of your room from baseboard to baseboard (not from quarter-rounds), or front under center of doors. (See sketch at right.)

2) Examine the area sizes listed for the floor design you have chosen. Combine these in any way to fill your area. Be sure that this combination is sufficient to cover your floor. You will receive exactly the amount of material needed to cover the areas listed.

FOR TILE FLOORS. Tiles can be laid parallel with wall, or diagonally to the wall, as shown in illustrations on color page. Diagonal installation is recommended over all board floors. For diagonal installation, add 4 inches to width and to length of area. This will allow for fitting. If extra tiles are wanted, order larger area size.

FOR ALL-OVER LINOLEUM FLOORS. When ordering Catalog No. 37GM1040, draw diagram of your floor in space on other side of this sheet. Show direction of floor boards, see (X) in sketch at right.

3) Sears experts will plan your linoleum for the best possible installation and a minimum of waste. All you need to do in laying the linoleum is trim off the outside edge to fit the walls.

4) State catalog number, area sizes, color letter or letters, and prices.

Diagram below shows a regular shaped room

SEE OTHER SIDE FOR PARCEL POST FREIGHT, EXPRESS AND TRUCK SHIPPING INFORMATION

When ordering men's and young men's suits, mark measurements in proper spaces below for perfect fit

CHEST MEASURE ☐

Take chest measurement around chest over vest.* Keep tape up under arms, over shoulder blades. Hold tape snugly, but not tight.

WAIST MEASURE ☐

Measure around waistline over trousers with belt off. Or take a pair of trousers that fit, and measure them around the buttoned waistband.

INSEAM MEASURE ☐

Place end of tape-measure close up in crotch. Then measure carefully down along the inseam to the length desired.

SLEEVE LENGTH ☐

Measure carefully along seam under arm from A to B for sleeve length. Be sure this measurement is taken along the seam.

** If chest measurement is taken over shirt, instead of vest, indicate "over shirt" on order*

Also give the following information

HEIGHT—Feet _____ Inches _____ WEIGHT _____

OCCUPATION _____ AGE _____

WHAT SIZE COLLAR Do You Wear? _____

DO YOU WANT Coat Cut Snug ☐ Easy ☐ Loose ☐

IS YOUR FORM Slender ☐ Regular ☐ Stout ☐

DO YOU WEAR Belt ☐ Suspenders ☐

SIZE SCALES FOR MEN'S AND YOUNG MEN'S SUITS

For a perfect fit when ordering clothing from this catalog, *be sure to take chest, waist, inseam and sleeve length measurements as well as your height, weight and age.* When you measure your chest wear a vest, and measure around body over it. Don't order a larger size than you actually take as all our suits are cut full and according to a standard size range. Our descriptions show the sizes in which our clothes are made. If your size is listed in the suit you select, we guarantee the garment will fit you.

Men's Suit Size Chart for Regular Sizes . . In regulars, shorts and longs

Chest sizes.....	35	36	37	38	39	40	42	44
Comes in waist sizes	29 to 31	30 to 32	31 to 33	32 to 34	33 to 35	34 to 36	36 to 38	39 to 41

Men's Suit Size Chart for Semi-Stouts and Stouts

Chest sizes.....	38	39	40	42	44	46
Waist for semi-stouts.....	36-37	37-38	38-39	40-41	42-43	44-45
Waist for stouts.....	38-39	39-40	40-41	42-43	44-45	46-47

HOW TO MEASURE for Sport Coats, Topcoats, Overcoats, Raincoats

State actual chest measure around body over shirt. Be sure tape is over shoulder blades at back. *Do not make allowances as our topcoats, overcoats and raincoats are full cut to fit over suits.* Also state your height and weight as all Sears sport coats and topcoats come in regulars, longs and shorts.

Sizes _____ ☐

WHEN ORDERING ON EASY PAYMENT TERMS THE HEAD OF HOUSEHOLD SHOULD SIGN BELOW AND ANSWER QUESTIONS

SEARS, ROEBUCK AND CO.: Enclosed is a deposit of $.....which is to be used in part payment of the merchandise shipped.

Beginning thirty days after the shipment is received, I will pay $..... each month as required by your terms until the unpaid balance, plus carrying charge to be added as shown in your catalog, has been entirely paid. Until full payment is made, I agree that title to and right of possession of the merchandise shall remain in you, that I will not sell, remove, or encumber the same without your written consent, that I assume and shall be responsible for all loss or damage to said goods, and that upon default of any payment or payments, you may, at your option, take back the merchandise or affirm the sale and hold me liable for the full unpaid balance.

SHIPPING INFORMATION

PARCEL POST SHIPMENTS: On all articles for which you pay shipping charges, the shipping weight is given in the catalog description. Enter the total shipping weight for each article in the shipping weight column of the order blank. Add the pounds and ounces, then change ounces to full pounds (16 ounces equals 1 pound), and enter total weight in pounds. The postoffice counts fractions of a pound as a full pound and charges postage accordingly. For example: If your order totals 9 pounds and 34 ounces, allow postage for 12 pounds (34 ounces equals 2 pounds and 2 ounces, therefore 2 pounds 2 ounces plus 9 pounds equals 11 pounds 2 ounces).

Parcel Post Rates — Total Shipping Weight	In City where Mail Order House is located	Zones 1 and 2 Up to 150 Miles	Zone 3 151 to 300 Miles	Zone 4 301 to 600 Miles	Zone 5 601 to 1,000 Miles	Zone 7 1401 to 1,800 Miles	Zone 8 Over 1,800 Miles

For Ea. Addl. Lb., add	1¼c	2½c	3½c	4¾c	6¾c	11½c	14c

The above rates are subject to change without notice

Refer to postage chart above. If you live in Zone 3 or within 151 to 300 miles from Sears Mail Order House, the amount of postage to allow for 12 pounds is 56c. *If you send more money than is actually needed to ship your order, we will refund every penny not used.*

Complete ordering information can be found on the green pages in this Catalog.

FREIGHT OR EXPRESS SHIPMENTS: It is not necessary to send money to pay for freight and express shipping charges in advance. You pay shipping charges to agent at your freight station when goods are received. However, if there is *no agent* at your freight or express station, please include additional money with your order to prepay shipping charges. While express is faster, freight is the most economical way to ship heavy, bulky merchandise. Before marking method of shipment on order blank, compare freight and express rates shown on green pages of this catalog.

TRUCK SHIPMENTS: All Trucking Companies do not make deliveries to a home address. This can be verified by checking with your Trucking Company's local agent. If shipment is to be made to your home and you live outside of town, also give your highway route number and some identifying landmarks. It is not necessary to send money to pay for truck transportation charges. You pay shipping charges to truck driver when goods are received.

HOW TO SEND MONEY

The best way to send money is by postoffice money order, express money order, or by bank draft or check. The mail carrier will be glad to buy a postoffice money order for you if you live on a rural route. It is better not to send coins, paper money or postage stamps with orders, but should it be necessary, be sure to send your order by registered mail.

SEARS GUARANTEE

- *To Save You Money*
- *To Deliver All Merchandise Safely*
- *To Satisfy You Perfectly*

We guarantee that every article in our catalogs is honestly described and illustrated. We guarantee that any article purchased from us will give you the service you have a right to expect. If for any reason whatever you are not satisfied with any article purchased from us, we want you to return it to us at our expense. We will then exchange it for exactly what you want, or will return your money, including any transportation charges you have paid.

SEARS, ROEBUCK AND CO.

Sears Easy Payment Plan

Offers New Lower Down Payments and Lower Monthly Payments on Home Appliances— and New Lower Down Payments on Furniture and Rugs

Now you can buy any Sears Home Appliance for as little as $5 down and up to 24 months to pay the balance, as shown on the pages where they are described.

Furniture and Rugs can now be bought on Sears Easy Terms for only 10% down.

Sears liberal Easy Terms on all other items remain the same.

Everything we sell regardless of price is available on Sears Easy Terms in orders of $20.00 or more

You'll find our Easy Payment Plan a convenient and economical way to buy. It helps you have the things you want when you want them without disturbing your savings—or when you don't have all ready cash. A small down payment and you can use and enjoy new things while paying for them over the months ahead.

Why don't you open a Sears Easy Payment Account?

Simply select the items you want from this or any current Sears catalog and list them on one of our convenient order blanks. Have the head of household fill in the answers to the questions on the back of the order blank and sign it. Enclose check or money order for the necessary down payment and mail the order to Sears. That's all there is to it!

Only 10% Down Payment Required

on anything you order—EXCEPT

▶**EVEN LOWER DOWN PAYMENTS** on all Home Appliances, as shown on pages where they are described. (See list of these items at top of page.)

▶**20% DOWN PAYMENT** (one fifth) on the following articles:

Air Compressors
Auto Trailers
Motor Scooters
Paint Sprayers
Rifles
Shotguns
Saw Mills and Accessories
Timber Power Saws or Brush Cutters
Truck Tires

For amount to send with your order . . . refer to the down payment information above. If your order consists of merchandise from more than one group, figure the down payment on each group separately and add them together.

For amount payable monthly . . . when ordering Household Appliances refer to pages on which they are described . . . for all other merchandise refer to Payment Table at right. Note that the monthly payment on a new account is only $5.00 for an unpaid balance up to $55.00. For monthly payment where purchases are added to an open account, see explanation at right.

Additional Purchases on Easy Payment Accounts

Once your credit is established at Sears and you have an open Easy Payment Account with us, you can "add on" purchases amounting to $10 or more from any current Sears catalog as you need the merchandise. Just make a list of the things you need on our handy order blank, mention your Easy Payment Account number and write: "Add it to my account."

You are not required to send separate monthly payments on the new purchase and old balance on your account. The amount of your new purchase, plus our usual carrying charge, is added to the amount you owe and you pay on only one account. For monthly payments on add-on-purchases, see the explanation at the right under "Amount Payable Monthly on Add-on Purchases."

SPECIAL EASY TERMS

LOWER Down Payments and LOWER Monthly Payments for the following Home Appliances are shown on the pages where they are described.

AIR CONDITIONERS • DEHUMIDIFIERS
COLDSPOT REFRIGERATORS AND FREEZERS
COOKING STOVES AND RANGES • DISHWASHERS
CABINET SINKS • GARBAGE DISPOSAL UNITS
HOT WATER HEATERS • WATER SOFTENERS
RADIOS • PHONOGRAPHS • PIANOS
TELEVISION SETS • RECORDERS
SEWING MACHINES • VACUUM CLEANERS
WASHERS, CLOTHES DRYERS AND IRONERS

For ALL OTHER articles figure monthly payments according to Payment Table below:

Amount Payable Monthly for Add-on Purchases

If your new purchase is merchandise of a durable type, such as home appliances, farm equipment, building material, furniture, plumbing or heating equipment, your monthly payment will not be increased except where a larger payment is called for by the Payment Table above.

Where your purchase consists principally of wearing apparel or miscellaneous articles that are not of a durable nature, your present monthly payment will be increased $1.00 except where a larger payment is called for by the Payment Table above.

EXCEPTION: Your monthly payment will not be increased if your present monthly payment is sufficient to pay the new balance within eight months.

SHIPPING INFORMATION

PARCEL POST SHIPMENTS: On all articles for which you pay shipping charges, the shipping weight is given in the catalog description. Enter the total shipping weight for each article in the shipping weight column of the order blank. Add the pounds and ounces, then change ounces to full pounds (16 ounces equals 1 pound), and enter total weight in pounds. The postoffice counts fractions of a pound as a full pound and charges postage accordingly. For example: If your order totals 9 pounds and 34 ounces, allow postage for 12 pounds (34 ounces equals 2 pounds and 2 ounces, therefore 2 pounds 2 ounces plus 9 pounds equals 11 pounds 2 ounces).

PARCEL POST RATES Total Shipping Weight	Within City where Mail Order House is located	Zones 1 and 2 Up to 150 Miles	Zone 3 151 to 300 Miles	Zone 4 301 to 600 Miles	Zone 5 601 to 1,000 Miles
9 ounces to 1 pound	15c	17c	17c	19c	21c
1 pound 1 oz. to 2 pounds	17c	20c	21c	24c	28c
2 pounds 1 oz. to 3 pounds	18c	22c	24c	29c	35c
3 pounds 1 oz. to 4 pounds	19c	25c	28c	34c	42c
4 pounds 1 oz. to 5 pounds	20c	27c	31c	38c	48c
5 pounds 1 oz. to 6 pounds	22c	29c	35c	43c	55c
6 pounds 1 oz. to 7 pounds	23c	32c	38c	48c	62c
7 pounds 1 oz. to 8 pounds	24c	34c	42c	53c	69c
8 pounds 1 oz. to 9 pounds	25c	37c	45c	57c	75c
9 pounds 1 oz. to 10 pounds	27c	39c	49c	62c	82c
For Each Additional Pound, Add.	1¼c	2½c	3½c	4¾c	6¾c

Above Parcel Post rates are subject to change without notice

Refer to postage chart above. If you live in Zone 3 or within 151 to 300 miles from Sears Mail Order House, the amount of postage to allow for 12 pounds is 56c. *If you send more money than is actually needed to ship your order, we will refund every penny not used.*

Complete ordering information can be found on the green pages in Sears General Catalog.

FREIGHT OR EXPRESS SHIPMENTS: It is not necessary to send money to pay for freight and express shipping charges in advance. You pay shipping charges to agent at your freight station when goods are received. However, if there is *no agent* at your freight or express station, please include additional money with your order to prepay shipping charges. While express is faster, freight is the most economical way to ship heavy, bulky merchandise. Before marking method of shipment on order blank, compare freight and express rates shown on green pages of Sears catalog.

TRUCK SHIPMENTS—All Trucking Companies do not make deliveries to a home address. This can be verified by checking with your Trucking Company's local agent. If shipment is to be made to your home and you live outside of town, also give your highway route number and some identifying landmarks. It is not necessary to send money to pay for truck transportation charges. You pay shipping charges to truck driver when goods are received.

HOW TO SEND MONEY

The best way to send money is by postoffice money order, or express money order, or by bank draft or check. The mail carrier will be glad to buy a postoffice money order for you if you live on a rural route. It is better not to send coins, paper money or postage stamps with orders, but should it be necessary, be sure to send your order by registered mail.

SEARS GUARANTEE

- *To save you money*
- *To deliver all merchandise safely*
- *To satisfy you perfectly*

We guarantee that every article in our catalogs is honestly described and illustrated. We guarantee that any article purchased from us will give you the service you have a right to expect. If for any reason whatever you are not satisfied with any article purchased from us, we want you to return it to us at our expense. We will then exchange it for exactly what you want, or will return your money, including any transportation charges you have paid.
